AT BOULDER ■

ENVIRONMENT AND BEHAVIOR RESEARCH PROGRAM

Howard Kunreuther

**Cecelia Yen Koo Professor of Decision Science and Public Policy,
Co-Director of the Wharton Risk Management and Decision Processes Center,
& Senior Fellow, Wharton Financial Institutions Center,
The Wharton School, University of Pennsylvania
Research Associate, National Bureau of Economic Research
Visiting Research Scientist, Earth Institute, Columbia University**

“The Problem of Interdependent Security Risks”

**March 8, 2006
12:00-1:30**

IBS 3 Conference Room

Professor Kunreuther's current research projects are associated with ways that society can deal more effectively with problems of managing catastrophic risks. Specific topics include decisions regarding where to locate hazardous waste facilities; the ability for private insurance to help manage risks from earthquakes, hurricanes, floods, and terrorist acts; and problems of interdependent security risks.

IBS 3 is the second building north of Starbucks Coffee on Broadway.
Feel free to bring a brownbag lunch.
