20. I think all instructors should be given tenure without conditions after 7 years of teaching at the university.

21. After a probationary period of 4 years, instructors should be offered six-year appointments, rather than the current norm for multi-year appointments of 3 to 4 years.

22. I feel constrained and pedagogically disadvantaged by course designs into which I have not had much input.

23. I would like to see a wider array of instructor appointment possibilities, such that they might vary their workload formula to include 'research,' along with 'teaching' and 'service.'

24. I would like to see more opportunities for instructors to serve in administrative positions that do not involve personnel decisions over tenure-track faculty.

25. I would favor a 20% increase in my rate of pay even if this requires a 20% reduction in the number of non-tenure-track appointments.

26. The criteria and procedures for promotion through the non-tenure-track ranks are not clearly articulated or followed by departments at CU.

27. I would favor an “Evergreen” rolling appointment in which instructors receive an appointment which is automatically renewed every year, with periodic reviews. (If the appointment were not renewed at the time of the review, at least one year would remain to be served before termination.)

28. CU should sponsor more awards for teaching quality and innovation.
