

Name \_\_\_\_\_

## What *state of matter* is in the balloon?

As a group, try to figure out what state of matter is in each balloon by making observations about what's inside. Describe the properties or qualities of the material inside the balloon. Then, classify what state of matter is in each balloon by circling Solid, Liquid, or Gas.

Balloon # 1 Observations:

---

---

---

*The matter inside is a:*    Solid            Liquid            Gas

Balloon # 2 Observations:

---

---

---

*The matter inside is a:*    Solid            Liquid            Gas

Balloon # 3 Observations:

---

---

---

*The matter inside is a:*    Solid            Liquid            Gas

Balloon # 4 Observations:

---

---

---

*The matter inside is a:*    Solid        Liquid        Gas

Balloon # 5 Observations:

---

---

---

*The matter inside is a:*    Solid        Liquid        Gas

Balloon # 6 Observations:

---

---

---

*The matter inside is a:*    Solid        Liquid        Gas

Balloon # 7 Observations:

---

---

---

*The matter inside is a:*    Solid        Liquid        Gas
