URBAN ECONOMICS: ECONOMICS OF CITIES (ECON 4242)
Department of Economics, University of Colorado
Fall 2015

Classtime: M, W, F: 10:00 - 10:50 am
Room: ECON 117

Professor: Charles de Bartolome
Office: ECON 203
Office hours: Mon 2:15 - 3:15 pm; Tu 9:15-10:15 am;
Fri 2:15 - 3:15 pm.
e-mail: debartol@colorado.edu

Clickers: Each student must buy a *i>clicker*. If you do not already own one, an *i>clicker* may be purchased at the University of Colorado bookstore. Clickers will be used to give class problems which will be scored.

Clickers should be registered at: myCUinfo.colorado.edu
Register using your Identity Login not your student ID.

Course description:
The U.S. is an urban country, with 80% or the population living in urban areas. This course considers the economic forces which drive households and jobs to congregate in metropolitan areas and thereby create cities. It then considers the forces within the city which determine how the established cities “look” - how rents vary with location, the distribution of jobs and households within a city, urban sprawl, and the sorting of households between neighborhoods. Finally it considers some government policies relating to land use and housing.

Pre-requisites:
Intermediate Microeconomics, ECON 3070;
Introduction to Statistics with Computer Applications, ECON 3818.

Course Assignments and Desire2Learn:
All course assignments, problem sets and some lecture notes are posted on the Desire2Learn at: [http://learn.colorado.edu](http://learn.colorado.edu).

Please note that six pages of each Adobe Acrobat file can be printed on a single sheet by clicking as: Print>Properties>Multipage>6.
**Attendance at class:**

Woody Allen once remarked: "90% of success is just turning up". The best way to learn the material is to attend class. Reading the lecture notes posted on the web is not a good substitute for attendance. Attendance at class is expected and required.

**Administrative Drop:**

Because attendance is important and is expected, I will drop from the class any student who neither attends one the first three classes of the term nor gets special permission from me for his/her absence.

**Problem Sets:**

Problem sets with answers are listed under each topic on the syllabus. The problem sets are an integral part of the course. They are designed to help you use the material and a significant part of the exams will closely follow their format.

Although the answers to the problem sets are posted, I encourage you to make a real effort to solve the problem before you check the answer.

There are many questions at the end of each chapter in the textbook. I encourage you to work through the questions which relate to the material covered in class (I will post a list of these questions on Desire2Learn).

**Grading:**

There will be two midterms, a final exam, in-class clicker questions and paper summaries. Your grade will be determined as:

- 25% First Midterm
- 30% Second Midterm
- 30% Final
- 8% In-class clicker questions.
- 7% Paper summaries

Concerning in-class clicker questions. I will use clicker questions to reinforce the main point of a lecture. Each correct answer will receive 1 point, and an absence or an incorrect answer will receive zero points. In calculating your total score for all in-class clicker questions, I will sum your scores for all days, omitting your three lowest daily scores.

Concerning the paper summaries. One of the objectives of this course is to introduce you to how economic knowledge is created and distributed (research). As a way of doing this, I will present some research papers. You are required to read
the paper before I present it and complete a summary sheet which is to be given in before the presentation.

Exams:

The two midterms will be given in the evening as:

FIRST MIDTERM: Monday 21 Sept 7:00 p.m. - 8:40 p.m.
in

SECOND MIDTERM: Monday 2 Nov 7:00 p.m. - 9:00 p.m.
in

The final exam will be held as:

FINAL: Wednesday 16 Dec 4:30 p.m. - 7:00 p.m.
in ECON 117

You must bring two blue-books to each exam.

Because this is a 4000-level class, the exams will not just repeat material covered in class. Some questions will follow the material covered in class and in the problem sets, but some will ask you to apply the material in a different environment.

Failure to be present at an exam:

If you are unable to take an exam because of illness and have a medical note from your doctor to confirm this, you may take a make-up. Otherwise, unless you have obtained my prior permission to take the make-up, failure to be present for an exam will cause your score to be 0 for that exam.

Using Clickers:

I consider it cheating if a student uses another student’s clicker.

You get a green light when your answer is registered. If you get a red light, your clicker is not registering and your score is automatically zero.

Classroom courtesy:

Please turn your cell ‘phone off prior to the start of class.

I believe that learning is enhanced if there is full concentration by both the instructor and the student. To facilitate this, laptops may only be used in the front two rows of the classroom and usage of laptops in class is restricted to following the course notes.
Students with Special Needs:
If you qualify for accommodations because of a disability, please submit to me a letter from Disability Services in a timely manner so that your needs may be addressed. Disability Services determines accommodations based on documented disabilities. Contact: 303-492-8671; Center for Community Building, Room N200; or http://disabilityservices.colorado.edu

If you have a temporary medical condition or injury, please see the guidelines at: http://disabilityservices.colorado.edu

Disability Services’ letters for students with disabilities indicate legally mandated reasonable accommodations.

Religious Observances:
Campus policy regarding religious observances requires that faculty make every effort to reasonably and fairly deal with all students who, because of religious obligations, have conflicts with scheduled exams, assignments or required attendance. In this class, please let me know in a timely manner if one of the exam dates falls on a religious holiday you intend to observe and I will arrange for you to take a make-up. See policy details at: http://www.colorado.edu/policies/fac_relig.html

Classroom Behavior:
Students and faculty each have responsibility for maintaining an appropriate learning environment. Students who fail to adhere to such behavioral standards may be subject to discipline. Professional courtesy and sensitivity are especially important with respect to individuals and topics dealing with differences of race, color, culture, religion, creed, politics, veteran’s status, sexual orientation, gender, gender identity and gender expression, age, disability, and nationalities. Class rosters are provided to the instructor with the student's legal name. I will gladly honor your request to address you by an alternate name or gender pronoun. Please advise me of this preference early in the semester so that I may make appropriate changes to my records. See policies at http://www.colorado.edu/policies/student-classroom-and-course-related-behavior And at: http://www.colorado.edu/studentaffairs/studentconduct/index.html

Academic Integrity:
All students of the University of Colorado at Boulder are responsible for knowing and adhering to the academic integrity policy of this institution. Violations of this policy may include: cheating, plagiarism, aid of academic dishonesty, fabrication, lying, bribery, and threatening behavior. All incidents of academic misconduct
shall be reported to the Honor Code Council (honor@colorado.edu; 303-735-2273). Students who are found to be in violation of the academic integrity policy will be subject to both academic sanctions from the faculty member and non-academic sanctions (including but not limited to university probation, suspension, or expulsion). Other information on the Honor Code can be found at:
http://www.colorado.edu/policies/honor.html and at http://honorcode.colorado.edu

Discrimination and Harassment Policy:
The University of Colorado at Boulder is committed to maintaining a positive learning, working, and living environment. The University of Colorado does not discriminate on the basis of race, color, national origin, sex, age, disability, creed, religion, sexual orientation, or veteran status in admission and access to, and treatment and employment in, its educational programs and activities. (Regent Law, Article 10, amended 11/08/2001). CU-Boulder will not tolerate acts of discrimination or harassment based upon Protected Classes or related retaliation against or by any employee or student. For purposes of this CU-Boulder policy, “Protected Classes” refers to race, color, national origin, sex, pregnancy, age, disability, creed, religion, sexual orientation, gender identity, gender expression, or veteran status. Individuals who believe they have been discriminated against should contact the Office of Discrimination and Harassment (ODH) at (303) 492-2127 or the Office of Student Conduct (OSC) at (303) 492-5550. Information about the ODH, the above referenced policies, and the campus resources available to assist individuals regarding discrimination or harassment can be obtained at http://hr.colorado.edu/dh/Pages/default.aspx

</table>
Why households cluster
- joint labor supply
- mentor matching
- social matching

*Problem Set: Input Sharing*
*Problem Set: Labor Pooling*
*Problem Set: Skill Matching*
*Problem Set: Social Matching*

21 Sept Review
FIRST MIDTERM (7:00 - 8:40 pm in )
3. METROPOLITAN POPULATION AND JOBS

23, 25 Sept  POPULATION SIZE
Jobs
Standard of Living Model
- Equilibrium City Size
Limiting Growth
  - urban growth boundary
  - limiting building permits
  - development fees

Problem Set: Equilibrium City Population
Problem Set: Urban Growth Boundary

28, 30 Sept  URBAN GROWTH
2 Oct  Role of human capital
Urban growth
Employment multiplier

Problem Set: Spreading beneficial effects
Problem Set: Metropolitan Development Policy

4. LAND USE PATTERN

7, 9, 12, 14 Oct  BID-RENT CURVES
Capitalization
  “Left-over principle”
  - bid-rent for agriculture
  - bid-rent for manufacturing firms
  - bid-rent for offices
  - bid rent for households
  - bid-rent curves and land-use patterns

(omit pp. 141-142, 156-160)
Problem Set: Factory Bid-Rent
Problem Set: Office Travel Costs
Problem Set: Office Bid-Rent With No Production Substitution
Problem Set: Residential Bid-Rent With No Consumption Substitution
Problem Set: Using Bid-Rent Curves

16, 19 Oct
SKYSCRAPER OFFICES, HIGH-RISE APARTMENTS AND TOWNHOUSES pp 141-142, 16-160
Substitution in the construction of offices
Substitution in the consumption of housing

Problem Set: Office Bid-Rent: Skyscraper Offices
Problem Set: Residential Bid-Rent: High Rise Apts. and Townhouses

21, 23 Oct
MONOCENTRIC CITY
Monocentric city (pp. 161-181, “Edge Cities” 193-195, 198-201)
LAND-USE POLICY
Policy: land-use zoning
Open Space (pp. 230-239)
Urban sprawl pp. 181-189

Problem Set: Zoning Land as “For Agricultural Use Only.”

*26 Oct
Journal of Policy Analysis and Management 19, 569-586

5. MAKE-UP OF COMMUNITIES/NEIGHBORHOODS

28, 30 Oct
SORTING
Income sorting also: pp. 195-197
Public good/public service sorting
Socio-economic sorting

Problem Set : Income Sorting
Problem Set: Public Service Sorting
Problem Set : Socio-Economic Sorting 1

9
Problem Set: Socio-Economic Sorting 2

2 Nov
Review
SECOND MIDTERM (7:00 - 9:00 pm in )

4, 6 Nov
ZONING
Space externality
Fiscal zoning

Problem Set: Min Lot Size Zoning

6. HOUSING

9,11,13, 16 Nov
WHY IS HOUSING DIFFERENT
Durability
- deterioration and maintenance
Filtering model

18, 20 Nov
HOUSING POLICY
Supply side
- public housing
- subsidies for private housing (Sections 236 and 8)
- low-income housing tax credit
Demand side
- housing vouchers
Community development
Mortgage deduction

Problem Set: Evaluating a housing program.

*30 Nov
7. MASS TRANSIT
