Office. Economics Building 105.

Meetings. Tuesdays and Thursdays 12:30 PM - 1:45 PM in ECON 117.

Office hours. Tuesdays and Thursdays 4:00 PM - 5:00 PM or by appointment. For appointment send an email to carlos.martins@colorado.edu.

Prerequisites. Successful completion of ECON 3818 or equivalent is a required prerequisite. ECON 4818 is desirable, but by not necessary.

Objectives. Introduce statistical models, estimation and testing procedures used in analyzing financial data.

Class URL. http://spot.colorado.edu/~martinsc/Econ_4858.html.

Grades. Grades (A-F) will be based on the following:

- There will be four sets of homework questions whose answers will be graded. Each set accounts for 10 percent of your course grade. Some of these questions will involve the use of MATLAB, a software that is freely available on campus.

- There will be one midterm examination. It accounts for 30 percent of your course grade.

- There will be a final examination. It accounts for 30 percent of your course grade.

Dates for the examinations:

<table>
<thead>
<tr>
<th>Examination</th>
<th>Date and Time</th>
</tr>
</thead>
<tbody>
<tr>
<td>Midterm</td>
<td>October 13, Econ 117</td>
</tr>
<tr>
<td>Final Examination</td>
<td>December 12, 1:30 PM - 4:00 PM, Econ 117</td>
</tr>
</tbody>
</table>

Homework sets will be available on the class web site with their respective due dates.

Textbook.

Additional.

   This book gives an informal and historical account of the development of many of the models we treat in class. Great reading for all students in this course.

   These books contain much of the material in our textbook. In many instances, however, the treatment is more advanced.
   This is an advanced textbook, normally used in graduate courses. Its study is recommended for those
   that have taken more advanced courses in probability, statistics and econometrics and are looking for
   a deeper understanding of what we discuss in class.

   Jersey.
   This is one of many step-by-step manuals/guide to MATLAB that are commercially available. It is
   very easy to read and provides speedy access to the many resources this software offers.

   This is another step-by-step introduction to MATLAB with a focus on the Econometrics Toolbox.

Topics.

All readings are from the textbook and class notes.

1. Introduction and Basic Concepts for Probability and Statistical Models
   - Random variables
   - Distribution functions, Cumulative distribution functions
   - Quantiles, moments, order statistics
   - Skewness, kurtosis and heavy tail distributions
   - Multivariate distributions, marginals and conditional distributions
   - Prediction Estimation - maximum likelihood, least squares
   - Hypothesis testing and confidence intervals

2. Returns
   - The random walk model
   - The efficient market hypothesis

3. Regression
   - Least squares estimation
   - Regression and best linear prediction
   - Non-normality and data transformations

4. Time Series Models
   - Stationarity
   - Autoregressive AR(p) models and estimation
   - Moving average models MA(q) and estimation ARMA/ARIMA models
   - Model selection: Akaike’s information criterion (AIC) and Bayesian information criterion (BIC)
   - Forecasting
   - ARCH and GARCH models

5. Portfolio theory
   - Trading off expected return and risk
6. The capital asset pricing model
   - Capital market line, security market line
   - Security characteristic line
   - Using CAPM in portfolio analysis
   - Factor models

7. Fixed income securities
   - Zero-coupon bonds, coupon bonds
   - Yield to maturity
   - Term structure
   - Continuous compounding
   - Continuous forward rates
   - Sensitivity of price to yield

8. Value-at-Risk
   - One asset
   - Portfolio

9. Options pricing
   - Call options
   - The law of one price
   - Pricing calls
   - Martingales
   - The Black-Scholes model, formula and its use
   - Puts
   - Evolution of option prices
   - Leverage of options and hedging

**Important information.**

- If you qualify for accommodations because of a disability, please submit a letter from Disability Services in a timely manner (for exam accommodations provide your letter at least one week prior to the exam) so that your needs can be addressed. Disability Services determines accommodations based on documented disabilities. Contact Disability Services at 303-492-8671 or by e-mail dsinfo@colorado.edu.

If you have a temporary medical condition or injury, see Temporary Medical Conditions: Injuries, Surgeries, and Illnesses guidelines under Quick Links at Disability Services website and discuss your needs with me.

- Campus policy regarding religious observances requires that faculty make every effort to reasonably and fairly deal with all students who, because of religious obligations, have conflicts with scheduled exams, assignments or required attendance. In this class, if the midterm, final or homework due dates prevent/inhibit you from exercising your rights to religious observance, please inform me by August 29, so that reasonable accommodations can be made. See full details at www.colorado.edu/policies/fac_relig.html.
Students and faculty each have responsibility for maintaining an appropriate learning environment. Those who fail to adhere to such behavioral standards may be subject to discipline. Professional courtesy and sensitivity are especially important with respect to individuals and topics dealing with differences of race, color, culture, religion, creed, politics, veteran’s status, sexual orientation, gender, gender identity and gender expression, age, disability, and nationalities. Class rosters are provided to the instructor with the student’s legal name. I will gladly honor your request to address you by an alternate name or gender pronoun. Please advise me of this preference early in the semester so that I may make appropriate changes to my records. See polices at www.colorado.edu/policies/classbehavior.html and at www.colorado.edu/studentaffairs/judicialaffairs/code.html#student_code.

The University of Colorado at Boulder is committed to maintaining a positive learning, working, and living environment. The University of Colorado does not discriminate on the basis of race, color, national origin, sex, age, disability, creed, religion, sexual orientation, or veteran status in admission and access to, and treatment and employment in, its educational programs and activities. (Regent Law, Article 10, amended 11/8/2001). The University of Colorado at Boulder will not tolerate acts of discrimination or harassment based upon Protected Classes or related retaliation against or by any employee or student. For purposes of this The University of Colorado at Boulder policy, ”Protected Classes” refers to race, color, national origin, sex, pregnancy, age, disability, creed, religion, sexual orientation, gender identity, gender expression, or veteran status. Individuals who believe they have been discriminated against should contact the Office of Discrimination and Harassment (ODH) at 303-492-2127 or the Office of Student Conduct (OSC) at 303-492-5550. Information about the ODH, the above referenced policies, and the campus resources available to assist individuals regarding discrimination or harassment can be obtained at http://hr.colorado.edu/dh/

All students of the University of Colorado at Boulder are responsible for knowing and adhering to the academic integrity policy of this institution. Violations of this policy may include: cheating, plagiarism, aid of academic dishonesty, fabrication, lying, bribery, and threatening behavior. All incidents of academic misconduct shall be reported to the Honor Code Council honor@colorado.edu; 303-725-2273). Students who are found to be in violation of the academic integrity policy will be subject to both academic sanctions from the faculty member and non-academic sanctions (including but not limited to university probation, suspension, or expulsion). Other information on the Honor Code can be found at www.colorado.edu/policies/honor.html and at http://honorcode.colorado.edu.
