### SOURCE:
CU-Boulder Office of Institutional Research (IR). Fall census, Boulder degree-seeking non-reciprocal students only. CU campus data for gender and race/ethnicity obtained from IR website, http://www.colorado.edu/pba/div/enrl/index.html. School of Education data obtained from IR through a custom SAS query since the IR website did not include SOE undergraduates (only PBA students). This custom query also included first generation status for both SOE and CU campus, as that demographic was not available on the IR website. (IR query: PBA: L:\IR\Reports\CCHE\thesis\Adhoc\FirstGen.sas). Note that only students enrolled in a School of Education licensure plan and enrolled in main campus classes (as of fall census) are included. Non-degree students or students only enrolled in continuing education classes are not included.

**Note**: First generation status was included in the IR website from the fall of 2013. Prior to that, only degree-seeking students were included. The IR website also included only students enrolled in the School of Education licensure plan and enrolled in main campus classes (as of fall census) are included. Non-degree students or students only enrolled in continuing education classes are not included.
