Tom Lookabaugh  
Faculty Director, Interdisciplinary Telecommunications Program  
University of Colorado  
Boulder, CO 80309-0530

Dear Tom,

CableLabs is excited by the Policy Lab idea and are happy to join the partnership. We understand involvement implies participation in discussions around policy and technology interactions, in particular mediated by the Silicon Flatirons Telecommunications program; participation at our discretion in particular policy lab experiments; and offering at our discretion, internships to Policy Lab students when there is a good match to our program.

We look forward to the interactions and the opportunity to explore with Policy Lab's investigators the potential for collaborative innovation when technology and policy are considered together.

CableLabs looks forward to working with you and the Policy Lab in the coming year.

Regards,

Richard R. Green  
President and Chief Executive Officer
