

## **Thibault Fally, Assistant Professor**

PhD, EHESS and Paris School of Economics, 2009

### **FIELDS**

International Trade and Investment • Economic Development

### **CURRENT RESEARCH INTERESTS**

Current research focuses on how trade and investment are affected by (i) financial constraints in a general equilibrium framework, (ii) technological incompatibilities, and (iii) multi-stage production.

### **SELECTED PUBLICATIONS AND WRITINGS**

“Global Sourcing under Imperfect Capital Markets” (with Juan Carluccio), accepted by the *Review of Economics and Statistics*.

“Economic Geography and Wages in Brazil: Evidence from Micro-Data” (with Rodrigo Paillacar and Cristina Terra), *Journal of Development Economics*, January 2010.

“Credit Constraints as a Barrier to the Entry and Post-Entry Growth of Firms” (with Philippe Aghion and Stefano Scarpetta), *Economic Policy*, October 2007.

“Foreign Entry and Spillovers with Technological Incompatibilities in the Supply Chain” (with Juan Carluccio), in revision for the *Journal of International Economics*.

“Financial constraints, Technology Transfer, and Organizational Form” (with Juan Carluccio).
