TERMS & CONDITIONS

FINANCIAL AID - VETERANS EDUCATIONAL BENEFITS

Advance Pay allows a VA Educational Benefit recipient to receive their first partial month payment and their first full month payment prior to the beginning of a term.

Advance Pay could be a beneficial option for VA Educational Benefit recipients who will incur many expenses at the beginning of the term. However, it is important to keep in mind that when you elect to use advance pay, there will be a lapse in time of 60 days before you will receive your next benefit payment. The lapse in time between your advance payment and your next payment occurs because VA Educational Benefits are paid retroactively. For example, if you request an advance payment prior to the start of the Fall term, your next benefit payment will be on or after November 1st. Remember, your benefit payment for October will be paid at the beginning of November. For the Spring term, your next payment would be on or after April 1st (payment for March).

REQUIREMENTS FOR REQUESTING ADVANCE PAY:

(Per VA regulations)

1. Apply for advance pay up to 120 days prior to the start of the term.
2. Advance pay requests **MUST** be submitted **AT LEAST** 30 days prior to the start of the term, but 60 days are recommended.
3. **MUST** be enrolled at least ½ time.
4. You are **NOT** eligible for advance pay if you were enrolled in the previous term.

For example, if you were enrolled at the University of Colorado at Boulder, and received VA Educational Benefits, during the Fall term, you are not eligible to receive advance pay prior to the start of the following Spring term.

5. You must sign **BOTH** the Request Form and the Receipt Form.

Note: Students requesting Advance Pay will pick-up their check at the University of Colorado at Boulder Veterans Educational Benefits Office located in Regent Administrative Center 205.

Here's an example of how Advance Pay works:

GI Joe takes advance pay. The term begins August 27th. GI Joe gets a check for August 27th-31st and for all of September. GI Joe receives his next VA educational benefit check at the end of October.
