

Comps II Score Sheet

Department of Physics • University of Colorado at Boulder

Name of Student _____ Date _____

Examiner Name _____

Committee Chair _____

PAPER

Score out of 3 _____

The Comps II paper is a formal, 10–12 page, typeset (12pt, double spaced), publication-ready document, complete with title, abstract, figures, reference, etc. Students at this point are not expected to conduct original research. The Comps II paper is a summary of the student's understanding of a broad research topic, its history, importance, ongoing efforts, outstanding issues, directions, etc. The appropriate level of the paper is that of a summary article in *Physics Today* or the *American Journal of Physics*.

Comments:

PRESENTATION

Score out of 3 _____

The Comps II presentation is a 20-minute, formal presentation, summarizing the Comps II paper. Students are expected to use an overhead projector and/or computer projector and comply with the time limit. Students should prepare their presentation in the spirit of a talk at a scientific meeting. The examining committee will give a three-minute warning and strictly enforce the time limit. During the presentation only short clarifying questions should be allowed.

Comments:

ORAL EXAMINATION

Score out of 4 _____

Following the presentation, the examining committee will ask questions related to the subject of the presentation, as well as general physics questions, including "quickies." This part of the examination is expected to last approximately 40 minutes.

Comments:

Please return completed score sheets to the examining committee chair.

Committee Chairs, please return completed score sheets to the graduate desk.

Total out of 10 _____
