Method 3 & The United States

James Raymer
Division of Social Statistics
University of Southampton
United Kingdom
Outline

• 2 region by age (1980 and 1990 data)
• 4 region by age (1980 and 1990 data)
• 9 region (2000 data)
Conditional survivorship proportions of migration from the North to the Southwest, 1975-80 and 1985-90
Ratios of secondary to primary conditional survivorship proportions of migration from the North to the Southwest, 1975-80 and 1985-90
Ratios of secondary to primary conditional survivorship proportions of migration from the Southwest to North, 1975-80 and 1985-90
Observed and predicted primary conditional survivorship proportions of migration from the North, 1985-90
Observed and predicted primary conditional survivorship proportions of migration from the Southwest, 1985-90
Age-Specific Ratios of Secondary to Primary Conditional Survivorship Proportions: 4 Region Case
Born in the NE, Migrating to the NE

Born in the NE, Migrating to the MW

Born in the NE, Migrating to the S

Born in the NE, Migrating to the W

From NE ——— From MW ———

From S ———— From W ———

1975-1980
Observed and Predicted Primary Conditional Survivorship Proportions: 4 Region Case
Observed and Predicted Primary Conditional Survivorship Proportions: 9 Division Case
