Textbook

One required textbook: Gregory Mankiw, Macroeconomics, Fifth Edition, Worth Publishers, 2002

Course Description

Macroeconomics studies the economy as a whole. It analyzes the phenomena such as inflation, unemployment and economic growth. The main topics include: I. Introduction II. Classical Theory: The economy in the long run III. Growth Theory: The economy in the very long run IV. Business Cycle Theory V. The Microeconomics Behind Macroeconomics

Grading

The final grade for the course will be determined as follows:

Exam 1	25%
Exam 2	25%
Final	30%
Homework	20%

Exams

Exam 1 and Exam 2 each accounts for 25%, and the final accounts for 30%. The final is not cumulative. **No make-up exams.** If you have to miss an exam, you must let me know before the exam and show a note from some acceptable authority explaining your absence. With an acceptable reason, you will be given a final with additional materials from the missed exam. And in such case, the final will be given extra weight when your grade is calculated.

Homework

Homework accounts for 20% of your grade and will be assigned for each chapter.

Students With Disabilities

If you have physical, psychiatric, or learning disabilities and require accommodations, please let me know early in the semester so that your learning needs may be appropriately met. You will need to provide documentation of your disability to the Disability Services Office in Willard 322 (phone 303-492-8671).

Dates of Exams

Exam 1	Sept. 29
Exam 2	Nov. 5
Final	To be announced
