Without Magic, Santa Would Need 12 Million Employees

Wednesday, December 19, 2012

By Chana Joffe-Walt

Listen to the story at

http://www.npr.org/blogs/money/2012/12/19/167570321/without-magic-santa-would-need-12-million-employees

There are 760 million Christian children in the world, according to the Pew Research Center. Suppose Santa delivers one gift to each child. What kind of delivery workforce would Santa need?

We couldn't get an interview with Santa. But we did get Paul Tronsor from FedEx and Mike Mangeot from UPS. They helped us go through the numbers.

Here are just a few of the positions Santa would need to fill to pull off Christmas. (Note: For the complete list, see the graphic at the bottom.)

* 46 international distribution centers, to allow Santa to reload as he crosses the globe. That means 400,000 workers for loading presents onto Santa's sleigh.

* 60,000 workers to develop optimized flight plans and communicate with the FAA, secure flyover rights, etc.

* 7,000 people monitoring demand and tweaking his route in real time.

* 100 meteorologists to make sure Santa doesn't fly into a blizzard.

* 40,000 people to help Santa clear customs.

To give you a sense of how big that team is, that's 40 times the number of employees at FedEx:
Mike from UPS can think through all those teams and all those workers, but there's still something that's a mystery for him: the sleigh. Not only does it have to move fast enough to deliver 9,000 presents a second, but estimating conservatively that each present weighs about a pound, Mike says it would have to haul 760 million pounds of cargo. Which would take nearly three hundred 747 planes to haul. Or perhaps just nine reindeer.

This is what the whole workforce looks like:
What Santa Inc. Employees Do

40,000 Elves Deal With Customs Issues

67,100 Elves Calculate The Best Flight Route For The Sleigh And Monitor The Weather

152,000 Elves Figure Out How To Properly Load All The Presents Onto The Sleigh

180,000 Elves Fly The Presents To Santa's Distribution Centers

400,000 Elves Work In Santa's Distribution Centers

500,000 Elves Work In Human (Elf) Resources, Accounting And Other Administrative Departments

3,360,000 Elves Drive The Gifts To Santa's Distribution Centers
