60th Annual World Affairs Conference • April 7th – 11th

As we said *last week*, *the World Affairs conference is not 'just' about world affairs!* It is an *annual* CU-Boulder event, some would say *the* annual event, bringing together speakers, critics, politicians, artists, and many more to discuss the current state of the arts, media, science, diplomacy, technology, environment, spirituality, politics, business, medicine, human rights, and so on. Roger Ebert, who holds a record of thirty-seven consecutive years of participation in the CWA, refers to the event as “the Conference on Everything Conceivable.” **Mark your calendars now**, and visit the website < <http://www.colorado.edu/cwa/>> for a schedule! Or else pick up a cop from one of the stacks around campus. You'll be surprised.

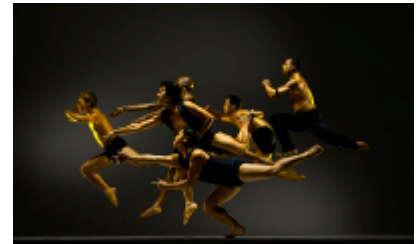

These discussions / lectures / presentations occur *during* the school week. One of the things we *need* to do in College is meet lots of people, and this is a place where you can meet lecturers, students, and other attendees – you might develop a new (professional) friendship, or find someone who could provide a recommendation to you someday, or you might develop a surprising new interest. On Monday, 9-10:20 am at UMC247, recording artists Rony Barrak, Dave Grusin, and Shodekeh will discuss (with you) “*The Artist and Identity: Who We Are When We Perform.*”

Later in April we are pleased to host two more distinguished guests on consecutive nights. Former Secretary of State Madeleine Albright will Coors Center on Wednesday, April 16 at 7:30 p.m. at the Coors Center as a guest of our student-run Distinguished Speakers Board.
