Eco-Cycle

Website:  http://www.ecocycle.org/

Organization Address: 6400 Arapahoe Avenue, Boulder, CO

Position Title:  Sustainability Intern

Desired Start Date and End Date:  Flexible

Organization Description:

About Eco-Cycle:

Eco-Cycle is one of the largest non-profit recyclers in the USA and has an international reputation as a pioneer and innovator in resource conservation.

About the Green Star Business program:

The Green Star Business (GSB) program is an affordable sustainability consulting program designed by Eco-Cycle to take Boulder businesses to bold new levels of sustainability. We address waste reduction, water and energy conservation, sustainable purchasing, green building, alternative transportation, staff training, and more. We provide comprehensive, long-term, customized sustainability consulting that burnishes brands, improves employee retention, appeals to customers, and supports the community.

Position Description:

This internship is an opportunity to experience the challenges and rewards of helping companies become more sustainable. The candidate will contribute to Eco-Cycle’s work with members on sustainability strategy and implementation, as well as our core program functions. The intern will research and author blogs, templates, and other content related to both our service offerings and key sustainability issues of our members and prospects. The candidate will support social media efforts and may work within our customer relationship manager system, to identify, qualify, and
research new clients for sustainability consulting work or special projects. The candidate must be open to tasks that fall outside the above description.

Qualifications:

All candidates should ideally have:

- Strong writing skills (Writing sample may be required once applicants pass the first round of PIIE application process)
- Sustainability focused coursework or professional experience
- Tech and/or business background or proficiency in one or both
- Experience in sales, marketing, social media, and/or email list management tools
- An interest in the intersection of sustainability and business and sustainability consulting as a career
- A self-starting mindset with a high level of accountability, comfortable working independently and managing priorities, and able to use creativity to independently close gaps in information
- A positive attitude, outgoing personality to communicate with our team and members in a professional manner
