

1 Environmental Economics 8535

1.1 Quiz 1

take-home quiz due on Friday morning.

I want you to each answer three questions off the first set of review questions.

Choose 1 questions from section I. and two questions from section II.

Have your quiz in my mail slot by 8:30 am next Friday morning.

I want you to read the answers of the other students in the class, and give them comments enough time before Friday morning so that they have time to revise their answers based on your comments. When you hand in your quiz, indicate on it who you gave comments to. Your list should include everyone in the class.

You might want to use next Thursdays class time for at least some of these interactions.
