

Boulder Faculty Assembly
Executive Committee
Resolution: Safe Campus Environment
BFA-R-0503 May 3, 2004

WHEREAS a safe, secure, and respectful environment for all members of our campus community is essential; and

WHEREAS the campus culture and climate should reflect our expectations for the behavior of our campus members; and

WHEREAS there are several initiatives on campus that are reviewing the services and policies that define our campus expectations for a safe and secure environment,

THEREFORE BE IT RESOLVED that the Boulder Faculty Assembly requests that the campus administration, in recognition of strong campus community concerns regarding campus climate, and specifically acknowledging the problem of violence against women, move forward with all committee deliberations and reviews of policies and services with a goal of clarifying behavioral expectations and consequences,

AND BE IT FURTHER RESOLVED that the BFA calls for an articulated plan to educate the entire campus community about these services, policies, expectations, and consequences.

Resolution presented to the BFA: May 6, 2004
Passed by the BFA: May 6, 2004
