PURPOSE OF RESEARCH PROJECT
In consultation with your advisor, students in Plan II (non-thesis) must develop a research project that may require actual data collection but can also be based upon conceptual work such as a critical literature review. Prior to starting a research project, a student must complete the attached research project form and file it with the Graduate Staff Assistant. The form will require the title of the project, a brief description of the project and the signatures of the candidate and mentor. Following completion of the project, the candidate needs to provide the Department with a written summary of the work completed in fulfilling this requirement for graduation.

SEMESTER HOURS LIMITATION
The research project requirement is limited to 3 credit hours. This may be taken over a number of semesters in 1-credit increments upon agreement with your mentor.

ENROLLMENT PROCEDURE
Complete the attached form. Obtain the signature of your mentor and the Graduate Coordinator and put this form in the Graduate Staff Assistant’s mailbox in Clare Small. You will be enrolled in the course and you will be charged tuition and any applicable course fees. A copy of the form will be provided to you and your mentor upon completion of the enrollment process. This course is subject to all “Schedule Adjustment Deadlines”. Please be sure to allow sufficient time for processing of this form within the published deadlines.
