Course Overview

This course explores theoretical framework for analyzing the economic behavior of individual decision makers such as consumers, workers, managers, and firms. The techniques covered in this course will be essential for anyone intending to pursue further studies in economics as many fields including industrial organization, trade and labor economics that are built on microeconomic foundations.

This course consists of four parts. We begin with a basic review of supply and demand. In second part, we examine consumer behavior and market demand by constructing a model of consumer choice and using the model to derive individual and market demand. In the part following we turn our attention to the other side and analyze the behavior of firms and market supply. We study how each firm decides the input combination to produce its output and the quantity of output to bring to market. From this, we derive firm’s supply curve and the market supply curve. In the last part, we bring both consumer and firm sides to determine market price and quantity in various market structures including perfect competition, monopoly, and oligopoly.

Lectures

Attendance will be taken daily. If you miss 4 or more of the scheduled class meetings, your course grade will be automatically lowered two levels (e.g. if you get a B+ but have missed 4 or more classes, your grade will be lowered to a B-). These absences are intended to cover both valid (illness, family emergency) and invalid reasons for missing class. You need to attend more than 80% of class meetings to get a passing grade, which means you will fail this course if you miss 5 or more of the scheduled class meetings.

You are responsible for all information covered in class lectures. I do not post or give out my notes. If you miss a class, you should be able to get the notes from one of your classmates. You are encouraged to come to my office hours to discuss the material you
missed, but you must first obtain and go over the notes. Please review the material covered in the previous lecture before coming to class. Full participation in class activities is expected.
