

PhysTEC TAG Meeting 6/15/05

Notes by mike Dubson

In attendance:

Paul Miller
Steve Reeves
Trish Loeblein
Mike Fuchs
Eli Quinn
Chandra Turpin
Roberta Tanner
Steve Iona
Bud Talbot
Michael Dubson
Noah Finkelstein
Valerie Otero
Steven Pollock

In addition to the STEM-Colorado/PhysTEC summer workshop group (~35 people).

What is TAG about?

Developing a community

Visits both ways

productive forum of partnerships

Possible TAG future participants:

- Ed Taylor
 - Tari Wood
 - John Man
 - Linda Limoncelli
-
- Tanner asks about the in-service opportunities for teachers to find out about CU and research
 - Eli Quinn on ID'ing of good field environments seeking look schools to host an intern from CU
 - o Prospective interns must communicate directly with physics teachers (admin not interested) internships would be 1-8 visits
 - o Partnerships with Lego educational on the horizon
 - o Looking institutional at the program: it is a living program ... maybe provide live notebook
 - Tanner suggests giving school schedule to Eli (but the schedule. Won't be fixed until Aug 30 or so)

Turpen mentions idea of newsletter

Reeves suggests the Newsletter target one teacher at a school who shares more broadly

Large interest in other depts. Creating TAG groups

McCray interested in teachers helping build programs more broadly (and help secure funding).
