Center for Research Data and Digital Scholarship

BFA Meeting
December 1st, 2016
Mission: Formal collaboration between Research Computing and the Libraries

- Develop and advance data science and digital scholarship through
  - Discovery & reuse
  - Management, curation, & preservation
  - Analysis & visualization
  - Training & education
- Connect users to and build upon, existing services & skills currently distributed across campus
- Plan a data ecosystem
- Facilitate cross-disciplinary, local, regional and national collaborations
What Will CRDDS Offer?

- Physical location (Norlin E206)
- Research partnerships
- Support services
- Training and education
- Consulting
CRDDS Initiatives

- Digital Scholarship
- Education and Training
- Research Data Management
- Cyberinfrastructure

Will work with one another and partners in the Libraries, on campus, and in the region to advance common goals
CRDDS Structure

- Executive Directors
  - Director of Research Computing (Thomas Hauser)
  - Senior Associate Dean of the Libraries (Leslie Reynolds)
CRDDS Structure

- Initiative Directors
  - Digital Scholarship (Thea Lindquist, Libraries)
  - Education & Training (Shelley Knuth, Research Computing)
  - Research Data Management (Andrew Johnson, Libraries)
  - Cyberinfrastructure (Debra Weiss, Libraries)
CRDDS Structure

● Executive Board
  - Associate Vice Chancellor for IT and CIO
  - Dean of Libraries
  - Two Deans from CU Boulder Colleges and Schools
  - Vice Chancellor for Research

● Advisory Board
  - Up to 12 members, including a broad representation of stakeholders from CU faculty, students, staff, and community advocates
