Grading:

Your grade for this course will be determined as follows:

1) You will take two hourly examinations. Each exam will count 30% of your grade.

Note: There will be no make-up exams of any kind given for this course.
If you must miss a midterm exam, and have discussed this matter with me prior to the exam, I will increase the weight of your final exam proportionately.

2) You will take a comprehensive final examination. This exam will count 40% of your grade. In addition, if your percentage on the final exam is greater than your percentage on either of the hourly exams, and you have taken both exams, I will substitute your percentage on the final for the lowest of your hourly exam percentages when calculating your course grade.
