

Emergency Action Plan

For incidents involving hazardous materials, fires, explosions, or natural gas leaks, the following actions should be taken:

- 1) Life Safety First**
- 2) Evacuate Immediate Area**
- 3) Pull Fire Alarm**
- 4) Call 911 from a safe location**
- 5) Remain Available for Emergency Personnel**

Building occupants should familiarize themselves with the locations and proper operation of fire extinguishers, fire alarm pull-stations, emergency eyewashes and showers, MSDS, chemical inventories, first aid and spill equipment, and exits **before** an accident or incident occurs. To customize this plan for your area, please list the locations of the following:

Fire Extinguisher(s) _____

Fire Alarm Pull Station _____

Eyewash/Safety Shower _____

First Aid Kit _____

MSDS _____

Other Information _____

Post this plan near exit or phone.
