AGREEMENT OF PRINCIPLES AND RESPONSIBILITIES
Between
THE UNIVERSITY OF COLORADO STUDENT UNION (UCSU), and
THE CU BOULDER CHANCELLOR
"UCSU-CHANCELLOR AGREEMENT"

I. INTRODUCTION

The purpose of our agreement is to continue the cooperative and productive relationship between the University of Colorado Student Union (UCSU), recognized as the sole representative of the University of Colorado, Boulder student body, and the Boulder Campus Chancellor,

Specifically, this document is drawn to clarify the working relationship between the UCSU and the Chancellor by identifying the basic principles and responsibilities underlying our relationship. This document shall also serve as the source from which shall be derived specific arrangements for carrying out that relationship, not already specified here, or in the founding documents.

II. FOUNDATIONS OF THE AGREEMENT

The several founding documents from which this statement is drawn are the Constitution and Statutes of the State of Colorado, the Laws of the Regents, revised, 1980; the UCSU Constitution, approved by student vote February and April, 1974, and accepted by the Board of Regents March and May, 1974; and the resolution introduced by Regent Louis Bein and adopted by the Board June, 1979. The sense of mission towards which both parties to this agreement will strive is as stated in the Laws of the Regents, Appendix F, which clarifies the Board of Regents' expectations of the position of the Boulder Campus Chancellor; the preamble to the UCSU Constitution which demonstrates the motivation for the UCSU to unite the student body; and Chapter 1, C
Masterplan of the University of Colorado, Boulder which established the role and mission of the Boulder Campus, “to lead in discovery, communication, and the use of knowledge through instruction, research, and service to the public.” Relevant portions of these documents are appended to this agreement.

III. BASIC RELATIONSHIPS

For efficiency, responsibility, and responsiveness, the People of the State of Colorado have traditionally kept administration of their educational programs closest to those who finance and consume these services.

A. To these ends, final appropriation authority for the University of Colorado's budget is retained by the elected members of the State Legislature, while final management authority within these budgeted guidelines is retained by the elected members of the Board of Regents, unless otherwise provided by law. From the Regents’ authority is derived the necessity for the Administration of the University to oversee the organization and operation of the University for the accomplishment of its goal and mission.

B. To these ends, also the last half-century at the University of Colorado, Boulder, has seen the development of the current system whereby students, recognized as one of the basic consumers and financiers of the University, have been formally included in the setting and review of policy through such officers as the Student Administrators and student-appointed members of the Campus and faculty committees. In addition, the Campus Administration and the UCSU have begun and continue to work towards student involvement in the preparation, implementation, and administration of the budgets of the Campus and schools and colleges. From this is derived the necessity for the officers of the UCSU to advocate the students’ interests.

C. While the Board of Regents and the Officers of the University retain ultimate authority and responsibility for the University as a whole, authority and responsibility for operational matters rests with administrators and managers in the University organization. For student-fee areas, that authority and responsibility for operational matters will be vested in the officers of the UCSU in such a fashion as to provide UCSU maximum flexibility to participate in such student-fee areas. This authority and responsibility is committed to the Student Union to provide for the Implementation of its constitutional responsibilities, in recognition of the historically sound management practices demonstrated by the UCSU, and in recognition that the students constitute the primary financier and consumer of the services provided through the student-fee areas.

D. While the student fees are technically considered auxiliary monies, the officers of the UCSU and the programs provided by student fees are distinguished from
other auxiliary administrators and programs in that UCSU officials are directly elected by their student constituency.

I. For this reason, the elected UCSU officers and their appointed staff are not considered employees of the University (except for student administrators who are appointed by UCSU with the agreement of the relevant administrator).

2. For the related reasons of encouraging and enabling elected officials to remain responsible to their constituency, the UCSU must retain maximum control over the personnel, policies, and monies of the student fee area consistent with the resolution of Regent Louts Bein and pursuant to IV, B of this agreement.

3. Campus policy will be formulated with this distinction in mind.

E. In summary, the UCSU is duly constituted part of the University of Colorado, Boulder with a relation to the campus that is unique due to the special nature of the UCSU as a student union, managed by elected officials.

Seeing that the student fee programs are efficient, responsible, and responsive, we will continue on our present course and seek to enhance our beneficial relationship which has accomplished a level of student involvement that is a source of pride to both the students and the University.
