II. Concepts

- a. The relationship between idealized territorial claims and ethnic purity
- b. The comparative geography of destruction and redistribution (i.e. property and populations), in Bosnia and Rwanda.
- c. The role of local and regional geopolitical contexts and actors involved in displacement and resettlement
- d. The importance of localized geographic variation in conflict scenarios and landscape or population changes.

- e. How are criteria for defining or preventing 'genocide' evaluated under a geographic lens?

III. Criticisms/Questions

- a. What is the legacy of ethnic cleansing and forced migration in Bosnia and Rwanda?

- b. Are the combined limits of Nuremberg and national sovereignty too great to make regulate 'ethnic cleansing' as a war crime?

- c. Can 'Humpty Dumpty', or 'Broken Bosnia', be put back together again?

- d. How have international efforts to reverse ethnic cleansing affected the geography of returns in Bosnia?

- e. What factors explain the relative distribution of domicides on Fig.1?
