

PUEBLO DE AZTLAN, Chicanos Mexicanos, Native Nations of Aztlan, our movement and people yearn for, justice, democracy, self-determination and liberty. This hermanas y hermanos is an undeniable reality.

Aware that the colonizer has hidden our history, culture and identity, converting the colonization of "America" into a "Discovery", and burying in the deepest corner of our mind that horrendous act of inhumanity, as if it never happened. Minimizing the destruction and death of America by the colonizer which in fact would make the Jewish Holocaust seem small. We realize that the Colonization, has obstructed our growth as a free and self-determined people, but in spite of this, our humanity has created an everlasting bond between all colonized peoples of Las Americas, which is, LA RAZA. This barbaric act set in motion the crystallization of our identity as Chicanos and our mother land as Aztlan.

In addition to the colonization by Europe, Chicanos / Indigenous People of Aztlan, have also been subjected to USA settler colonialism, disguise as the Mexican American War. This second colonization deepened the subjugation of La Raza, converting us into an internal colony, "strangers in our own land", and slaves to USA Industrial Capitalism.

Now , after 512 years of resistance to colonization. Our people continue to struggle for, liberty, sovereignty and self-determination. We are the result of that inhumane act of barbarism, and the triumph of a new people. We know who we were and what we are.

Our quest to heal can't wait for the colonizer to rectify its inhumanity, we must resolve it for ourselves. We are aware that the colonizer will not willingly become, humane and just, thus it's up to us, to organize, raise the consciousness of our people, and liberate the, hearts and minds of our gente and humanity.

TODAY WE SAY, YA BASTA! In the barrios of Aztlan, the U.S. "Indian" reservations; or in the fantasies of, Capitalist Consumer "America", WE ARE ONE PEOPLE AND ONE STRUGGLE.

Nuestra lucha calls for us to look beyond senseless and petty differences, and places us at the threshold of freedom and liberation. SEIZE THE TIME RAZA!

We insist that there has to be UNITY in Aztlan. All indigenous nations and people need to understand that as a fragmented people we are nothing against the enemies of humanity, but that as a fist we are more powerful than an open hand.

For too long has our history and struggle been concealed, it is time to "get up and stand up" Our first step is unity among all honest and conscious man and woman, which in turn demands action. Our history and struggle must be known, Cuahutemoc. Crazy Horse, Geronimo, Joaquin, Cortina, Vasquez, Zapata, Magon, Las Adelitas, Emma Tenayuca, and Che, must echo in the minds of our children, As inspiration for liberation.

Los Cortinistas (1850), El Plan De San Diego Texas (1910) the Zoot Suit Movement (1940). El Plan Espiritual de Aztlan (1968), Yo Soy Joaquin, the Chicano Power Period (1965-1975), are testimony to our identity as Chicanos and Aztlan as our motherland.

Aware of our history and as a serious and disciplined movement, we must unite our people, to rid ourselves from the manipulation of the "Two Party Dictatorship" (democrats, republicans) who are simply the agents of US Global Capitalist Imperialism

El Nuevo Amanecer is near, and Aztlan shines from within our hearts, freeing our minds from the vendido's excuses and justifications. THERE ARE NO MORE EXCUSES!

Revolutionary Chicanismo, which is based on our protracted struggle, viewed through the movements of our indigenous Chicano People, and projected within the perspectives of international revolutionary examples, is our ideology. Chicano Revolutionary Nationalism, is the synthesis of, who we were, what we have become, and what is ours.

Unity , is indispensable and possible. But Unity requires, work, consciousness and a clear ideological perspective, which is Revolutionary Chicanismo.

Revolutionary Nationalism opposes the system that oppresses all working class

**communities, and struggles for democracy and a better world for all people.
Yes, Raza, Esta Es nuestra tierra, Esta es nuestra Lucha.**

**We uphold that, Mexico, Central / South America and Aztlan are, "The Bronze
Continent", La Patria Grande, and state once and for all that, we, ARE NOT
IMMIGRANTS!**

**We are Chicanos and Aztlan hungers for liberation. Aztlan lives, in our
communities and barrios, in our schools and universities and in our hearts and
minds, WE ARE AZTLAN!**

**And there can't be any rest until Aztlan becomes that awaited truth. We make
no apologies for affirming our national identity as Chicanos and our struggle
for our Land, AZTLAN ,**

"Que viva el Pueblo Chicano, Que viva Aztlan Libre!"
