

Name \_\_\_\_\_

# Oobleck

## Observation Sheet

**Directions:**

Analyze your Oobleck with the tests you and your group came up with. First, write the test you are going to use. Then, describe or draw a picture of what happens to the Oobleck for each test.

**Test 1:** \_\_\_\_\_

**Drawing or Description of what happened to the Oobleck with this test:**

**Test 2:** \_\_\_\_\_

**Drawing or Description of what happened to the Oobleck with this test:**

Name \_\_\_\_\_

**Test 3:** \_\_\_\_\_

**Drawing or Description of what happened to the Oobleck with this test:**

2. In your group, discuss what state of matter you think Oobleck is based on your observations. Use your results to support your conclusion.

3. Write your group's conclusion here: What is Oobleck's state of matter?

What did you observe that supports this conclusion?
