BFA-R-4-1199

Boulder Faculty Assembly Resolution:
Development of Grandview Terrace

Whereas:
Relations of civility and mutual respect require processes of open communication and exploration of issues in seeking understanding and grounds for cooperation,

Whereas:
This goal encompasses both the internal relations among various groups within the University and external relations among the University and the community of Boulder,

Whereas:
The current differences between the University and the City of Boulder over the future disposition of Grandview Terrace lend themselves to civil resolution,

Be it resolved:
That the University delay plans for development of Grandview Terrace until after opportunities for seeking an understanding with the City of Boulder have been fully explored.
