

Anseth Lab Equipment Permission Form for Outside Users

Intro: While we welcome and encourage the use of our equipment, the Anseth lab has a strict policy that all users must be adequately and sufficiently trained on equipment to insure that all lab equipment is used correctly. This is primarily meant to minimize problems associated with equipment misuse and high repair costs. We appreciate your cooperation in this process.

Instructions: Every outside user must complete this form and obtain permission from either Professor Anseth (Kristi.Anseth@colorado.edu) or Chuck Cheung (Charles.Cheung@colorado.edu). Approval is given for a requested time frame. Since protocols may change, training and permission forms should be updated if you plan to use equipment for more than one year. This form should be completed and turned into Chuck Cheung prior to equipment usage. The type of equipment available and individuals responsible for training on each piece of equipment can be found on our group website (www.colorado.edu/che/ansethgroup).

Name of student/researcher: _____

Lab of student/researcher: _____

Office, phone number, and email: _____

What piece(s) of equipment will you be using: _____

Brief description of the experiment to be performed: _____

When will you be using this equipment: _____ through _____

I was trained on the use of this equipment by: _____

(Signature and date)

By signing below, I agree to abide to lab safety protocols and understand that I am responsible for the proper use of the equipment listed above.

Student/researcher's signature: _____ Date: _____

Approving signature (Kristi or Chuck): _____

Please give to Chuck Cheung when completed. Thanks!
