
CONTENTS

Figures	v
Tables	vii
Acronyms	xi
Chapter 1 Introduction	
1.1 Introduction	1-1
1.2 Scope of the Recreational Fishing Assessment	1-3
1.3 The Damage Assessment Approach	1-6
1.4 Primary Data Collection	1-7
1.5 Summary of Analysis and Results	1-10
Chapter 2 Background	
2.1 Recreational Fishing in the Waters of Green Bay	2-1
2.2 Overview of FCAs in the Assessment Area	2-9
2.3 Impacts from FCAs	2-18
2.4 Economic Values	2-21
Chapter 3 Primary Data Collection	
3.1 Introduction	3-1
3.2 Sampling Plan	3-2
3.2.1 Selection of Target Population	3-2
3.2.2 Sample Collection at County Courthouses	3-6
3.3 Telephone Survey	3-8
3.3.1 Telephone Survey Instrument	3-8
3.3.2 Telephone Survey Implementation	3-10
3.4 Mail Survey	3-14
3.4.1 Mail Survey Instrument	3-14
3.4.2 Mail Survey Implementation	3-18
3.5 Sample Evaluation	3-20
3.5.1 Sample Bias	3-20
3.5.2 Nonresponse Bias	3-25
3.5.3 Recall Bias	3-29

3.5.4	Adjusting the Sample Estimates to the Population Estimates	3-30
3.5.5	Target Population Coverage of All Open-Water Fishing in the Wisconsin Waters of Green Bay	3-33
Chapter 4	Green Bay Angler Profile	
4.1	Introduction	4-1
4.2	Green Bay Fishing Activity and Expenditures	4-2
4.3	Overall Attitudes about the Green Bay Recreational Fishery	4-11
4.4	Awareness of FCAs	4-14
4.5	Impacts of FCAs	4-15
Chapter 5	The Green Bay Choice Questions	
5.1	Introduction	5-1
5.2	Choice Questions Are Well Established for Estimating Tradeoffs	5-3
5.3	Valuation and the Use of Choice Questions	5-5
5.4	The Green Bay Choice Pairs	5-6
	5.4.1 Choice Set Characteristics	5-9
	5.4.2 Selection of Choice Sets	5-14
5.5	Evaluation of Choices across Alternatives	5-15
5.6	The Expected Days Followup Question to Each Choice Pair	5-21
Chapter 6	A Combined Revealed Preference and Stated Preference Model of Green Bay Fishing	
6.1	Introduction	6-1
6.2	Factors Affecting Utility from Fishing Green Bay	6-2
6.3	Factors Affecting Utility from Fishing Elsewhere	6-4
6.4	Estimation of the Model	6-5
Chapter 7	The Estimated Model	
7.1	Introduction	7-1
7.2	Signs and Significance of the Parameter Estimates	7-1
7.3	Measures of Model Fit	7-2
7.4	Changes in Green Bay Fishing from Changes in FCAs	7-3
Chapter 8	Lower-Bound Estimates of 1998 Damages	
8.1	Introduction	8-1
8.2	WTP per Year, per Fishing Day, and per Green Bay Fishing Day	8-1

8.3	Two Lower-Bound Estimates of Total 1998 Damages for Open-Water Fishing in the Wisconsin Waters of Green Bay	8-5
8.4	Benefits Transfer to Estimate the Damages Associated with the Green Bay Ice Fishery and the Michigan Green Bay Fishery	8-7
Chapter 9	Testing the Sensitivity of the WTP Estimates to Modifications to the Model	
9.1	Introduction	9-1
9.2	A-B Models	9-2
9.2.1	A-B Models with Homogenous Preferences	9-3
9.2.2	A-B Models with Classic Heterogeneity	9-3
9.2.3	A-B Models with Random Heterogeneity	9-4
9.3	Heterogeneity in Models Allowing Substitution	9-5
Chapter 10	Total Recreational Fishing Damages and Conclusions	
10.1	Introduction	10-1
10.2	Total Recreational Fishing Damages through Time	10-1
10.2.1	Damages for Past Losses	10-1
10.2.2	Damages for Future Service Flow Losses	10-7
10.2.3	Total Recreational Fishing Damages	10-9
10.3	Conclusions	10-9
Chapter 11	References	11-1
Appendices		
A	Modeling Consumer Preferences for Green Bay Fishing Days and Fishing Days Using Stated and Revealed Preference Data	
B	Estimation	
C	Estimated Compensating Variations and Expected Compensating Variations	
D	Model Variations	
E	Survey Instruments	
F	Supporting Data
