I. INTRODUCTION

A. PROJECT DESCRIPTION

The University of Colorado at Boulder seeks a design team with experience in design and construction of the removal of a unit substation, transformer, sectionalizing switch and primary 15 kV feeders from the first floor electrical room. Installations of new pad mount outdoor transformers, secondary feeders and double-ended switchboards in the electrical room. Existing building loads will remain energized until such time that they can be permanently connected to the new service equipment with minimal downtime.

B. SELECTION PROCESS

The selection of an architect/engineer/consultant will be conducted in accordance with the Colorado Revised Statutes, 24-30-1401 et. seq.
