- [Milliman, USA](#)

DEADLINE for Internship Applications is November 30!

Milliman, USA is the country's most prestigious actuarial consulting firm. We have offices in 28 cities around the country. Milliman is divided into four main practice areas - Health, Employee Benefits, Casualty and Life. All of our practices are owned by the local Principals who manage them. You can find out more about Milliman at www.milliman.com.

The Milliman Health Practice in Denver is a growing practice with a wide variety of niche practices. These specialties include Tricare (health care for military dependents and retirees), behavioral health, corporate benefits, health care in Latin America, provider and Medicare consulting, and consulting to HMOs. Our work typically involves the analysis of the financial risks and projections associated with healthcare, as well as the management of healthcare. We are almost always looking for intelligent and energetic actuarial students.

The salary potential at Milliman is virtually unlimited, because each person is paid based upon their contribution to the organization. We work with students closely to assist and support them in their attempts to pass actuarial exams. (In our last sitting, our students passed 80% of the exams they attempted.) Students receive generous raises for passing exams. Students also are heavily involved as we stake out additional areas of expertise. Our goal in our expertise areas is to be recognized as one of the top consultants in our specialty.

If you are a student interested in pursuing a career in actuarial science, we have the following advice and opportunities for you:

Seniors and Graduate Students: Please send us your resume! We are looking for articulate students who have passed some exams (more if you have been attending an actuarial program) and who want a fast start to their career. It is best to send your resume about four months before graduation.

Sophomores and Juniors: We typically hire several interns each year, and we pay exam fees for your upcoming exams. Please send us your resume two or three months before you are available.

All Students: The time to start taking actuarial exams is now! You should start by visiting the Society of Actuaries web site (www.soa.org) and understanding the exam process, topics and timing.

Please contact us at Sheri Norton-Practice Administrator, Milliman USA, 1099 18th Street, Suite 3100, Denver, Colorado 80202, sherri.norton@milliman.com, (303) 299-9400

- [WINKLEVOSS CONSULTANTS, LLC.](#)

500 West Putnam Ave. Greenwich, CT 06830 U.S.A. Phone: (203) 661-0275 Fax: (203) 661-0659

Job Description: Actuarial Analyst

Winklevoss Consultants, LLC. is a small, fast growing insurance and pension consulting firm located in Greenwich, Connecticut, a stone's throw from New York City. Our major activities include design, placement and administration of corporate insurance programs, and the development of benefit forecasting models.

We are looking for a talented Actuarial Science / Mathematics and Statistics candidate to work in our corporate insurance operation.

Duties will include periodic reporting of financial performance to clients, development of sales presentations, and the development of financial modeling software. Computer programming and spreadsheet expertise, in addition to solid knowledge of Life Contingencies and Compound Interest Theory, would be very helpful. However, all candidates are encouraged to submit a resume.

We offer a casual yet hard working team environment where you could expect to contribute to and participate in our client relationships quickly. Winklevoss anticipates considerable growth in the near future, and we are looking for new minds to grow with us.

Competitive Salary and Benefits

Comprehensive study program, including books and seminars

Relocation assistance

Attractive coastal location

Please submit your response directly to:

Barbara Cuevas, Winklevoss Consultants, LLC, 500 West Putnam Avenue,
Greenwich, CT 06830

cuevas@winklevoss.com; Phone: (203) 661-0275; Fax: (203) 661-0510

While our website is under construction, we have provided an introductory booklet describing Winklevoss Consultants, LLC.
