February 2014

COMPLETE VITA

Robert H. Davis
Dean of the College of Engineering and Applied Science
Tisone Professor of Chemical and Biological Engineering
University of Colorado, Boulder, Colorado 80309-0424
(303) 492-7314 (phone); (303) 492-2199 (fax)
robert.davis@colorado.edu, http://www.colorado.edu/che/faculty/davis.htm

Education:

B.S., Chemical Engineering, University of California at Davis, June 1978
M.S., Chemical Engineering, Stanford University, June 1979
Ph.D., Chemical Engineering, Stanford University, September 1982 (January 1983 ceremony)
Dissertation advisor: Andreas Acrivos
Dissertation title: The Operation and Stability of Continuous Inclined Supersettlers

Professional Experience:

Research Technician, Dow Chemical Co., Walnut Creek, California, Summer, 1975
Research Engineer, Cordis-Dow Corporation, Concord, California, Summer 1976
Research Engineer, E.I. du Pont de Nemours, Edgemoor, Delaware, Summer 1977
Summer Professional, Shell Development Co., Houston, Texas, Summers 1978, 1979
Postdoctoral Fellow, Department of Applied Mathematics and Theoretical Physics, University of Cambridge, England, 1982-83
Research supervisors: Professor G. K. Batchelor and Dr. E. J. Hinch
Research topics: Coagulation; Elastohydrodynamic Collisions
Assistant Professor of Chemical Engineering, University of Colorado, Boulder, 1983-88
Associate Professor of Chemical Engineering, University of Colorado, Boulder, 1988-92
Professor of Chemical Engineering, University of Colorado, Boulder, 1992-Present
Chair of Chemical Engineering, University of Colorado, Boulder, 1992-2002
Visiting Professor and Guggenheim Fellow, Massachusetts Institute of Technology, 1990-91
Visiting Professor, University of California at Santa Barbara, 1997-98
Patten Endowed Chair, University of Colorado, 1997-2007
Tisone Endowed Chair, University of Colorado, 2007-Present
Dean, College of Engineering and Applied Science, University of Colorado, 2002-Present

Honors and Awards:

University Medalist, University of California at Davis, 1978
NATO Postdoctoral Fellowship in Science, 1982
NSF Presidential Young Investigator Award, 1985
University of Colorado Junior Faculty Development Award, 1985
Omega Chi Epsilon Outstanding Undergraduate Teaching in Chemical Engineering Award, 1989
Dow Outstanding Young Faculty Award, Rocky Mountain Section of ASEE, 1990
Guggenheim Fellowship, 1990
Outstanding Research Award, College of Engineering and Applied Science, 1993
AIChE Outstanding Paper Award, 1995
Outstanding Graduate Teaching Award, Department of Chemical Engineering, 1996, 2002
University of Colorado Faculty Fellowship, 1997
AIChE Excellence and Service Appreciation Award (Meeting Program Chair), 1999
Outstanding Service Award, College of Engineering and Applied Science, 1999

Outstanding Teaching Award, College of Engineering and Applied Science, 2000
Outstanding Research Award, Boulder Faculty Assembly, University of Colorado, 2000
Joe and Essie Smith Distinguished Lecturer, U.C. Davis, 2002
ASEE Dow Lectureship Award, 2002
Outstanding Service Award, Boulder Faculty Assembly, University of Colorado, 2003
Blue-Green Distinguished Lecturer, University of Michigan and University State University, 2006
Distinguished Engineering Alumnus Medal, University of California, Davis, 2006
ASME Certificate of Appreciation (Plenary Speaker), 2009
AIChE Fellow, 2009
AIChE Excellence and Service Appreciation Award (Awards Committee Chair), 2010

Research Interests:

Fluid Dynamics–particulate, colloidal, and microbial suspensions; sedimentation; filtration; coagulation; hydrodynamic diffusion; particle-fluid separations; composite materials processing, microstructure, and properties; droplet interactions and coalescence; flotation; microfluidics.

Biotechnology–microbial flocculation and sedimentation; aqueous two-phase extraction of cells; continuous fermentations with selective cell recycle; particle electrophoresis; *in vitro* RNA transcription; affinity separations; biomass processing.

Membrane Filtration–ultrafiltration; microfiltration; cell separations; cell debris removal; protein separations; wastewater treatment; fouling; membrane surface modification.

Selected Service Activities:

AIChE Fluids Area Program Committee, 1988-97
AIChE Fluids Area Vice Chair, 1992-96
IUTAM Symposium Organizer, 1995
ASEE ChE Summer School Workshop Organizer, 1997
Guest Editor, Special Issue of *Chemical Engineering Education*, 1998
AIChE Annual Meeting Program Chair, 1999
NAMS Meeting Program Chair, 2000
ASEE ChE Summer School Co-Chair, 2002
AIChE Awards Committee, 2005-2010, Chair 2007-2010
Co-Director, Colorado Institute for Research in Biotechnology, 1987-2001
Director, University of Colorado Biotechnology Training Program 1989-2003
Director, Colorado RNA Center, 1992-2001
Chair, Department of Chemical Engineering, University of Colorado, 1992-2002
Dean, College of Engineering and Applied Science, University of Colorado, 2002-

Grants Received by Robert H. Davis:

Total number: 82 (PI); 17 (co-PI) ***Total amount:*** $18,209,724 (PI); $4,463,979 (co-PI); list available by request

Current external research funding:

ConocoPhillips, "Enhanced Flocculation and Sedimentation for Harvesting Algae," $235,459, 1/1/11-12/31/13.

ConocoPhillips, "Extractive Photobioreactor," $524,819, 1/1/11-12/31/13 (with J. Pellegrino, PI, and Barbara Deming-Adams, co-PI).

NSF CBET-1064132, "Microstructured and Rheology of Highly-concentrated Emulsions," $338,067, 5/1/11-4/30/14 (with A. Zinchenko, PI).

Student Research Supervision (list available upon request):

PhD students graduated: 31
MS students graduated: 28
Postdoctoral Associates: 12
Undergraduate Research Assistants: 146

PhD students current: 2
MS students current: 0
Postdocs current: 1
