University of Colorado **Boulder**

EARN YOUR ARCHITECTURAL LIGHTING CERTIFICATE

GRADUATE-LEVEL EDUCATION FOR INDUSTRY PROFESSIONALS

GROW your understanding and proficiency in lighting with a three-course certificate that can be completed in one year and blends online learning with a week-long on-campus intensive.

Architectural Lighting I

online course meets twice weekly; begins in September for 14 weeks

Discover the fundamentals of architectural lighting systems and the human responses to those systems, and gain experience with the architectural lighting design process.

Architectural Lighting II

online course meets twice weekly; begins in January for 14 weeks

Explore how technical information about lighting systems is used in the design process and learn advanced design practices, metrics, and software tools.

Architectural Lighting Capstone

five-week online course + one week on campus in Boulder in Summer

Learn through an immersive hands-on experience using facilities and equipment available on the CU Boulder campus.
