Economics 4535  
Natural Resource Economics  
Spring 2015

Instructor:  Billy Mertens  
Office:  ECON 12  
E-mail:  mertens@colorado.edu  
Web:  https://learn.colorado.edu/  
Office Hours:  T 12:20 – 1:55pm & 3:15 – 4:35pm; R 12:20 – 1:55pm

Course Description  
This course is designed to give you an introduction to the implications of natural resources as economic concepts. It presents theories of efficient utilization of natural resources and discusses issues related to current practices of use of resources. We will study natural resources used in the economy, the value of natural resources to society, and the allocation of renewable and non-renewable resources. We also discuss issues of sustainability, conservation, and preservation. The course extensively uses graphical analyses and some mathematical models.

A more detailed outline of covered material is posted separately.

Policy on Cheating:  
If you are found to have violated the honor code (see below), by both the honor code council and myself, you will automatically fail the course!

Prerequisites  
Students must have completed ECON 2010, 2020, 3070 and 3818. I assume that you did not only take the class, but also that you understand and remember the content. It is very important that you fulfill the prerequisite before you take this course, and still understand the materials in the prerequisite. If you have any uncertainty as to whether you are under or over qualified to take the course, please talk to me ASAP. The prerequisites must be strictly enforced.

Readings  
There required text for this course is “Environmental and Natural Resource Economics” by Tietenberg and Lewis (T&L) is pretty good. The ninth edition can be found online at: http://www.pdfdrive.net/environmental-natural-resource-economics-2-downloads-e5831796.html (I believe this is a reputable site and violates no copyright laws – let me know if you find this is not the case). The T&L text has enough relevant material that I have specified the corresponding chapters in the course outline. We will skip around and omit some material (especially the material targeted to the environmental class), and some of what will be presented is a little above this text. Some of that material may be found in: http://dutraeconomicus.files.wordpress.com/2014/01/roger-perman-yue-ma-michael-common-david-maddison-james-mcgilvray-natural-resource-and-environmental-economics-3rd-edition-2003.pdf. There will be additional assigned readings for nearly every topic we cover. These readings will be posted separately on the course website.
Class format
The first portion of the course will be a fairly basic introduction to the tools used in analyzing natural resource issues. We will then cover some general natural resource topics, and analysis techniques. Finally we turn to applied problems, and public policy issues. A more detailed course outline will be posted on the course website.

A Note on Learning Systems and Assessments
This course is a little more traditional than many of the other classes I teach. Lecture is still the primary component, but group assignments and discussions are taking on a slightly larger role. One of the most important changes from prior semesters is that all exams will be cumulative, and we will spend at least a little time reviewing for each exam. A little more detail on these systems is given below:

Learning systems:
1. Lecturing: explaining difficult material not easily learned on your own with text, groups, etc.
2. Exams: exams should be learning tools as well as assessment tools! We will go over each exam in depth in class. Reviewing exams is one area where in-class discussion and explanation are most effective. Just reading answers on a key has been shown to be one of the worst ways to learn material. Therefore, exam reviews will be the one area of class where no notes, associated pictures or keys will be posted.
3. Group-Led-Discussions: we will cover both classic and more recent relevant articles from scholarly journals. Group-led-discussions are a mix of presentations and discussions. The more creative you can be with these, the more you will get out of them (and the better will be your grade). Finding interesting ways to engage the class in discussion of these articles will teach you critical skills that will not only solidify the current information, but will also aid in your learning for other classes. Presentation of material is one of the most instructive learning systems because:
   a. If you are going to inform others about what you know, you must first fully understand it yourselves. If you cannot explain a concept to others you may not fully understand it yourself.
   b. You must research the topic, which may expose you to new ideas and sources of material. These sources could help in other coursework.
   c. Most “real-world” careers require some form of presentation skills.
   d. You will start to learn how to defend specific points of view in front of others. This is a critical professional skill!
   e. Help you learn to organize information in a clear & concise way. Your audience will want to hear the most relevant information in the most clear and understandable fashion.
   f. Help you learn presentation tools, formats and devices.
   g. You learn how to practice presentations and fit information into a set time period (very important in business).
   h. You can discern what it takes to teach others.
   i. It will teach you how to respond to critical questions in front of others.
   j. Learn to analytically and reasonably justify a specific economic rationale.
4. Group scholarship: we will work some practice problems in groups, which can help your understanding of the material whether you already understand it fairly well, or are struggling a bit. I will announce the days for these problems at least a week in advance.
5. Self-study: reading the articles and solving the review questions.
Exams
There will be two cumulative exams and a cumulative final. Tests will consist of short-answer questions and some longer problems. The exams will all be cumulative, and the material does build on itself so it is important to understand all of the concepts as we go. Exams will be given in class on the days listed. If you miss an exam with a valid excuse (e.g. a note from your doctor or Wardenburg), then the weight of your final will be increased. Undocumented illnesses do not count as valid excuses (as long as this is not in conflict with a University policy). Note that the exam dates below are not tentative – exams will be given in class on the days listed. NO EXAMS WILL BE DROPPED!!

Exam Schedule:
Exam I: Thursday, February 19th
Exam II: Thursday, March 19th
Final exam: Wednesday, May 6th 1:30 – 4:00pm in our usual room.

Final Exam Conflicts:
If you have three or more final exams scheduled on the same day, you are entitled to arrange an alternative exam time for the last exam or exams scheduled on that day. To qualify for rescheduling final exam times, you must provide evidence that you have three or more exams on the same day, and arrangements must be made with your instructor no later than the end of the sixth week of the semester (Friday, February 20th, 2015). It is actually not possible for ours to be the third exam on Wednesday 5/6, so no alternate exams will be offered for this reason.

Group-Led Article Discussions, Quizzes and Participation
We will review several relevant academic articles on different issues in natural resource economics. You will be required to understand these articles, and you will work in teams of 3-4 people to present one of the articles and lead the discussion for that article. When you are not in the discussion group you are still expected to have read the article and there will be a short quiz.

The class will take a 10 minute quiz at the beginning of the hour to be sure everyone is ready to discuss, and during that time, you will set-up and prepare your discussion (you get 100% for that day’s quiz!). You should be able to keep the class engaged in discussion for about an hour. You will be graded down if you cannot keep the class engaged in an interesting and informative discussion about the paper for at least 55 minutes.

In-class Group Assignments:
These cooperative learning exercises (detailed above) are extremely important. The group project dates are listed in the course outline. It is important not to miss these days without an excused absence.

Grading:
Group Assignments 6%
Group-Led Discussion 12%
Quizzes (and Participation) 15%
Exam I (Thursday, 2/19) 20%
Exam II (Thursday, 3/19) 22%
Final Exam (Wednesday, 5/6 @ 1:30am) 25%
Incompletes, Extra Credit, etc.:
I adhere strictly to the University guidelines on Incompletes ("An I is given only when students, beyond their control, have been unable to complete course requirements. A substantial amount of work must have been satisfactorily completed before approval for such a grade is completed."). Bad grades, unsatisfactory performance, too many credit hours, work conflicts, etc. are not reasons for an incomplete.

I am adamant about giving each student an equal opportunity to perform well in the course, so there will be no extra credit opportunities that are not offered to the entire class. You should focus your efforts on learning the material and doing well on the exams.

Attendance Policy:
Daily attendance will be taken for each class. You must attend a minimum of 80% of the lectures/discussions (non-exam days & not the first day) to pass the course. If you miss more than 20% of these days (more than 5 days), you will receive an automatic F. A sign-in sheet will be circulated daily. It is your responsibility to make sure that you have signed in for each class (having someone else sign your name is a violation of the honor code).

Grading Scale:

<table>
<thead>
<tr>
<th>Your Score</th>
<th>Grade</th>
</tr>
</thead>
<tbody>
<tr>
<td>92% to 100%</td>
<td>A</td>
</tr>
<tr>
<td>90% to 91%</td>
<td>A-</td>
</tr>
<tr>
<td>88% to 89%</td>
<td>B+</td>
</tr>
<tr>
<td>82% to 87%</td>
<td>B</td>
</tr>
<tr>
<td>80% to 81%</td>
<td>B-</td>
</tr>
<tr>
<td>78% to 79%</td>
<td>C+</td>
</tr>
<tr>
<td>72% to 77%</td>
<td>C</td>
</tr>
<tr>
<td>70% to 71%</td>
<td>C-</td>
</tr>
<tr>
<td>68% to 69%</td>
<td>D+</td>
</tr>
<tr>
<td>62% to 67%</td>
<td>D</td>
</tr>
<tr>
<td>60% to 61%</td>
<td>D-</td>
</tr>
<tr>
<td>Below 59.5%</td>
<td>F</td>
</tr>

</table>

Additional Notes:

Honor Code
All students of the University of Colorado at Boulder are responsible for knowing and adhering to the academic integrity policy of this institution. Violations of this policy may include: cheating, plagiarism, aid of academic dishonesty, fabrication, lying, bribery, and threatening behavior. All incidents of academic misconduct shall be reported to the Honor Code Council (honor@colorado.edu; 303-725-2273). Students who are found to be in violation of the academic integrity policy will be subject to both academic sanctions from the faculty member and non-academic sanctions (including but not limited to university probation, suspension, or expulsion). Additional information on the Honor Code can be found at http://www.colorado.edu/policies/honor.html and at http://www.colorado.edu/academics/honorcode
**Disabilities**

If you qualify for accommodations because of a disability, please submit to your professor a letter from Disability Services in a timely manner (for exam accommodations provide your letter at least one week prior to the exam) so that your needs can be addressed. Disability Services determines accommodations based on documented disabilities. Contact Disability Services at 303-492-8671 or by e-mail at dsinfo@colorado.edu.

If you have a temporary medical condition or injury, see Temporary Injuries under Quick Links at Disability Services website and discuss your needs with your professor.

**Religious holidays**

A comprehensive calendar of the religious holidays most commonly observed by CU-Boulder students can be found at http://www.interfaithcalendar.org/ Review this list and the class syllabus. After reviewing the syllabus, please see the instructor if you believe that you need an accommodation for religious reasons. The instructor should be notified within the first two weeks of classes. Campus policy regarding religious observances states that faculty must make *reasonable* accommodation for them and in so doing, be careful not to inhibit or penalize those students who are exercising their rights to religious observance. For more see http://www.colorado.edu/policies/fac_relig.html

**Code of Behavior**

Students and faculty each have responsibility for maintaining an appropriate learning environment. Those who fail to adhere to such behavioral standards may be subject to discipline. Professional courtesy and sensitivity are especially important with respect to individuals and topics dealing with differences of race, color, culture, religion, creed, politics, veteran's status, sexual orientation, gender, gender identity and gender expression, age, disability, and nationalities. Class rosters are provided to the instructor with the student's legal name. I will gladly honor your request to address you by an alternate name or gender pronoun. Please advise me of this preference early in the semester so that I may make appropriate changes to my records. See policies at http://www.colorado.edu/policies/classbehavior.html and at http://www.colorado.edu/studentaffairs/judicialaffairs/code.html#student_code

**Policy on Discrimination and Harassment**

The University of Colorado Boulder (CU-Boulder) is committed to maintaining a positive learning, working, and living environment. The University of Colorado does not discriminate on the basis of race, color, national origin, sex, age, disability, creed, religion, sexual orientation, or veteran status in admission and access to, and treatment and employment in, its educational programs and activities. (Regent Law, Article 10, amended 11/8/2001). CU-Boulder will not tolerate acts of discrimination or harassment based upon Protected Classes or related retaliation against or by any employee or student. For purposes of this CU-Boulder policy, "Protected Classes" refers to race, color, national origin, sex, pregnancy, age, disability, creed, religion, sexual orientation, gender identity, gender expression, or veteran status. Individuals who believe they have been discriminated against should contact the Office of Discrimination and Harassment (ODH) at 303-492-2127 or the Office of Student Conduct (OSC) at 303-492-5550. Information about the ODH, the above referenced policies, and the campus resources available to assist individuals regarding discrimination or harassment can be obtained at http://www.colorado.edu/odh

Any University policies that are in conflict with my own policies will supersede my policy!
