

PULL OUT AND PASTE NEAR WASTE ACCUMULATION AREA

HAZARDOUS MATERIALS/WASTE ACCUMULATION LOG

Post near Waste Accumulation Area. Initial at least weekly to verify that containers:

- 1) Are properly labeled with the words, "HAZARDOUS WASTE" (contact EH&S for stick-on labels or HazWaste Tag)
- 2) Are CLOSED and NOT LEAKING
- 3) Are SEGREGATED by compatibility and STORED in secondary spill containment or another method that prevents uninsulated spills
- 4) Hazardous waste volume MUST TOTAL LESS THAN 55 GALLONS.
- 5) LESS THAN 1 QUART OF PURE, ACUTELY TOXIC MATERIAL, as defined in the EPA regulated "P" waste list (see website) (Enter Year->)

In order to be picked-up a HMW tag must also be completed with all constituents listed using full chemical names in English. Mail top copy to 413 UCB
