Endowed Faculty Positions

Endowments build on the College of Engineering and Applied Science’s investment in faculty, students, programs and places of learning, and help us achieve new levels in all college endeavors.

The intellectual talent of the college’s faculty is its No. 1 human resource. Faculty teach and inspire our future engineers, business professionals, and world leaders. They lead world-class research initiatives, attract eminent students and scholars, and bring the college and the university international acclaim. An investment in a faculty position is multiplied many times by the money those top faculty members bring in for research.

An individual, corporation, foundation, or group of donors can create an endowment. Many people create endowments in honor of favorite professors or family members. Endowments can reflect the names of the individual, corporate, or foundation donors.

Since endowments continue into perpetuity, generations of faculty and students benefit from your support.

Partner with CU Engineering and help us reach our shared vision of excellence by endowing a faculty position.

Named Deanship
$5,000,000
A deanship endowment provides discretionary support for the dean to enhance strategic initiatives within the college.

Named Chair
$2,000,000 - $4,000,000
An endowed chair is the most prestigious faculty position. It provides partial or full salary support, along with professional support for activities including expenditures such as research assistance, professional travel, and student support.

Gifts of $2 million or more qualify for $500,000 in chancellor’s matching funds. Endowing a chair at a level of $4 million may provide full salary and professional support as well as benefits, summer stipends, and support of other scholarly work.

Named Professorship
$500,000 minimum
Named professorships provide supplemental support and allow the college to attract and retain talented professors who might otherwise select other institutions.

Named Faculty Fellowship
$100,000 minimum
Faculty fellowships to reward outstanding junior faculty and to enhance the research and educational activities of top faculty.

Named Professorship
$500,000 minimum
Named professorships provide supplemental support and allow the college to attract and retain talented professors who might otherwise select other institutions.
