

## **Financial aid: Degree-seeking resident undergraduates, FY06-07 final**

CU-Boulder PBA: I:/ir/emgt/fa/group17b 3/21/08

### **Highlights**

The 16,642 resident undergraduates enrolled fall 2006 had \$83 million in demonstrated financial need and received \$38 million in grant aid in fiscal year 2007. 43% of the grant aid went to the very neediest students, the 11% eligible for federal Pell grants. Federal policies prohibit institutions from awarding student aid based on ethnicity. At CU, our financial aid policies target low-income families as determined by the Free Application for Federal Student Aid (FAFSA).

**The tables show** averages and percentages of students and total dollars in millions.

**Source:** SURDS financial aid file submitted to CCHE for FY 2006-07, plus PBA fall census frozen population

**Population:** Degree (and certificate) seeking resident undergraduates with state reportable hours. Separate breakdowns are shown for

- all resident undergrads – pages 3-4
- resident undergrads broken down by ethnicity (Asian, Black-Hispanic-Native American, White-Unknown-Other) and first generation status (first generation students are those for whom neither parent has a college degree) – pages 5-23
- resident undergrads broken down by college – pages 24-44

**Columns** are subsets of students defined by

- Whether the student submitted a FAFSA, Free Application for Federal Student Aid, with information on family finances
- Whether the FAFSA was completed. Completion requires submission to CU-Boulder of tax forms that verify the information reported on the FAFSA.
- Whether the student is dependent financially on the parent, or not. Students who are married, parents, 24 or older, or veterans are “independent.”
- The EFC or expected family contribution (for that student, in that year) calculated on the FAFSA
  - If the EFC is under \$3,850 the student is eligible for a federal Pell grant
  - If the EFC is over \$3,850 but less than the student’s expected COA or cost of attendance (expected tuition, fees, books, room and board, transportation, and personal expenses), the student has “demonstrated financial need.” If the EFC is greater than the COA, there is no “demonstrated financial need.”
    - The “has need” group was further divided into students whose EFC was \$3,850 to \$7,700 (or twice the Pell limit), and those whose EFC was greater than \$7,700.

- Pell, 2 times Pell, and others with any demonstrated need are known as levels 1, 2, and 3, respectively, in State of Colorado financial aid parlance for FY 2007-8 and later.
- *The first row shows the number of students in the column. The second row shows what percentage of students are in the column.*

#### **Rows show**

- Headcount and percentage of students in the column
- Averages (for the students in the column) for
  - COA, cost of attendance (expected tuition, fees, books, room and board, transportation, and personal expenses) Will vary over students because some attend only one semester, or part-time, or have higher or lower tuition or housing costs.
  - EFC, expected family contribution (for that student, in that year) calculated on the FAFSA. The parent and student portions are added together to form the total.
  - Demonstrated financial need = COA minus EFC. Missing data, floors, and rounding may lead to apparent mismatches in totals.
  - Total aid
- Then, for each of several categories of aid
  - The percentage and number of students in the column receiving that category. For work-study, “got aid” means “was offered work study, and accepted it, and actually worked and earned something.”
  - The amount averaged over recipients only, *and* averaged over all students in the column. Example: 100 students in a column, 40% got one category of aid which averaged \$200 each for those recipients. Thus a total of  $40 \times \$200 = \$8000$  was spent on the 100 students, or an average of \$80 each over all 100 students in the column.
- Then amount of unmet need
  - Unmet with aid not to be repaid
  - Unmet with grant, work, and student loans
  - Unmet with all including parent loans
- Totals in millions of dollars for each aid category and for unmet need – **in separate tables** following the detailed set.

#### **Categories of aid** shown in all tables

- Any grant – All gift aid, grants, scholarships – Money that need not be repaid nor earned with work
- Need-based grant – The portion of grants awarded strictly on the basis of financial need
- Grants not necessarily need-based – The portion of grants not awarded strictly on the basis of financial need. Could be based partly on need, partly on other student attributes. Could go to meet financial need of some students even if awarded entirely on the basis of factors other than need.

- Work-study. Federal and state. Student must work to earn this aid.
- Student loans. E.g., Stafford, Perkins.
- Parent loans. Loans to parents of dependent students. Parent loans may be used to replace some of the EFC for the family for the year.
- Need-based institutional grants
- Not-necessarily need-based institutional grants.

**Categories of unmet need** shown in all tables

- Unmet with aid not to be repaid
- Unmet with grants, work, and student loans
- Unmet with all including parent loans
