

Publication Data Project – Brief Overview of Features and Goals

Goal 1: Import **Claimed** publications for FRPA 2015 reporting cycle.

Goal 2: This FIS project is the **source of record** for bibliographic citations for publications for the campus.

Goal 3: Feature faculty publication lists on campus research profiles at VIVO@colorado.edu.

Features Available – Phase 1, Fall 2015

1. **Auto Data Feed** searching for faculty publications through licenses with Web of Science, PubMed, CrossRef and others.
2. **Claim and Reject Publications for each author** – based on results of the automated data search within the Elements software
3. **Publication Types – limited set includes:**
 - a. Books
 - b. Chapters
 - c. Articles
 - d. Conference proceedings
 - e. Scholarly editions
 - f. Other
4. **Adding Manual Records**
 - a. Journals – using unique DOI and pulling in metadata
 - b. Books/Book Chapters – using Elements Google Books Search for metadata
 - c. Author creates manual record from scratch (not recommended, but possible)
5. **FRPA - Import Publications Elements to FRPA for 2015**

Faculty will claim 2015 publications in Elements to import for use on their FRPA.
What will be imported from Elements to FRPA?

 - Claimed publications only
 - Any of the six types listed – books, chapters, articles, conference proceedings, scholarly editions, other.
6. **Search Settings** – may be set by users for disambiguation, to improve search results
 - a. Default in place for most is:
 - i. Name: Last Name, First and Middle Initials
 - ii. Address: Boulder
 - b. Add unique identifiers like ResearcherID or Scopus Id to improve results
7. **Organization of Primary Groups** (Departments, Schools, Colleges, Institutes)
 - a. Primary Group
 - i. Regular Faculty Titles (through automated HR feed)
 - ii. Research Professors (through automated HR feed)
 - iii. Other Faculty Titles (through automated HR feed)
 - iv. TBE Faculty (for Institutes primarily, manually created by FIS team)

8. **Support Options for Faculty** (contact pubsdata@colorado.edu in both cases)
 - a. Research Managers – staff in unit designated by the chair to assist with claiming publications for the unit. Chair notifies FIS team.
 - b. Delegates – staff support for individual faculty.
Faculty with such support staff may contact the FIS team to create this role.
9. **Group Reporting and Research Metrics available**
Statistician role only – Unit heads and/or their staff person assistant
Canned basic reports currently in Elements.
See more about available metrics for group and comparative reporting under the [Reporting](#) section of the Publication Data Project website.

Features for Future Phases

(estimated 12-18 months except where noted)

1. **More data modules** for Grants, Teaching, Equipment and more (Summer 2016)
2. **Improved reporting** – more visualizations, dashboards (Elements Analytics)
3. **Grant data** added to Elements (Summer 2016)
4. **Data Relationships** – links between people, grants, publications, equipment, datasets
5. **Biosketch/CV**
 - a. New NIH biosketch and other federal templates planned
 - b. Multiple CV formats offered
 - c. Requires good publication data
6. **Altmetrics for Institutions** connected (late Fall 2015)
7. **FRPA Replacement in Elements (Fall 2016)**
8. More types of publications included – to support FRPA requirements
9. **Profile photo** in Elements
10. **ORCID Connector** – pull data from ORCID profile if identifier included (DOI, PubMed id, Scopus id, **does not use Thomson Reuters Researcher id** at this point in time)
11. **Publications showing in VIVO**
12. **Institutional Repository Connection** (CU Scholar)
