Garage to Open March 1
Although still an active construction site, the garage will reopen to public parking on March 1. Patrons can expect a couple of outages during the summer for final paint, epoxy resurfacing, and striping. Lot 204 will be returned to permit holders.

A Few Things to Note as the Garage Reopens
- Level one of the garage has a new traffic pattern.
- Initially, exits from the garage will be at the NW and SE corners. The NW corner is the ADA compliant exit.
- The exits will change as construction moves around the building, and signage will change accordingly.
- With construction continuing above, we ask that you encourage patrons to park on the lower two levels of the garage.
- We also ask that everyone use extreme caution at all times.

Limited Access to Service Area
The service area between the UMC and the CASE building remains closed to pedestrian traffic. Gates on both the north and south ends of the area are manned to allow only necessary drivers access to the lot. The three (3) ADA public parking spots remain available for use. The gates are open during non-construction hours.

Intersection of Euclid Ave. & 18th Street
Utility work is still to come in this intersection and there will be outages as needed.

Please continue to help us encourage pedestrians, bikers, and commuters to find alternate routes around the site to minimize congestion and maintain the safest environment possible throughout the project.
