

# Saturday Physics Series

for Adults & High School Students

University of Colorado at Boulder

2007-2008

## "How Physics Shapes the Surface of Snow Fields"

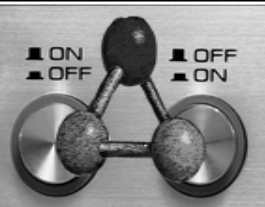

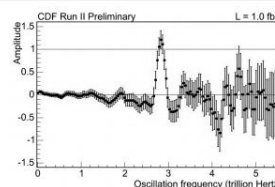

Professor Meredith Betterton

Saturday, October 13  
2PM Duane G1B30

## "Quantum Oscillations and Antimatter"

Professor William T. Ford

Saturday, November 10  
2PM Duane G1B30

## "Making & Shaking Nano Machines"

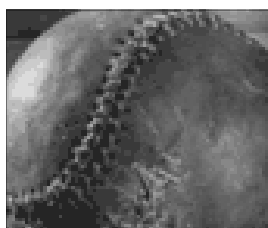

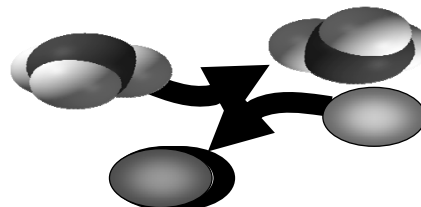

Saturday, January 19  
2PM Duane G1B30

Professor Charles Rogers

## "Billiards At The Nanoscale"

Professor Heather Lewandowski

Saturday, February 16 2PM Duane G1B30

## "Physics of Baseball at a Mile High"

Saturday, March 15  
2PM Duane G1B30

Professor John Bohn

## "Einstein, the Early Universe & Everything"

Professor Oliver DeWolfe

Saturday, April 19  
2PM Duane G1B30
