The BFA Academic Affairs Committee presents the following motion for adoption by the Boulder Faculty Assembly:

Moved, that the Boulder Faculty Assembly accept a permanent policy on Course Repetition for the University of Colorado Boulder campus. The policy is as follows:

- **Eligibility and number of credit hours:**
  1. Students at the University of Colorado at Boulder campus may retake courses under this Course Repetition policy. Undergraduate students who receive a grade of D+ or lower may repeat up to 10 hours of course credit taken on the Boulder campus or through Boulder Continuing Education any time before graduation.
  2. Graduate students who receive a grade of C+ or lower may repeat one single course (whether undergraduate or graduate level) taken on the Boulder campus or through Boulder Continuing Education. Graduate students must repeat the course within a year and a half (i.e., three consecutive fall/spring semesters) or before graduation, whichever is first.

- **Grade point average calculation for the University of Colorado at Boulder:**
  1. All grades remain permanently on the UCB transcript. The course(s) selected by the student for repeating under the course repetition policy, upon completion of the course again for a letter grade in the A-F scale or as P/F, will be removed from calculating the grade point average only for the UCB campus.
  2. A minimum of one of the grade(s) for a particular course repeated under the Course Repetition policy will be the grade used for calculation by UCB in credit hours and grade point average.

- **Restrictions on Course Repetition:**
  1. Undergraduate students who have earned D+ or lower and graduate students who have earned C+ or lower in the original course through academic dishonesty may not use this Course Repetition policy to recalculate the UCB grade point average.
  2. Once a student uses the course repetition option, the decision is irrevocable and cannot be appealed. Because probation, suspension, financial aid, academic progress, scholarship eligibility and many other decisions are based on term GPA, students may not revoke their course repetition grading option once it has been assigned.

From BFA Academic Affairs Committee: January 26, 2009
Approved by the BFA Executive Committee: January 26, 2009
Notice of motion to the BFA: February 5, 2009
