Residency conversions of CU-Boulder students entering as
non-resident new summer or fall freshmen
For cohorts entering 2000-2009. Conversion rates are lower for cohorts 2005 and later.

Possible reasons: Non-resident tuition guarantee (announced spring 2005),
higher resident (than non-resident) percentage tuition increases 05-06 and later;
statutory tuition classification rules had no major change in/after 2005.

CU-Boulder Planning, Budget and Analysis - 10/18/2010
