Project No: **PR002927**
Project Title: **Basketball/Volleyball Practice Facility**
Estimated Construction Cost: **\$8,000,000 - \$9,000,000**

Project Description:

The University of Colorado at Boulder seeks a qualified material testing and inspection agency for the purpose of performing services for the construction of a new Basketball/Volleyball Practice Facility. Services are being sought for:

Construction Observation and Materials Testing, including earthwork site grading classification and testing, slab sub-grade testing, utility and foundation backfill compaction testing, drilled pier observation and testing, asphalt paving testing, reinforcing steel and embeds, cast-in-place concrete structure materials testing, precast concrete floor flatness/floor levelness (Ff/FI) testing, masonry grouting inspections and testing, masonry prisms, structural steel fabrications testing, steel decking testing, shear studs, weld testing and observation, cold-formed metal framing testing and fireproofing.

The Basketball/Volleyball Practice Facility consists of 36,800 GSF of three levels housing, two practice gyms, locker rooms, administrative areas, staging and storage rooms, and circulation space. The new building will be built as an addition to the north side of Coors Events center located at 950 Regent Drive, Boulder, Colorado.

Scope of Services:

RFQ for Services of: **Material Testing Agencies**

See the RFQ information packet for a description of professional services required of the consultant team.

Minimum Requirements

Qualified applicants will be determined as those that can meet the criteria that will be used for selection by a Screening Committee. Reference to "similar projects" means those projects of the size and type of construction of the Basketball/Volleyball Practice Facility. These criteria will include:

1. Experience involving similar work to that described and a minimum of five (5) years in the business.
2. List of individuals proposed to work on this project with resumes and references (include any proposed sub-consultants).

3. List of similar projects this firm has completed within the last five (5) years, with references.
4. History of firm.

Those interested in providing these professional services should submit two (2) copies of a packet with a concise letter of interest bound-in providing a summary of qualifications, a description of the applicant or firm and its consultants including credentials and relevant experience and three current references.

Firms meeting the minimum requirements may obtain the RFQ documents at website:

I. INTRODUCTION

A. PROJECT DESCRIPTION

The University of Colorado at Boulder seeks a qualified material testing and inspection agency for the purpose of performing services for the construction of a new Basketball/Volleyball Practice Facility. Services are being sought for:

Construction Observation and Materials Testing, including earthwork site grading classification and testing, slab sub-grade testing, utility and foundation backfill compaction testing, drilled pier observation and testing, asphalt paving testing, reinforcing steel and embeds, cast-in-place concrete structure materials testing, precast concrete floor flatness/floor levelness (Ff/FI) testing, masonry grouting inspections and testing, masonry prisms, structural steel fabrications testing, steel decking testing, shear studs, weld testing and observation, cold-formed metal framing testing and fireproofing.

The Basketball/Volleyball Practice Facility consists of 36,800 GSF of three levels housing, two practice gyms, locker rooms, administrative areas, staging and storage rooms, and circulation space. The new building will be built as an addition to the north side of Coors Events center located at 950 Regent Drive.

B. SELECTION PROCESS

The selection of an architect/engineer/consultant will be conducted in accordance with the Colorado Revised Statutes, 24-30-1401 et. seq. The process will involve two stages: submittals will be screened and scored. A limited number of firms will be short listed and invited to participate in oral interviews. The University of Colorado at Boulder will attempt to negotiate a contract with the highest ranked firm following the interview segment. Following is additional information relative to the selection process:

1. Architect/Engineer/Consultant's Submittals: Specific requirements for submittals and scoring criteria are detailed in II. SUBMITTAL REQUIREMENTS. In order to facilitate review, **two** copies of submittal must be provided. Submittals must be received at:

Katherine Dunklau, Project Manager
University of Colorado at Boulder
Department of Facilities Management
Research Laboratory No. 2
1540 30th Street, 3rd Floor Reception Desk
Boulder, CO 80309
Tuesday, February 2, 2010 by 2:00 PM

Late submittals will be rejected without consideration. The University of Colorado at Boulder and the State of Colorado assume no responsibility for costs related to the preparation of submittals.

2. Screening Panel/Short List: Submittals will be evaluated by a panel of individuals selected in accordance with state policies. The panel will review and score the submittals. Firms ranked the highest will be invited to an oral interview. It is anticipated no fewer than three (3) or no more than five (5) will be interviewed.
3. Oral Interviews. It is anticipated that oral interviews will be conducted during the week of February 8, 2010. Interviews will be conducted at Research Laboratory No. 2, Room 321, 1540 30th Street, Boulder, CO 80309. The time for interviews is to be determined. Key personnel from the firm and major consultants who will be directly involved with the project should attend the interview. The interview panel will, in particular, be interested in knowing about the project approach proposed and in meeting the individuals who will act as the primary contacts with the University of Colorado at Boulder.

II. SUBMITTAL REQUIREMENTS

Firms will be judged not only on their past experience for the type of work involved, but also on their ability to address issues critical to the success of the project requirements outlined in this RFQ document. Following are elements that will be used to evaluate each firm's qualifications:

PROJECT TEAM

Identify the project principal, the project manager, key staff and sub-consultants. Present a brief discussion regarding how the team's qualifications and experience relate to the specific project.

Elements that will be considered by the panel when scoring your submittal:

- Qualifications and relevant individual experience.
- Unique knowledge of key team members relating to the project.
- Experience on projects as a team.
- Key staff involvement in project management and on-site presence.
- Time commitment of key staff.
- Qualifications and relevant sub-consultant experience.

B. FIRM CAPABILITIES

Elements that will be considered by the panel when scoring your submittal:

- Are the lines of authority and coordination clearly identified?
- Are essential management functions identified?
- Are the functions effectively integrated? (e.g., sub-consultants' role delineated)?
- Utilization of CADD and computers.
- Current and projected work load.

Note: Organization charts and graphs depicting your capacity may be included.

C. PRIOR EXPERIENCE

Use this portion of your submittal to describe relevant experiences with the project type described in this RFQ document and various services to be provided.

Elements that will be considered by the panel when scoring your submittal:

- Experience of the key staff and firm with projects of similar scope and complexity.
- Demonstrated success on past projects of similar scope and complexity.
- References.

Note: Include the name and current telephone number of the owner's project manager for every project listed.

D. PROJECT APPROACH

For the project and services outlined in the RFQ document, describe how you plan to accomplish the following project control and management issues:

- Budget Methodology/Cost Control.
 - Establish and maintain estimates of probable cost within owner's established budget.
 - Control consultant contract costs
 - Coordinate value engineering activities
- Quality Control Methodology.
 - Insure State procedures are followed
 - Insure the project is designed for durability and maintainability
- Schedule.
 - Manage the required work to meet the established schedule

E. WORK LOCATION

Describe where the prime and sub-consultants will do the key work elements of this project.

Elements that will be considered by the panel when scoring your submittal:

- Proximity of firms office as it may affect coordination with the State's project manager and the potential project location.
- Firm's familiarity with the project area.
- Knowledge of the local labor and material markets.

F. ADDITIONAL DOCUMENTS

The following document shall be included with the submittal:
