In CASE You Were Wondering - Project Update
Newsletter #2 – July 14, 2016 – Trees & Bikes
CP007596 - EPRK - EUCLID AVENUE AUTOPARK ADDITION (290)

We wanted to explain all the activity around the Euclid Autopark this week. In order to best accommodate the Shakespeare First Folio event August 8, we had to get a few things taken care of earlier than originally planned and ahead of the start of Site Staging on August 1.

As always, feel free to contact Stephen Graziano with any questions or concerns.

Trees
The trees around the Euclid garage are being removed this week as part of the project. While it is always unfortunate to remove trees, the new landscape plan is quite handsome and creates a new park like setting for students (see above). The trees being removed are being disposed of per County regulations.

Bikes Station & Bike Racks
The Bike Station is being relocated to the East side of Hellems and will be back in operation Monday, July 18. The bike racks are also being relocated around the area.

Site Staging Begins – August 1, 2016
Fencing, trailers, and equipment go into place.

Construction Start – August 22, 2016
Construction begins. While the Euclid garage will remain open at this time, there will be several partial garage closures beginning at this time to prepare for steel work.

This closure will last 14 weeks, but the garage is to be reopened by the start of spring classes on January 17, 2017. In order to accommodate this closure, PTS will be reworking parking lot 204 (across the street from the Euclid garage) to handle as much parking as possible. Signage will help direct patrons to the alternative parking. Once reopened, the top level of the garage will have a slightly different traffic flow which will be well-marked for patrons.

Please help us to encourage pedestrians, bikers, and commuters to find alternate routes around the site to minimize congestion and maintain the safest environment possible throughout the project.
