Boulder Faculty Assembly Executive Committee
Resolution of Support for Academic Excellence in Athletics
BFA-X-R-112912

Whereas: The University of Colorado Boulder is deeply committed to the academic achievements of its students; and

Whereas: the academic performance of the students in our Football Program has greatly improved in the last several semesters, for example achieving its highest-ever average team GPAs over the last three semesters and placing more students on the PAC-12 all-academic team than any other school;

be it therefore

Resolved: that the BFA commends the Department of Athletics, the Football Program, and our Student Athletes for promoting the principles of academic excellence among themselves, to the Campus, and to our broader Community; and further

Resolved: that the BFA again urges the Campus to allow the principles of academic excellence to guide its search for a new men's football coach, and also to guide the Athletic Department's future performance.

Approved by the Executive Committee: November 29, 2012
Forwarded to the Athletics Department: November 29, 2012
