Schedule of Courses, Seminars
and Workshops
Fall 1987

The First Seventy-five Years
3 Easy Ways to Register

See Page 60 For Complete Registration Information

1. In Person
   Monday-Thursday, 9 a.m.-6 p.m.,
   Friday, 9 a.m.-5 p.m. at 1221
   University Avenue.

2. By Mail
   Use the form on page 63 for Boulder
   Evening Credit, form on page 61 for
   Noncredit/Certificate. Three credit hour
   limit by mail, no limit on Noncredit/
   Certificate. A receipt will be mailed back
   to you promptly.

3. By Phone
   For Noncredit/Certificate courses only,
   using VISA, MasterCard, or Choice,
   Monday, August 3 through Friday,
   September 25, call 492-2412 or
   492-2407. Starting September 28,
   call 492-5148. A receipt will be mailed
   to you promptly.

This publication was printed and mailed

nuine Education programs. Continuing
Education regrets any printing errors,
but accepts no liability for them.
In our first 75 years we've gone from the early days of the automotive age to the beginnings of the computer era. In 1912, when we opened our doors, Woodrow Wilson was elected President of the United States and a cattle rancher named Elias Ammons became Governor of Colorado. In those days eight out of ten people in the workforce were involved in producing or manufacturing the goods society needed. Today two people out of ten do that work and the other eight are involved in the various activities of the information society. With the constant expansion of information this entails, lifelong learning is imperative. That's why we're here.

This year we will reach our one millionth registration. That's one million times that Colorado residents have signed up for the classes they need to round out their lives. In the early years it was Refresher Latin and Beginning Steam Engines and Boilers. Today it's computer graphics and videoteleconferencing.

And tomorrow? Stay with us. Wherever the cutting edge goes, we'll be right there.

On October 8 we're holding a gala event called "The Next 75 Years." We hope you can join us.

We're having a celebration and you're invited!

Thursday, October 8, 1987
Events/Conference Center
1:15 to 4:30 p.m.

- refreshments
- mementos
- historic display of 75 years of continuing education
- class demonstrations
- $75 tuition certificate drawings (must be present to win)

Join us for a celebration of 75 years of learning and a preview of the next 75 years.

1:15 to 2:00 p.m.
Awards Presentation
Awards will be presented to outstanding faculty, staff and contributors to Continuing Education.

2:00 to 4:30 p.m.
Displays and on-going demonstrations.

Featured Presentations

2:15 to 2:45 p.m.
Computer applications in Business and Home. See what the future has brought. Learn how you can prepare to take advantage of the practical technology at your fingertips.

2:45 to 3:15 p.m.
Purchasing a home. Buying a home may be your biggest investment. Gino Landini will feature market advice, ways to select your house, your broker, and your lender and his views on the future of real estate ventures.

3:30 to 4:00 p.m.
Visions and trends: businesses of the future. Service oriented and information based — what will be the opportunities and the technological advances? Aivars Zeidens examines what it will take to be a successful business owner and entrepreneur.

4:00 to 4:30 p.m.
Astronomy — the working frontier. With a "glittering" slide show, Joe Romig will take you to the boundaries with his views of the next 75 years of space study. What are the prospects for space exploration and its benefit to mankind?

Come to the celebration. Make a short visit or stay for the afternoon. It's free — our gift to you for your support. And it's a way for us to renew our commitment to the next 75 years of Continuing Education.

Please note that our offices at 1221 and 1229 University Avenue will be closed all day, October 8, so that we can be with you at the Events/Conference Center.

</table>
The Division of Continuing Education continues to offer the evening credit program designed specifically for you, the working person (home, office, other) or adult who cannot attend classes during daytime hours.

Boulder Evening classes carry full undergraduate University credit and are taught by qualified and approved instructors. Credit earned in these classes is automatically posted on an official transcript. You will be registering as a special student unless you have previously been admitted to campus as a degree student. You should be aware that each school or college has established a maximum number of special student credit hours that will be accepted as transfer credit applied towards graduation. After you have accumulated the maximum number of credit hours acceptable (usually 12) you will need to apply for admission as a degree student in a school or college.

**Counseling Services:** Academic and career counseling services are available free of charge for anyone enrolling in a Boulder Evening Credit course or anyone who is considering enrollment. Receive help in planning your program, deciding on a major, or setting personal goals. Vocational interest testing is also available (for a small fee) to help students clarify career goals and objectives. If you are unsure about your academic or career direction, call 492-5145 for an appointment.

**Eligibility:** Any person who has a high school diploma or GED equivalent may enroll. No previous college experience is necessary to register for these classes. Persons on University of Colorado financial stops or academic suspension from the college will be registered as a special student unless they have previously been admitted to campus as a degree student. You should be aware that each school or college has established a maximum number of special student credit hours that will be accepted as transfer credit applied towards graduation. After you have accumulated the maximum number of credit hours acceptable (usually 12) you will need to apply for admission as a degree student in a school or college.

**Residency:** To be eligible for in-state tuition classification, applicants must prove legal residence in Colorado for 12 consecutive months prior to the term for which in-state status is claimed. Students may be required to submit documents substantiating their Colorado eligibility. Applicants who will not be 22 years of age by the first day of class are assumed to be unemancipated minors and to have the same legal residence as their parents. Such students claiming in-state residency whose parents do not live in Colorado must petition to prove emancipated status for the preceding year. Those who feel their initial classification is incorrect may address inquiries to the Division of Continuing Education classification coordinator.

**Tuition:** Tuition is due and payable at time of registration. Cash, check, MasterCard, Visa and Choice credit cards are accepted. Resident tuition is $60 per credit hour. Some courses are slightly higher because of equipment or materials fees. Nonresidents may register for 1-3 semester hours in any term or session at the resident rate of $60 per semester hour. Nonresidents who register for 4 or more hours in any term, session or combination of term and session must pay nonresident tuition of $3420. This tuition entitles the nonresident to register for as many as 17 semester hours in courses offered by the Division of Continuing Education (Boulder Evening, Applied Music, College Correspondence, or Individualized Instruction). Eligibility requirements may vary.

**No Deferred Payment Plan is Available.**

Submission of the registration materials obligates you to pay for the full amount of tuition assessed for the semester.

**How To Enroll:** Advance registration is necessary and can be accomplished in person at 1221 University Avenue, Boulder, Monday through Thursday 9 a.m. to 6 p.m. and Friday, 9 a.m. to 5 p.m., beginning August 3, or at the UMC Ballroom 9 a.m. to 4 p.m. on August 27 and 28. No registrations will be accepted after September 4 for Session I, September 11 for Full Term, and October 30 for Session II. Call 492-5148 for information.

**Drop Procedures:** If you need to drop a credit course for which you are enrolled, you must come to the Division of Continuing Education and complete a drop voucher. If you fail to do this, you will not be officially withdrawn (dropped), you will not receive any refund that may be due you, and you may receive an administrative grade of “F.” Refer to academic calendar for refund deadlines.

**Nonattendance At Class Does Not Constitute Withdrawal**

**Pass/Fail Option:** This option is not available for Boulder Evening credit courses.

**Veterans Benefits:** Eligible veterans and dependents may enroll in these evening classes and apply the credit toward a future degree. Please contact the Veterans Affairs Office in Willard Administrative Center, Room 229, Box 139, or call 492-7322 to determine your eligibility and benefits.

**Privileges:** Boulder Evening credit students are eligible to join the Recreation Center as affiliated students for $40 per semester, payable to the Recreation Center cashier. Students are eligible for Wardenburg Student Health Services for $60 payable to the Wardenburg cashier. A hospitalization plan is available for Continuing Education students for an additional fee of $128.00. Total library services are available at no additional charge. Photo IDs are available for $6 (cash, checks with check guarantee card, VISA, MasterCard) beginning August 31, 11:00 a.m. to 4:00 p.m. at Stadium 129 between Gates 4 and 5.

Students must present Boulder Evening registration receipts to qualify for any of the above privileges.

**Financial Aid:** Limited tuition assistance is available to eligible credit students through a grant from the Colorado Commission on Higher Education. Applications may be obtained in the Office of Financial Aid, ENVD-2, 492-5081 and must be submitted no later than September 11, 1987 for Fall Semester consideration. Continuing Education programs do not qualify for other forms of aid, including Guaranteed Student loans.

**Special Registration For Faculty and Staff:** Faculty and staff of the University of Colorado, Boulder can enroll in Boulder Evening credit courses on a space available basis for one-half the regular tuition fee. Registration will begin August 31. Please bring a copy of PAF indicating at least a half-time active appointment.

**General Astronomy**

**APAS 111-3 General Astronomy**

Principles of modern astronomy for non-science majors, summarizing our present knowledge about the Earth, the moon, planets, the sun, and the origin of life. When combined with APAS 112, satisfies first year natural sciences requirement. APAS 111 and 112 may be taken in either order. APAS 111 offered spring semester.

Full Term - Section 300: Mondays, 7-10 p.m., Engineering Center CR 2-06. $180.

**Survival Tips**

Important Information About Arts and Sciences Degree Requirements and How Boulder Evening Credit Courses Can Be Utilized to the Best Advantage

Every person pursuing a degree in Arts and Sciences must complete two two-semester course combinations in each of the following areas: Humanities, Social Science, and Natural Science. The course descriptions for Boulder Evening credit courses will indicate whether the course satisfies one of the Fall 1987 course combination requirements as indicated on the College List. If there is no indication in the course description that a course can be combined with another to satisfy a specific requirement, you can use the credit as an elective.

**Anthropology**

**Anthropology 103-3 Principles of Anthropology I**

Evolution of man and his culture from their beginnings through early metal ages. The course covers human evolution, human variations, prehistory, and the rise of early civilizations. When combined with Anth. 104, satisfies first year social sciences requirement.

Session I - Section 100: Mondays and Wednesdays, 7-10 p.m., Hellem 237. $180.

**Anthropology 104-3 Principles of Anthropology II**

Survey of the world's major areas; culture and its major components such as subsistence, social organization, religion, and language. When combined with Anth. 103, satisfies first year social sciences requirement.

Session II - Section 200: Mondays and Wednesdays, 7-10 p.m., Hellem 237. $180.

**Anthropology 201-3 Introduction to Physical Anthropology I**

Detailed consideration of human biology, man's place in the animal kingdom, and fossil evidence bearing on human evolution. (Students may not receive credit for both Anth. 201 and 205.) When combined with Anth. 202, satisfies first year natural sciences requirement. Anth. 202 offered spring semester.

Full Term - Section 300: Tuesdays, 7-10 p.m., Hellem 237. $180.

**Arabic**

**Arabic 101-5 First Year (Beginning) Arabic I**

Full Term - Section 300: Tuesdays and Thursdays, 7:30 p.m., Hellem 191. $440.

**Computer Science**

**Computer Science 120-3 Introduction to Programming I**

An introductory course in computer programming covering computer fundamentals, the elements of a structured programming language, and the basic techniques for designing algorithms to solve practical problems. The programming language PASCAL is used as a vehicle for expressing these concepts. Students are required to attend two lectures per week and one recitation section. Since this is a rigorous laboratory course, students should plan to spend at least 10 additional hours per week at the Engineering Center. Prerequisite: three years of high school mathematics including trigonometry and algebra.

Full Term - Section 300: Lecture - Mondays and Thursdays, 7:15-8:45 p.m., Recitation - Thursdays, 6-7 p.m., Engineering Center CR 0-36. $205.

**Communication**

**Communication 203-3 Interpersonal Communication**

This course explores communication between people. It promotes self-awareness by understanding major communication concepts, stages of relationships, and communication skills. In particular, communication between the sexes in intimate, friendship, and professional relationships receives emphasis. Some skill areas studied are listening, conflict management, assertiveness, nonverbal, and self-disclosure. When combined with Comm. 102 or 215, satisfies first year social sciences requirement.

Full Term - Section 300: Mondays, 6:30-9:30 p.m., Hellem 201. $180.

Session I - Section 100: Tuesdays and Thursdays, 6-9 p.m., Hellem 137. $180.

**Communication 231-3 Oral Competency**

Designed to explore a variety of contexts, purposes, and styles of communication. Students will make a minimum of five presentations for critique-evaluation and be examined over course content. The primary aim is to find and develop the student's most effective style for different purposes and contexts. No prerequisites.

Full Term - Section 300: Mondays, 6:30-9:30 p.m., Hellem 81. $180.

Session II - Section 200: Tuesdays and Thursdays, 6-9 p.m., Hellem 137. $180.

**General Astronomy**

**APAS 111-3 General Astronomy**

Principles of modern astronomy for non-science majors, summarizing our present knowledge about the Earth, the moon, planets, the sun, and the origin of life. When combined with APAS 112, satisfies first year natural sciences requirement. APAS 111 and 112 may be taken in either order. APAS 111 offered spring semester.

Full Term - Section 300: Mondays, 7-10 p.m., Engineering Center CR 2-06. $180.
Economics

Economics 201-3
Principles of Macroeconomics
An overview of the economy examining the flow of income and GNP as well as the factors determining the level of employment, income, money, credit, and prices. When combined with Econ. 202, satisfies first year social sciences requirement. Econ. 201 and 202 can be taken in either order.
Full Term - Section 300:
Thursdays, 5:30-8:30 p.m.,

Economics 202-3
Principles of Microeconomics
The operation of the price system as a major organizer of the economy. Elementary theory, problems, and public policy of competition, monopoly, distribution of income, and international economic relations. When combined with Econ. 201, satisfies first year social sciences requirement. Econ. 202 and 201 can be taken in either order.
Full Term - Section 300:
Tuesdays, 6-9 p.m.,

Education

Education 480-3
Special Topics: Creative Learning Experiences and Resources (C.L.E.A.R.)
This experiential course is designed to help educators/counselors enhance their effectiveness and realize greater creative potentials for themselves and their students. We will explore a variety of ways to activate right brain functioning through multi-sensory learning, creative problem solving techniques, and the expansion of creative imagination and humor. We will consider how creative learning experiences can enhance our daily lives — personally, academically, and professionally.
Session I - Section 100:
Tuesdays and Thursdays, 5-8 p.m.,
Hale 6. $188.
Session II - Section 200:
Thursdays and Thursdays, 5-8 p.m.,
Hale 6. $188.

Education 481-3
Special Topics: Integrative Learning
This course provides information and practical strategies designed to motivate and energize anyone interested in the teaching, learning, and communication process. Participants will learn tools which aid in creating an optimum learning environment, which encourages increased learning and retention, improves communication and thinking skills, and enhances self esteem. Included in a whole brain approach to learning are: brain research, teaching and learning styles, stress management and biofeedback techniques, and numerous other suggestions for enhancing the learning potential. Participants will increase awareness of their own learning process and have the opportunity to share and experience techniques which can be used personally and professionally.
Full Term - Section 300:
Thursdays, 6:30-9:30 p.m.,
Engineering Center CR 1-26. $188.

Education 482-3
Workshop in Curricular and Instructional Development: Meeting the Needs of the Gifted and Talented Child
This course will promote awareness of the unique needs of the gifted and talented child in the classroom, on a district-wide basis, and in the community. It will focus on identification, characteristics, curriculum development, individualized instructional materials, alternative programming, teaching strategies, program evaluation, parenting, and the affective areas of gifted education. Students will have an opportunity to discuss current issues in gifted education, simulate classroom situations, and share hands-on materials appropriate for gifted and talented children. This course does not meet initial Colorado certification requirement for teaching exceptional children in the regular classroom.
Full Term - Section 300: Tuesdays, 5-8 p.m.,
Engineering Center CR 0-03. $180.

English

English 119-3
Introduction to Creative Writing
This course is designed for students who want to learn basic techniques of writing short fiction and poetry. It is valuable for students with serious writing goals, for those who seek greater skill in self expression, and for those who want to better appreciate literature by learning to write it. Students will write stories and poems, and discuss them in a supportive, workshop atmosphere. We will also read and discuss the works of established writers, in order to develop our awareness of the elements of fiction and poetry.
Session I - Section 100:
Mondays and Wednesdays, 7-10 p.m.
Hellems 193. $180.
Session II - Section 200:
Mondays and Wednesdays, 7-10 p.m.,
Engineering Center CR 1-05. $180.
### English - con't.

**English 120-3 Introduction to Fiction**
Introduction to the novel, novella, and short story, including works from the nineteenth and twentieth centuries, as well as contemporary authors. Focus will be on reading and class discussions, and the development of basic critical approaches to fiction. Authors will include European, Latin American, and Russian writers in addition to American. When combined with English 126, 130, 140, 150, 160, 190, 226, or 253, satisfies first year humanities requirement.
Full Term - Section 300: Thursdays, 6-9 p.m., Engineering Center CR 1-40. $180.

**English 126-3 Introduction to Women's Literature**
This course will serve as an introduction to the study of literature by women in England and America. Both poetry and fiction will be read, and varying historical periods will be covered. The course is designed to acquaint the student with the contribution of women writers to the English literary tradition and to investigate the nature of this contribution. When combined with English 120, 130, 140, 150, 160, 190, 226, or 253, satisfies first year humanities requirement.
Full Term - Section 300: Mondays, 6:30-9:30 p.m., Hellems 245. $180.

**English 140-3 Introduction to Poetry**
The course will focus on the basic elements of poetry, such as figurative language and the precision and speed with which it communicates; the function of sound, rhythm, syntax, and various fixed forms of the poetical tradition. Samples of British, American, and some foreign poetry, contemporary as well as traditional, will serve to demonstrate the different elements and provide a historical background. The emphasis will be on reading and class discussions, development of critical skills, and most of all a heightened appreciation for poetry. When combined with English 120, 126, 130, 150, 160, 190, 226, or 253, satisfies first year humanities requirement.
Session I - Section 100: Mondays and Wednesdays, 7-10 p.m., Engineering Center CR 1-05. $180.

**English 160-3 Introduction to American Writers**
This course introduces students to a range of representative major works of American literature, with emphasis on works written before the 20th century. When combined with English 120, 126, 130, 140, 150, 190, 226, or 253, satisfies first year humanities requirement.
Full Term - Section 300: Thursdays, 7-10 p.m., Hellems 211. $180.

**English 202-3 Introductory Poetry Workshop**
An introductory course in poetry writing. Prerequisite: an A or B in English 119 or permission of the instructor. Students will employ their skills both in the field of their own work and in writing critical evaluations of other published poetry.
Session I - Section 100: Tuesdays and Thursdays, 6:30-9:30 p.m. Hellems 285. $180.
Session II - Section 200: Tuesdays and Thursdays, 6:30-9:30 p.m. Hellems 285. $180.

### Biology

**EPOB 121-3 General Biology I**
A concentrated introduction to molecular, cellular, genetic, and evolutionary biology. Emphasis is on fundamental principles, concepts, facts, and questions which receive more detailed consideration later in the core curriculum. When combined with EPOB 122, satisfies first year natural sciences requirement. EPOB 121 and 122 can be taken in either order. EPOB 122 offered spring semester.
Full Term - Section 300: Wednesdays, 7-10 p.m., Engineering Center CR 0-36. $180.

**EPOB 122-3 General Biology II**
A concentrated introduction to molecular, cellular, genetic, and evolutionary biology. Emphasis is on fundamental principles, concepts, facts, and questions which receive more detailed consideration later in the core curriculum. When combined with EPOB 121, satisfies first year natural sciences requirement. EPOB 121 and 122 can be taken in either order. EPOB 122 offered spring semester.
Full Term - Section 300: Wednesdays, 7-10 p.m., Engineering Center CR 0-36. $180.
**Film Studies**

**Film Studies 460-3 Developing Projects for the Entertainment Industry**

The course is designed to give the participants an understanding of the entertainment industry's formats and procedures in acquiring/developing independent video and film projects. Techniques in making effective presentations are emphasized along with elements of script writing. The class features a conditioning program in "Writing Aerobics" designed to get script writing skills into shape for the rigors of project development. Appropriate industry screenings and scripts will also be analyzed.

Session I - Section 101: Mondays and Wednesdays, 7-10 p.m., Norlin Library Audiovisual Room. $188.

Session I - Section 102: Tuesdays and Thursdays, 7-10 p.m., Norlin Library Audiovisual Room. $188.

**Fine Arts**

**Fine Arts 100-2 Basic Drawing**

An introductory course including pictorial design, life drawing, still life, and landscape, using varied drawing techniques and media. May not be repeated.

Full Term - Section 300: Mondays and Wednesdays, 7-10 p.m., Fine Arts C175. $140.

**Fine Arts 291-3 Special Topics: Drawing in Color**

Drawing in Color builds on the technical and conceptual foundation of basic drawing classes while introducing color theory, individual media and mixed media. The development of a personal approach to color and imagery will be encouraged. Experimentation with a variety of drawing materials such as pastels, prismacolor pencils, Caran d'Ache Neocolor II crayons and collage is expected. Subject matter will include still life, landscape, architecture, the human figure and created imagery. Students are expected to spend a minimum of three hours outside of class drawing.

Full Term - Section 300: Tuesdays and Thursdays, 7-10 p.m., Fine Arts C175. $200.

**Fine Arts 418-3 New Directions in Photography: Color**

Students will learn the history, theory, aesthetics and practice of color photography as a fine art medium. This class will utilize the subtraction filter method of printing color negatives on color paper (type "C"). Students should expect to spend $150-200 during the semester outside the tuition and lab fees on paper and film. Lab fees cover facilities and chemicals.

Full Term - Section 300: Mondays and Wednesdays, 7-10 p.m., Fine Arts N163. $220.

**Geography**

**Geography 100-3 Environmental Systems: Climate and Vegetation**

A general introduction to the atmospheric environment of the Earth; the elements and controls of climate and their implications to hydrology, vegetation, and soils. When combined with Geog. 101, satisfies first year natural sciences requirement.

Session I - Section 100: Mondays and Wednesdays, 6:30-9:30 p.m., Guggenheim 3. $180.

Session II - Section 200: Mondays and Wednesdays, 6:30-9:30 p.m., Guggenheim 3. $180.

**Geography 101-3 Environmental Systems: Landforms and Soils**

An introductory survey primarily concerned with two essential aspects of the natural environment — landforms and soils. Major emphasis is directed to the genesis, distribution, and utility of surface features in a variety of learning situations, including lectures, labs, and field trips. Geog. 101 carries only two hours credit towards graduation if student has earned credit in Geol. 101 or 103. When combined with Geog. 100, satisfies first year natural sciences requirement.

Session I - Section 101: Mondays and Wednesdays, 6:30-9:30 p.m., Guggenheim 3. $180.

Session II - Section 200: Mondays and Wednesdays, 6:30-9:30 p.m., Guggenheim 3. $180.
Credit Classes

Geography-con’t.

Geography 199-3
Introduction to Human Geography
A systematic introduction to the broad field of human-environment relationships. Topics vary but may include growth and distribution of populations, locational analysis of economic activities; origin, development, and problems of urban communities; and spatial analysis of cultural, historical, and political phenomena. When combined with Geog. 198 or 200, satisfies first year social sciences requirement.
Full Term - Section 300: Wednesdays, 7-10 p.m., Guggenheim 205. $180.

Geography 306-3
Maps and Mapping
An introduction to maps and their role in society, this course includes the fundamentals of reading and using both reference and special purpose maps as well as the influence of maps on attitudes toward and images of the geographic environment. Optional half-day field exercise will be available.
Full Term - Section 300: Tuesdays, 7-10 p.m., Guggenheim 205. $180.

Geology

Geology 103-3
Our Geophysical Environment
A course for nongeology majors that reviews the Earth's physical/chemical makeup, its dynamic processes, and its geological resources, with emphasis on how these affect our life on earth. Course consists of 14 three-hour lectures meeting once a week, and two optional half-day fieldtrips. The course is closed to geology majors, and Geology 103 carries only 2 credits if student has earned credit in Geography 101. When combined with Geol. 104, satisfies first year natural sciences requirement. Geol. 104 offered spring semester.
Session II - Section 200: Tuesdays and Thursdays, 7-10 p.m., Guggenheim 3. $180.

History

History 229-3
Western Warfare and Society Since the 18th Century
This course examines the relationship between warfare and society from "rational" war of the 18th century to "total" war of the 20th. Key areas to explore include: the role of military leaders like Frederick the Great, Napoleon, Hitler, and Eisenhower; the balance between civil and military authority; the development of military plans and doctrine; and the impact of technological change on the conduct of war. By studying the growth of military institutions, we will have a better understanding of the role of the military in the nuclear age.
Session I - Section 100: Mondays and Wednesdays, 6:30-9:30 p.m., Hellems 211. $180.
Session II - Section 200: Mondays and Wednesdays, 6:30-9:30 p.m., Hellems 211. $180.

History 258-3
History of Colorado
Emphasizes the historical variety and ethnic diversity of Colorado. Along with traditional themes in Colorado history, such as the gold rush, attention will be given to Indian and Hispanic activity and culture.
Full Term - Section 300: Mondays, 7-10 p.m., Business 352. $180.

History 466-3
U.S. History, 1948 to the Present
Students will learn about the history of the United States since World War II and about the writing of history through course readings, lectures, and discussions of major events, problems, and trends (e.g., the Cold War, the '50s, Civil Rights, Vietnam, the women's movement, etc.).
Full Term - Section 300: Tuesdays, 7-10 p.m., Hellems 267. $180.

Hebrew

Hebrew 101-5
First Year (Beginning) Hebrew I
Full Term - Section 300: Mondays, Wednesdays, and Fridays, 1-3 p.m., Hellems 104. $440.

History 141-3
History of England I
Deals with the period from Roman time to the 17th century. Covered are social, political, and constitutional affairs which contributed to the creation of the English nation. When combined with Hist. 142, satisfies first year social sciences requirement. Hist. 142 offered spring semester.
Full Term - Section 300: Tuesdays, 7-10 p.m., Engineering Center 0-36. $180.

History 151-3
The United States to 1865
A survey of American history from the first settlement until the end of the Civil War. When combined with Hist. 152, satisfies first year social sciences requirement. Hist. 152 offered spring semester.
Full Term - Section 300: Wednesdays, 7-10 p.m., Business 352. $180.
## Credit Classes

### Mathematics

#### Mathematics 099-3
**Pre-College Mathematics**
Real numbers, algebraic expressions, exponents, radical, first degree equations and inequalities, polynomials, special products and factoring, algebraic fractions, the function concept, graphs, and quadratic functions. This course carries 3 hours of add-on credit. Students who enroll in the course will have it appear on their transcript, but for Arts & Sciences students it will count as an additional three hours of credit toward their undergraduate degree, making the minimum number of hours 127 rather than 124. All registrations will be either for no credit (but full tuition will be charged for this type of registration, notwithstanding) or for a letter grade. The letter grade, which will conform to the letter grades given in all University courses, will be calculated by the computer as part of the computer generated GPA for each student. This grade will continue to be carried by the College through a student’s academic career, but will be removed in determining the final cumulative grade point average of the student at graduation.

- **Full Term - Section 301:** Mondays and Wednesdays, 7-8:30 p.m., Engineering Center CR 1-40. $180.
- **Full Term - Section 302:** Tuesdays and Thursdays, 3:30-5 p.m., Hellems 267. $180.

#### Mathematics 101-3
**College Algebra**
Simplifying algebraic expressions, factoring linear and quadratic equations, inequalities, exponents, logarithms, functions and graphs, complex numbers, binomial theorem. Prerequisite, one year high school algebra. Persons whose high school algebra was completed over three years ago should be prepared to spend additional time in review. (See Math. 099 also.) No credit for students with credit in Math. 110. Math. 101 and 102 are equivalent to Math 110.

- **Full Term - Section 300:** Mondays and Wednesdays, 7-8:30 p.m., Engineering Center CR 1-09. $180.

#### Mathematics 102-2
**College Trigonometry**
Trigonometric functions, identities, solutions of triangles, addition of multiple angle formulas, inverse trigonometric functions, laws of sines and cosines. Prerequisite, 1½ years high school algebra and one year high school geometry or Math 101. No credit for students with credit in Math 110. May be taken currently with Math 130. Math 101 and 102 are equivalent to Math 110.

- **Full Term - Section 300:** Tuesdays, 5:30-7:30 p.m., Engineering Center CR 1-09. $120.

#### Mathematics 107-3
**Mathematics for Social Science and Business**
Systems of linear equations; an introduction to matrices, linear programming, and probability. Does not prepare students for Math. 110 or 130. Prerequisite, 1½ years of high school algebra or equivalent.

- **Full Term - Section 300:** Mondays, 5:30-8:30 p.m., Engineering Center CR 2-26. $180.

#### Mathematics 108-3
**Calculus for Social Science and Business**
An intuitive treatment of beginning calculus; differentiation and integration of algebraic, logarithmic, and exponential functions with applications in business and the social sciences. No knowledge of trigonometry or analytic geometry is presupposed. Those planning to take more than one semester of calculus should take Math. 130 instead of Math. 108.

- **Full Term - Section 300:** Mondays, 6-9 p.m. Business 249. $180.

#### Mathematics 130-5
**Analytic Geometry and Calculus I**
Rates of change of functions, limits, derivatives of algebraic functions, applications of derivatives, integration. Prerequisite, 3 years of high school mathematics, including trigonometry, or Math 110 or Math 101 and 102. When combined with Math. 230, satisfies first year natural sciences requirement. Math 230 offered spring semester.

- **Full Term - Section 300:** Mondays and Thursdays, 5:30-8 p.m., Engineering Center CR 0-38. $300.

### Philosophy

#### Philosophy 100-3
**Introduction to Philosophy**
The course focuses on several topics and issues. Among them are the existence of God, ethics, and ways of knowing. A portion of the course will be devoted to specific ethical problems; among them will be abortion, animal rights, and armaments. The student will be encouraged to participate in class discussions as a way of learning to do philosophy instead of memorizing a set of lecture notes. Readings are from primary sources, most of them traditional in the history of philosophy. Short papers are required. When combined with Phil. 102, 103, 105, 106, 107, 110 or 112, satisfies first year humanities requirement. When combined with Phil. 104, 209, or 220, satisfies first year social sciences requirement. If Phil. 100 is used for the humanities requirement, it cannot be used for the social sciences requirement.

- **Full Term - Section 300:** Tuesdays, 7-10 p.m., Hellems 229. $180.

#### Philosophy 102-3
**Ethics**
This course will offer an introduction to that part of philosophy known as ethics. Basic ethical concepts and issues will be presented and explored in lecture and discussion. Time will be devoted to both theoretical points and actual ethical situations in the world and in our own lives. The intent will be to sharpen our awareness of the ethical, learn to analyze it with greater depth, formulate our own values, deepen our reflective lives, and to bring more fulfillment to our existence through an increased appreciation of the meaning and power of our actions in the world. When combined with Phil. 100, satisfies first year humanities requirement.

- **Full Term - Section 300:** Thursdays, 7-10 p.m., Hellems 229. $180.

#### Philosophy 105-3
**Philosophy and Religion**
A philosophical introduction to problems of religion, such as the existence of God, faith and reason, religious language, etc. When combined with Phil. 100, satisfies first year humanities requirement.

- **Full Term - Section 300:** Mondays, 7-10 p.m., Hellems 229. $180.
**Physical Education**

**Physical Education 342-3**

**Nutrition and Health**

In addition to the studying of nutrients and how they function in the body, current controversial issues in nutrition will be examined. Included are food additives, natural and organic foods, vitamin supplements, nutrition for athletes, vegetarian diet, diet and heart disease, diet and cancer, and diet in each stage of the life cycle.

Session I - Section 100:
Tuesdays and Thursdays, 7-10 p.m., Engineering Center CR 1-46. $180.

Session II - Section 200:
Mondays and Wednesdays, 7-10 p.m., Engineering Center CR 1-46. $180.

**Physical Education 401-3**

**Special Aspects of Current Practices: Current Controversies in Nutrition**

Nutrition is a rapidly changing field of knowledge. Many controversial, yet unresolved topics exist today. In this course, we will explore in depth the following issues: nutritional assessment, nutritional supplementation, food safety, nutrition and behavior, food allergies, and trace minerals and health.

Session I - Section 100:
Tuesdays and Thursdays, 7-10 p.m., Engineering Center CR 1-46. $180.

Session II - Section 200:
Mondays and Wednesdays, 7-10 p.m., Engineering Center CR 1-46. $180.

**Political Science**

**Political Science 110-3**

**The American Political System**

A general introduction to the American political system with emphasis upon the interrelations among the various levels and branches of government, formal and informal institutions, processes and behavior. When combined with Political Science 201, 202, 222, or 240, satisfies first year social sciences requirement.

Full Term - Section 300:
Wednesdays, 7-10 p.m., Ketchum 235. $180.

**Political Science 222-3**

**Introduction to International Relations**

The purpose of this introductory course is to introduce students to both the tools of the discipline and its contemporary issues. Therefore, this course consists of three parts: the study of tools, which deals with the concepts, methods, and theories of the discipline; conflict and peace studies, that focuses on both the conflictual and cooperative aspects of the North-South and East-West relationships; and the study of future alternatives. The breadth and changing scope of the discipline forces us to be selective in the topics of discussion. Time will be allocated to discuss topics of interest to students. When combined with Political Science 110 or 240, satisfies first year social sciences requirement.

Full Term - Section 300: Thursdays, 7-10 p.m., Hellem 177. $180.

**Psychology**

**Psychology 100-3**

**General Psychology**

Survey of major topics in psychology, including sensory and perceptual processes, human development, personality, frustration and conflict, learning and memory, and the biological basis of behavior. When combined with Psy. 230, 245 or 264, satisfies first year social sciences requirement. When combined with Psy. 204 or 205, satisfies first year natural sciences requirement. If Psy. 100 is used for the social sciences requirement, it cannot be used for natural sciences requirement.

Full Term - Section 300: Thursdays, 7-10 p.m., Porter Biopsychology E131. $180.

**Psychology 205-3**

**Introduction to Biopsychology**

An introductory course on the biological bases of behavior. Details of the structure, biology and chemistry of the brain provide a foundation for understanding the latest findings regarding perception, thought, emotion, consciousness, sleep and wakefulness, learning and memory, how drugs alter mood and behavior, and the causes of psychotic behavior. When combined with Psy. 100, satisfies first year natural sciences requirement.

Full Term - Section 300: Tuesdays, 7-10 p.m., Porter Biopsychology E131. $180.
| Psychology 210-3  
Statistics and Research Methods in Psychology |
|------------------------------------------------|
| This course will explore the methods that researchers use to establish facts. Topics will include the scientific method, designing experiments to test hypotheses, evaluating experiments, and summarizing data. Emphasis will be placed on the use and misuse of statistics; especially, how to lie with statistics and how to represent data, etc. The purpose of the latter is to sharpen one's analytical skills. This course is a requirement for all psychology majors and recommended for persons planning to pursue a career in behavioral sciences.  
Full Term - Section 300: Mondays, 7-10 p.m., Porter Biopsychology E113. $180. |

| Psychology 230-3  
Psychology of Adjustment |
|------------------------------------------------|
| The Psychology of Adjustment draws from a broad area of psychology. It is primarily concerned with how people grow and develop as individuals and how they function within their social groups. In this course we will first examine general theories of human behavior — why do people behave as they do? We will then go on to study how to promote healthy adjustment to life's challenges and what happens when people fail to adjust. Thus, we will cover such diverse topics as self-understanding, dreams, behavior change and psychological problems and their treatment. When combined with Psy. 100, 245, or 264, satisfies first year social sciences requirement.  
Full Term - Section 300: Wednesdays, 6:30-9:30 p.m., Porter Biopsychology E113. $180. |

| Psychology 264-3  
Child and Adolescent Psychology |
|------------------------------------------------|
| Principles of development of childhood and adolescence. When combined with Psy. 100, 230, or 245, satisfies first year social sciences requirement.  
Full Term - Section 300: Wednesdays, 7-10 p.m., Porter Biopsychology E131. $180. |

| Psychology 430-3  
Abnormal Psychology |
|------------------------------------------------|
| An examination of psychopathology: theoretical orientations, diagnostic methods, diagnostic categories, treatment, and research in psychopathology.  
Full Term - Section 300: Wednesdays, 6:30-9:30 p.m., Business 250. $180. |

| Psychology 445-3  
Psychology of Personality |
|------------------------------------------------|
| The psychological study of the structure, organization, and development of the person as a whole. Analysis of major theories, methods and research dealing with personality, including topics such as emotion, motivation, temperament, inner experience, identity and the self, personality change, and the influence of the sociocultural context. Prerequisite, 12 hours of psychology or consent of instructor.  
Full Term - Section 300: Mondays, 6:30-9:30 p.m., Business 250. $180. |

| Psychology 471-3  
Survey of Clinical Psychology |
|------------------------------------------------|
| Theories and practices relating to problems of ability and maladjustment. Diagnostic procedures and treatment methods with children and adults. Prerequisite, Psy. 100 and 431, or consent of instructor.  
Full Term - Section 300: Tuesdays, 6:30-9:30 p.m., Porter Biopsychology E113. $180. |

| Sociology 119-3  
Deviance |
|------------------------------------------------|
| In this course, the various social phenomena which are seen as instances of "deviance" are approached through five major sociological perspectives. Concentration will be upon the processes whereby certain things come to be seen as "deviant," and on the meanings and consequences of our responses to them. The everyday nature of deviance, rather than its rarity or distance from common experience is stressed. This is a reading, writing, and discussion course. Students will be helped to read a selection of original studies in the Sociology of Deviance, encouraged to discuss their reading and the material presented in class, to relate the ideas thus generated to their normal life experiences and to write about these, using the theoretical perspectives they have studied. The course is, thus, intended as a good introduction to sociological thinking and to the basic tools of academic work. When combined with Soc. 211, satisfies first year social sciences requirement.  
Full Term - Section 300: Tuesdays, 6:30-9:30 p.m., Hellems 211. $180. |

| Sociology 191-3  
Contemporary Social Issues |
|------------------------------------------------|
| Introductory consideration of some 30 current social controversies such as democracy, capitalism, race and ethnic groups, marriage, the family, crime, international tensions, and world order. Designed to improve the student's ability to understand current debate and to formulate opinions for himself. When combined with Soc. 211, satisfies first year social sciences requirement.  
Full Term - Section 300: Mondays, 6-9 p.m., Ketchum 235. $180. |
Sociology - con't.

Sociology 200-3
Sociology of Death and Dying
The causes of death, who dies, the experience of dying (nursing homes, emergency rooms, intensive care, hospices), ethical and political issues: right to life, right to death, euthanasia, bionics, genetic engineering, cryogenics, environmental and occupational health.
Full Term - Section 300: Mondays, 6:30-9:30 p.m., Hellem 201. $180.

Sociology 211-3
Introduction to Sociology
An exploration of the sociological perspective and its insights into social phenomena ranging from impersonal social forces and institutional structures. Explains the major theoretical approaches to social relations and the basic methods of social scientific inquiry. Includes historical comparisons of societies and cultures, critical analysis of U.S. institutions, and an exploration of the processes of social change. When combined with Soc. 119, 128, 191, 212, 239, or 250, satisfies first year social sciences requirement.
Full Term - Section 300: Tuesdays, 7-10 p.m., Ketchum 120. $180.
Session II - Section 200: Tuesdays and Thursdays, 6-9 p.m., Ketchum 235. $180.

Sociology 250-3
Social Problems and Social Change
Deals with major theories of social change, change in major social institutions, and current social problems: distribution of power in society, unemployment, poverty, racism and sexism, the changing role of the family, sexual norms and behavior, drugs and psychological methods of awareness. When combined with Soc. 211, satisfies first year social sciences requirement.
Session I - Section 100: Mondays and Wednesdays, 7-10 p.m., Hale 205. $180.
Session II - Section 200: Mondays and Wednesdays, 7-10 p.m., Hale 205. $180.

Sociology 443-3
Technology and Modernization
The Strategic Defense Initiative (SDI), genetic engineering, telecommunications, nuclear reactors, the space shuttle, amniocentesis, artificial intelligence (AI), etc. This course examines the human impact of technology along with the dynamics which transform promising ideas into dangerous threats which increase the chances of war, environmental destruction, massive unemployment resulting from automation, and the denial of civil liberties. When combined with any other upper division sociology course except 317, 401, 402, and 492 will complete the second year social sciences requirement provided first year combination has been completed.
Full Term - Section 300: Thursdays, 7-10 p.m., Hellem 193. $180.

Sociology 495-3
Criminology
An exploration of the social processes involved in producing and perpetuating crime. Includes a critical examination of the operations of the criminal justice system as well as an analysis of the causes of criminal behavior. Provides a survey of various criminological theories and a critical assessment of conventional explanations of crime. Broadens the inquiry into the nature of crime beyond a focus on individual streetcrime and white-collar crime to include consideration of corporate crime, and crime by the state. Sophomore standing is suggested, or permission of the instructor. When combined with any other upper division sociology course except 317, 401, 402, and 492 will complete the second year social sciences requirement provided first year combination has been completed.
Full Term - Section 300: Wednesdays, 6-9 p.m., Ketchum 234. $180.

Women Studies

Women Studies 201-3
Contemporary Issues
Examines current social, political, and economic issues related to women. Includes consideration of women of all social classes and ethnic backgrounds, primarily in the United States. Possible topics include violence against women, women in the labor force, reproductive freedom, women in poverty, sexuality, the women's movement. Prerequisite, Wm. St. 200 or instructor's consent. When combined with Wm. St. 200, satisfies first year social sciences requirement.
Full Term - Section 300: Tuesdays, 5-8 p.m., Ketchum 234. $180.
Management Development Certificate Program

This Certificate Program has been designed to develop management skills for persons who aspire to management positions or who wish to increase their expertise in any area of management. There are no prerequisites for any course, and any person interested may enroll. You need not be working toward certification. Any course enrollment immediately registers you in the Certificate Program. In the competitive market, the people most likely to succeed are those with a thorough knowledge of a wide range of management areas. This program develops expertise in the basic and most useful areas of management. New courses are added regularly; several are offered more than once a year.

Course offerings cover task-related skills and important management concepts. Enrollees may select from the courses which best meet their needs. Each course is designed to consider a key aspect of the management process. Faculty are experts recruited from universities and from private businesses or consulting firms. They are chosen for their special expertise in the subject area and their proven teaching skills. Courses are not overly technical or purely theoretical; all subject matter is presented in a format which participants can relate directly to their professions.

Locations for Boulder courses are listed at the end of each course. Locations for Longmont courses (see following listing, page 20) are all at Longmont High School; specific room numbers will be given at registration.

Professional Development Program Certificates are awarded for attendance at any of the courses. This attendance certification is determined by the course instructor. Continuing Education Units are awarded for course attendance. One Continuing Education Unit (CEU) represents 10 hours of university or college-level course participation, and is a nationally recognized standard. The number of CEUs awarded in a course is listed with the course description, and follows this 10:1 ratio.

The completed Management Certificate of Achievement is awarded upon successful completion of courses equal to 10 CEUs or 100 hours of instruction. A complete transcript of program participation is maintained, and available without fee upon request.

The Management Development courses are conducted continuously and need not be completed with the herein described courses. A permanent record of participation is kept, and a transcript of courses taken is available free of charge at any time. Students may continue the certification process at their own pace, or may enroll in any number of courses, depending on professional goals.

Course tuitions are listed at the end of each course description. Please note that refunds are given only before the start of a course, none after.

All questions concerning the program, including your current status toward earning the Achievement Certificate, may be answered by calling the Division of Continuing Education at 492-5148 (or call outside the Denver Metro dialing area, 1-800-332-5839).

MDB-2
The Art of Negotiating
A successful negotiator must learn the basic techniques which come into play in every negotiation. It is important to develop the ability to recognize strategy, tactics, and reverse strategy and, in the process, still satisfy the opponent's needs. This course is designed to equip the participant with the psychological skills and strategies that will increase the probability of successful bargaining results in business and personal negotiations. This class format will be approximately half lecture and role playing in various negotiating scenarios. Donald O. Marcotte, M.B.A. in Management, B.S.B.A. in Marketing and Finance, has own business financial consulting firm in Boulder. Instructor for the Small Business Administration.
Thursday, October 22-November 19, 6:30-8:30 p.m.
5 sessions, 1 CEU. Business 208. $75.

MDB-3
Basic Skills for the New Supervisor
This workshop is designed for individuals new to management or developing skills to prepare for a management position. Information will be provided about:
• Basic principles of supervision
• Leadership skills and team building
• Effective communication
• Problem solving and handling conflict
• Employee development and discipline
• Motivation techniques
Doug Sullivan, M.B.A. at CU Boulder, President of Career Marketing and Developing Co.
Thursday, September 17-October 8, 6:30-9 p.m.
4 sessions, 1 CEU. Business 251. $75.
### MDB-5
**Communication Effectiveness: Between Supervisor & Employee**

Productive employees are goal-oriented individuals who enjoy work, and satisfy their personal needs in working. This course is directed to owners and managers who wish to retain existing personnel and their loyalty rather than withstand costly turnover and training. Focus is on self-improvement, and individual goals and strengths for increasing productivity. The course involves all participants and their professional environments, emphasizing communication skills and goal-setting techniques.

Barry Dawson, B.S. Senior Associate with King, Chapman and Broussard, focuses on expanding client's communication and interpersonal relation skills.

**Wednesday, November 4, 7-10 p.m. & Wednesday, November 11 & 18, 6:30-10 p.m.**

3 sessions, 1 CEU. UMC 158A. $75.

### MDB-6
**Consensus Building and Conflict Resolution**

This course will introduce students to the most effective conflict resolution and consensus building techniques. Case histories showing how specific strategies have been used in actual situations will be discussed and students will have an opportunity to practice conflict resolution techniques in classroom simulations. Course materials are included.

Guy and Heidi Burgess, Ph.D.s CU Boulder, Post-Doctoral work M.I.T. in fields related to conflict resolution. Both Guy and Heidi Burgess are Co-Directors of the Conflict Resolution Project at CU Boulder.

**Wednesday, October 14-November 4, 7-9:30 p.m.**

4 sessions, 1 CEU. Engineering Building 1-01. $75.

### MDB-7
**Coping Effectively With Individual Differences**

This course will provide participants with practical strategies for communicating more effectively, selecting individuals for synergistic work teams, resolving conflicts, and managing the human resource more effectively through a deeper understanding of individual differences. Managers, supervisors, and sales personnel will gain powerful insights into human personality that will allow them to relate more productively to a wide range of individual differences.

Charles A. Rice, M.B.A., Management, University of Denver; President of IMPOD a management consulting firm. Instructor at CU Denver.

**Saturday, October 3 & 10, 9 a.m.-4 p.m.**

2 sessions, 1.2 CEUs. UMC 422. $85.

### MDB-8
**Customer Relations**

Learn to be effective with difficult customers and manage your stress in the process. Satisfying a "problem" customer without compromising your company's, or yours, needs is a challenging task. This course helps to develop effective methods in handling these situations so that all parties will feel satisfied with the outcome. Bring your concerns about dealing with customers and your own perspective on being a customer.

Rob Moody, B.S. Univ. of Illinois, business consultant, served on management development staff for Mt. States Employer's Council.

**Wednesday, September 30-October 21, 7-9:30 p.m.**

4 sessions, 1 CEU. Duane Physics G116. $75.

### MDB-9
**Effective Public Speaking and Presentation Techniques**

Effective oral communications make it possible for us to achieve greater personal goals than we could otherwise imagine. This course is designed for anyone wishing to improve his or her verbal communications skills. It will help the participant develop the ability to confidently and effectively present ideas and opinions in any business, social, or interpersonal setting. The course format is lecture and lab. The goal is to give each participant at least one presentation opportunity each course period.

**Tuesday, September 22-October 20, 7-9 p.m.**

5 sessions, 1 CEU. Business 251. $75.

### MDB-10
**How to Hire and Promote the Right People**

The procedures and decisions in hiring and promotion have become increasingly demanding. This program emphasizes skills and techniques you can use to identify the best available applicants, conduct thorough, nondiscriminatory interviews, and hire the most capable candidate. Topics include what to look for when reviewing the application, how to establish the appropriate interviewing atmosphere, methods to ensure consistency, and asking the right questions. Documentation of interview data, including how and when to record key information is also covered. Course fee includes lunch and refreshments.

Randy Bauer, M.B.A.

**Friday, October 30, 9 a.m.-4 p.m.**

One all-day session, .6 CEUs. Clarion Hotel. $75.

### MDB-11
**How to Work Smarter**

Improve your productivity by learning practical techniques guaranteed to eliminate time wasting behaviors, improve concentration, relax in the face of tension and stress-producing situations, and replace frustration with confidence and enthusiasm. Learn how to prevent burnout and achieve balance in your life. This seminar will also focus on skills such as delegating effectively, problem solving, and developing better working relationships. The program is designed for people at all levels in an organization. Course fee includes lunch and refreshment breaks.

Randy Bauer, M.B.A.

**Friday, October 25, 9 a.m.-4 p.m.**

One all-day session, .6 CEUs. Clarion Hotel. $75.
MDB-12
Human Relations: Gaining Insight Through Communication

For managers and potential leaders, this course teaches motivational techniques for helping personnel fulfill potential, while you gain loyalty and facilitate "other person's awareness." Topics emphasized are: organizational work climate, information on personality types, communication skills, personal and career goal planning, and job satisfaction and involvement. Course builds a sound working knowledge of practical human relation skills designed for success. Barry Davson, B.S., Senior Associate with King, Chapman & Broussard, focuses on expanding client's communication and interpersonal relations skills. Wednesday, October 14, 7-10 p.m., and Wednesdays, Oct 21 & 28, 6:30-10 p.m. 3 sessions, 1 CEU. UMC 158B. $75.

MDB-13
Improving Customer Relations

The quality of customer service is the feature that most frequently distinguishes thriving businesses and organizations from those that are unsuccessful. Whether on the phone or face-to-face, it requires only seconds for a customer or client to gain a positive or negative impression of an entire organization. Are customers always right? No, but they are always the customer and their experience with you will be relayed to numerous potential customers by word of mouth. This program focuses on identifying and satisfying customer needs, and resolving problems, by asking the right questions, listening effectively, drawing out the quiet customer and establishing rapport. Particular attention is given to handling the angry or demanding customer. What should be the first response to an angry customer? How do you convey courtesy and respect in potentially explosive situations? What are the ways to turn an angry customer into a responsive one? Course fee includes lunch and refreshments.

Randy Bauer, M.B.A.
Friday, November 20, 9 a.m.-4 p.m.
One all-day session. 6 CEUs.
Clairon Hotel. $75.

MDB-14
Judgment and Decision Making

This course will be useful to anyone who must make difficult choices with inadequate information. Principles of good judgment and decision making are demonstrated through individual and group exercises involving problems to those enrolled in the course. Effective use of both intuitive and analytic thought processes is stressed. Thomas R. Stewart, Ph.D., has been an Associate Professor in the Graduate School of Public Affairs and a researcher at the Center for Research on Judgment and Policy, both at CU. Mondays, September 21-October 19, 7-9 p.m. 5 sessions, 1 CEU.
University Computing Center 123. $75.

MDB-15
Managing People

No skill is more in demand, or more difficult to master, than getting things done through other people. In highly pressured periods, such as the approaching holidays, the ability to work effectively in order to bring out the best in other people is a major factor in professional success. This program emphasizes approaches to motivating others to reach their potential, how to keep lines of communication open, and how to determine the right approach to leading others. You will assess your personal strengths and identify ways to build on them to maximize performance. The "no-lose" method of conflict management will be addressed as a key element in building respect and trust within a system that balances individual and organizational needs. Course fee includes lunch and refreshments.

Randy Bauer, M.B.A.
Tuesday, December 8, 9 a.m.-4 p.m.
One all-day session. 6 CEUs.
Clairon Hotel. $75.

MDB-16
Managing the Manipulative Co-Worker

A popular form of communication in the workplace is an indirect, usually aggressive style — better known as dirty tricks (deeds). This course will identify the source of these games. Such questions as "Why do people play these tricks? How can I stay in control? What can I do to change these behaviors?" will be answered. A step-by-step procedure will be offered for disarming dirty deeds and passive-hidden aggressive behaviors. Participants will have an opportunity to practice these skills in role plays.
Audrey Nelson-Schneider, Ph.D. Communication at CU Boulder, national training leader in organizational development and interpersonal communication. Tuesdays, September 29, October 6 & 13, 6:30-9:30 p.m. 3 sessions, .9 CEUs. UMC 158B. $68.

MDB-17
Motivating Groups

Even the best one-on-one communicators need to alter their approach when working with groups. Whether you assume leadership roles or want to be a more effective member, you need to know the basics of communication in groups. This program looks at all facets of group communication, but the emphasis is on groups that make decisions through face-to-face interactions. The group decision-making process will be examined, with special attention to leadership, communication patterns, creativity, and conflict management. You will learn how to analyze groups and move them toward greater productivity. Identification of dysfunctional behaviors and roles will be addressed, along with methods for handling barriers to group effectiveness. Course fee includes lunch and refreshments.
Audrey Nelson-Schneider, Ph.D.
Friday, November 13, 9 a.m.-4 p.m.
One all-day session, .6 CEUs.
Clairon Hotel. $75.
MDB-18
Positive Supervision: Correcting Behavior Without Punishment

This workshop is designed for any manager or supervisor who is interested in exploring alternatives to traditional disciplinary programs. Information will be provided about:

- Accessing behavior and its modification
- Counseling for results
- The contract for improvement
- Documentation of agreements
- Following up
- Broken contracts and discharge
- Motivational supervision
- Handling the most difficult employee

Doug Sullivan, M.B.A. CU Boulder, President of Career Marketing and Developing Co. Thursdays, October 15-November 5, 6:30-9 p.m.

4 sessions, 1 CEU. Business 251. $75.

MDB-19
Professional Image Projection for Women

Experiencing yourself as a successful person and feeling confident in your ability to set and achieve your goals is essential to projecting a professional image. You will learn: 1) to recognize and overcome internal barriers to success, 2) to establish and maintain personal power in your work setting, 3) to empower yourself and others at the same time, 4) to deal effectively with giving and receiving criticism so that work relationships are enhanced rather than strained, 5) what organizational power is, why you need it and how to get it, and 6) how gender stereotypes operate and what to do about them.

Participants will receive handouts, including a bibliography of suggested reading. The format of the class will include brief lectures, discussion and opportunities to practice the skills being taught.

Deborah L. Flick, Ph.D. is an adjunct professor in the Women's Studies program at CU Boulder.

Wednesdays, September 23-October 14, 6:30-9 p.m.

4 sessions, 1 CEU. Business 251. $75.

MDB-20
Project Management

Whether the project is building a house, developing a product, or providing a social service...this course will provide participants with both the concepts of sound project management and the specific tactics for effectively planning a project, leading the personnel on the project, tracking the progress of the project, and keeping the project on schedule. The human and logistical aspects of project management will be given balanced treatment.

Charles A. Rice, M.B.A., Management, University of Denver; President of IMPOD a management consulting firm. Instructor at CU Denver.

Mondays, October 26-November 9, 6:30-10 first sessions, 6:30-9:30 last session.

3 sessions, 1 CEU. Business 251. $75.

MDB-21
Skills for the Newly Appointed Supervisor

Organizations are uniquely challenged by internal and marketplace pressures that erode morale, increase errors and absenteeism, and lead to numerous restructuring activities that result in less loyalty and commitment from employees. The emphasis of this program is on identifying your supervisory style and strengths and the steps in creating an atmosphere conducive to achievement, commitment, and cooperation. Special attention will be given to winning trust, handling meetings, getting your point across to unsatisfactory performers, hiring and promoting the right people and anticipating others' behavior. You will learn techniques for perfecting your supervisory style, using your strengths effectively, heeding the warning signs when a strength can become a weakness, and asserting your influence as a supervisor to achieve acceptance of your ideas.

Clare Flick includes lunch and refreshments.

Randy Bauer, M.B.A.
Thursday, October 15, 9 a.m. - 4 p.m.

One full day session, 6 CEUs.

Clarion Hotel. $75.

MDB-22
Strategic Marketing for Professionals

This workshop is for attorneys, doctors, accountants and professionals of all types who want to improve their marketing and expand their practice. We'll start with creating a marketing plan, including ways to win with competition, create an image, identify and target your market, position and package your service, and get results — from media, direct mail, brochures, networking, public relations and more. You'll learn the basics of writing copy and how to design advertising that sells. Course workbook $7.

Johann Robbins, a marketing & business planning specialist. Partner Fellman, Robbins and Assoc.

Saturday, October 24, 9 a.m.-5 p.m.

1 session, 7 CEUs. UMC 230. $53.

MDB-23
Supervisor & Subordinate: Overcoming the Male/Female Barriers

With an increasing flow of women into the workplace, more men and women are becoming interested in communication between the sexes. This course will examine the communication and management style that exists between the sexes. Issues such as verbal, nonverbal differences will be identified. Conflict management between the sexes as well as improving relations. Recommendations towards a preferred style will be offered.

Audrey Nelson-Schneider, Ph.D. Communications at CU Boulder, national training leader in organizational development and interpersonal communication.

Tuesdays, October 27, November 3 & 10, 6:30-9:30 p.m.

3 sessions, 9 CEUs. UMC 1588. $68.

MDB-24
Time Management

Time management theories and solutions abound — if we only have time to try them! This course will show you how to diagnose your time problems and how to choose the right solutions for your time management needs.

Rob Moody, B.S. Univ. of Illinois, Business Consultant, served on Management Development Staff for Mt. States Employer's Council.

Wednesdays, October 28-November 18, 7-9 p.m.

4 sessions, 8 CEUs.

Duane Physics G116. $60.
Courses
Management Development

MDB-25
Understanding and Using Financial Statements
Do you pay a bookkeeper or accounting service and not use what you get? Learn to read and interpret accounting statements and reports, and how to use the information they contain to manage your business for higher profits and lower costs. We'll cover basic financial ratios and indicators and explain accounting concepts in plain English. Course workbook $7.
Henry Aiy'm Fellman, J.D., Partner, Fellman, Robbins and Assoc. (small business consulting and accounting firm. Saturday, October 17, 9 a.m.-5 p.m.
1 session. 8 CEUs. UMC 158B. $60.

MDB-26
 Updating Your Writing Skills: A Must For All Managers
Maintain and strengthen your credibility on paper. Review proven writing strategies. Apply these strategies to your job-related writing. Bring work-in-progress if you wish. Course emphasizes your sending clear, coherent messages—memos, lab reports, minutes, letters or reports that go outside your organization. Composition of the group will determine the formats covered. Betty Brown, writer and editor, Partner of B.C.A. Resources, designs specialized seminars for businesses and professional organizations.
Mondays, September 14-October 5, 6:30-9 p.m.
4 sessions, 1 CEU. Business 207. $75.

MDB-27
Working Assertively: Effective Job Skills
Immediately useful and practical everyday skills, strategies, and techniques to enable you to stand up for your rights without violating the rights of others, to get your ideas heard—up and down the management ladder—to handle difficult situations, unfair demands, discipline, criticism, angry confrontation, etc.; to turn self-defeating behavior into positive and caring assertion.
Workshop format will assist you in developing your own personally effective style of assertion. In order to achieve this goal, you should be ready to incorporate new behaviors into your life and be comfortable with planned changes.
Toni Scott, M.A.
Mondays, September 14-October 12, 7-9:30 p.m.
5 sessions, 1.2 CEUs. Business 251. $90.

MDB-28
Working Successfully With Multiple Bosses
Based on the book Working Solutions From Working Secretaries, this seminar features field-tested ideas collected from secretaries around the country. It is led by an instructor with ten years of secretarial experience. This program doesn't stop at solutions for prioritizing time and staying on top of the job. It also presents methods for managing many different personalities, assessing office roles, and avoiding office politics. You will leave with the tools to gain respect and recognition, increase your job satisfaction, and renew your effectiveness. Topics also include team-building and self-presentation techniques. You will receive a summary sheet and an action plan based on: 1) tips from experienced secretaries; 2) educational theory, with applications steps; and 3) real-life illustrations and self-assessment tools.
Course fee includes materials, lunch and refreshment breaks. Textbook is optional.
Shelly Ann Espinosa, M.S.W.
Wednesday, November 4, 9-4 p.m.
One all-day session, 0.6 CEUs.
Clarion Hotel. $75. Optional text $11.95.

Longmont Management Development Certificate Program
The University of Colorado, Boulder, Division of Continuing Education is offering a series of courses in Longmont during the Fall Semester of 1987. These courses qualify for the Management Development Certificate Program. The University is proud to offer these high-quality courses in Longmont and will continue this series as a complement to the Longmont business community.
All questions concerning these courses and any requests for future courses in Longmont should be directed to the Division of Continuing Education; call 492-5148 or 1-800-332-5839 toll-free.
General program description is the same as for the Boulder program. All classes are conducted at Longmont High School, 1040 Sunset; specific room number is given at registration.

### MDL-1 Accounting for the Non-Accounting Manager

Of vital interest to owners, managers, executives, and professionals interested in gaining a better understanding of financial statements, their analysis and the accounting process as they apply in business. This four-session seminar presents an overview of accounting principles, how individual transactions are reported, and how results are summarized in a completed financial statement. Provides a greater comprehension of the basic financial statements and accounting reports to give managers a firm grasp of financial information as it is used in decision making and evaluation of a company's operation.

Jim Young, C.P.A.
Mondays, October 26-November 16, 7-9:30 p.m.
4 sessions, 1 CEU.
Longmont High School. $75.

### MDL-2 The Art of Negotiating

A successful negotiator must learn the basic techniques which come into play in every negotiation. It is important to develop the ability to recognize strategy, tactics, and reverse strategy and, in the process, still satisfy the opposition's needs. This course is designed to equip the participant with the psychological skills and strategies that will increase the probability of successful bargaining results in business and personal negotiations. The class format will be approximately half lecture and half role-playing in various negotiating scenarios.

Thursdays, September 17-October 15, 6:30-8:30 p.m.
5 sessions, 1 CEU.
Longmont High School. $75.

### MDL-3 Building Productive Work Teams

This intensive workshop is aimed at making functional work teams more effective, productive, and creative. Specific concepts, procedures, and strategies will be presented in real-time with real issues, problems and concerns that the participants share in a workshop/seminar setting. Proven principles and concepts from business management, the behavior sciences, and disciplined problem solving will form the foundation for this program. The dominant thrust of this team building workshop is to increase the flow of useful information throughout the organization to achieve business goals.

Chuck Rice, M.B.A., Management, University of Denver; President of IMPOD—a management consulting firm. Instructor at CU Denver.
Mondays, September 28-October 12, 6:30-10 p.m. (6:30-9:30 last session)
3 sessions, 1 CEU.
Longmont High School. $75.

### MDL-4 Dealing With Risk and Uncertainty

This introductory course explains the basic strategies for making decisions involving risk and uncertainty. Key points will emerge from a class discussion of case histories of individual, government and business decisions.

Guy Burgess, Ph.D. CU Boulder; Post doctoral work M.I.T. in fields related to risk and uncertainty.
Wednesdays, November 11, 18, December 9, 9-7:30 p.m.
4 sessions, 1 CEU.
Longmont High School. $75.

### MDL-5 Effective Public Speaking and Presentation Techniques

Effective oral communications make it possible for us to achieve greater personal goals than we could otherwise imagine. This course is designed for anyone wishing to improve his or her verbal communications skills. It will help the participant develop the ability to confidently and effectively present ideas and opinions in any business, social, or interpersonal setting. The course format is lecture and lab. The goal is to give each participant at least one presentation opportunity each course period.

Tuesdays, October 27-November 24, 7-9 p.m.
5 sessions, 1 CEU.
Longmont High School. $75.

### MDL-6 Marketing Overview

Includes analyzing the product or service offered, pinpointing the target market, developing a customer profile, analyzing the competition, advertising and professional sales planning, distribution, and marketing management. Theoretical concepts will be briefly reviewed, with emphasis on applying them to the manager's unique business or institution.

Doug Sullivan, M.B.A. CU Boulder, President Career Marketing and Developing Company.
Thursdays, November 12, 19, December 3, 10, 6:30-9 p.m.
4 sessions, 1 CEU.
Longmont High School. $75.

### MDL-7 Technical Writing Seminar

With information becoming the major product of our economy, there is a continuous need to upgrade your skills for presenting technical data in concise, easily understood language. Applications include reports, proposals, manuals, trade journals, articles, audiovisual and instructional materials, catalogs, and much more. Step-by-step learning modules (supplied) begin with the basics, and proceed into advanced techniques. Topics include organization, research, logic, interviewing, writing/editing, as well as manuscript production and electronic-assisted writing.

Mike Gannon, B.A., Author.
Thursdays, September 7-October 15, 7-9:30 p.m.
5 sessions, 1 CEU.
Longmont High School. $75.
Certificate in Computer Applications

Computer Skills for Today and Tomorrow

Being familiar with computer systems can enhance anyone’s professional development. While personal computers, automated offices, and electronic information systems are facts of modern life, the nature of our work and leisure activities is changing dramatically. If you understand computer applications you have the skills for today’s marketplace and the fundamentals for tomorrow’s.

Our Computer Applications instruction seeks not to create programmers (though the Certificate requires useful introductory work in programming) but to develop up-to-date computer users with practical skills. Some people elect to take only a course or two to enhance present skills. If you do go for the Certificate, there are required courses in computer literacy (optional if you’re experienced), data processing, information technology, systems, and software, plus the above-mentioned introduction to programming languages, such as BASIC or C. Practical knowledge also comes with the many electives. Get to know word processing, data management, or financial applications. Say hello to your PC. Explore the vast potential of personal telecommunication services or local area networks (LANs). Or boldly plunge into the creative realm of computerized graphics and dynamic computer-aided design (CAD).

It’s a big and advancing world out there in the information age. We’re here to help you slip into the mainstream or forge ahead to the leading edge. This is your chance to learn in a supportive noncommercial environment. And, with access to our upgraded computers outside of class, you can take the time you need to get fully prepared for present realities and future trends.

Continuing Education Units (CEUs) are awarded for successful completion of any course, giving you a permanent record of your participation.

Performance Certificates are awarded for completion of any given course.

Achievement Certificates are awarded for successfully completing the Certificate Program requirements.

The Certificate requirements are the following three:

1. Completion of four required courses:
   - Computer Literacy*
   - Concepts of Data Processing and Information Technology
   - Introduction to Computer Applications Systems
   - Software Operations and Maintenance

*Computer Literacy must be completed first or taken concurrently with another course. Because of its beginning nature, it may be omitted if a participant has a substantial computer background. A written request to omit the course should be submitted to the Division of Continuing Education if you plan to achieve a Certificate.

2. Completion of at least two elective courses, featuring different applications. Elective courses are offered regularly and encompass a wide range of computer-related topics. Any course which is not from the above list, and is not a programming language, qualifies as an elective.

3. Completion of at least two different programming courses. Plans are to offer courses in BASIC, PASCAL, C, and other languages over the next year. Languages are added as industry demands dictate.

The course of study is structured so that participants may be able to complete the Certificate Program in about four semesters, but there is no requirement that it be completed in any given length of time. In all cases, successful course completion is determined by the instructor(s). There is now specially expanded access to out-of-class computer use, on a first-come basis, with software check-out or hard disk access. Details are given at class. Course tuitions are listed at the end of each course.

Registration for all courses is limited and on a first-come basis. Advance registration is required at least five days before the starting date for any course, but your earliest enrollment is recommended, as enrollment is limited by computer access.

Refunds for all certificate programs are given only before the start of a course, none later.

Please note that no classes are conducted November 25-28 (Thanksgiving break).

Course locations are listed with the course description where possible. If “Norlin 5419” is listed with your course, you will receive details on class location and out-of-class computer use. If “University Computing Center Graphics Lab” is listed as your course location, this is at 3645 Marine Street, South at Arapahoe and Marine or East at 30th and Marine.

Private, customized courses are also available for your organization. Flexible scheduling and targeted course content might make this approach a more effective method of training. Find out how your organization can benefit by calling (303) 492-5148, or outside Metro Denver, 1-800-332-5839.

If the number 2 appears below the skill level designation of a course, there will be a maximum of 2 students per computer workstation. All other courses (unless lecture) feature one student per computer.

Skill Level Guide

A Guide to Computer Applications

Recommended Courses' Skill Levels

All courses are marked with a skill level designation. It is recommended that you be at least at that skill level to take the course. This will optimize your learning. If you have questions about a course level, please call the Division of Continuing Education at 492-5148.

Beginner
No previous computer experience necessary - course assumes little or no computer knowledge.

Novice
Elementary computer knowledge; taken Computer Literacy or some introductory courses.

Intermediate
Computer Literacy background plus recent involvement in programming/software applications.

Specialized
Intermediate skills but seeking specific applications procedures as in systems, documentation, or management.

Advanced
Current MIS involvement, comfortable with most popular software applications, basic programming skills.

2 below the skill level designation indicates 2 students maximum share 1 computer workstation. Other courses (except lecture) dedicate one computer per student.

Getting Started

CCA-100 Beginner Computer Literacy

This course focuses on exactly what computers are and how they work, as well as their various uses and limitations. Sessions include a description of software available for today's computers, how computers influence our changing society, and active demonstrations of applied computer technology. Time will be made available for hands-on experience, learning some simple programming skills using different computer systems, and a wide variety of popular computer applications.

Bob Carlisle, M.A.
Monday, September 14, 6:30-8:30 p.m., plus lab sessions. Please indicate lab section preference (A or B) at registration:
Lab Section A: Mondays, September 21-November 2, 6-8 p.m.
Lab Section B: Mondays, September 21-November 2, 8-10 p.m.
8 sessions, 1.6 CEUs. University Computing Center 123. Note - locations change after the first class session; please contact Continuing Education if you are unable to attend the first class. $90.

CCA-120 Beginner Introduction to the IBM Personal Computer

This intensive course covers important computer vocabulary, architecture, and configurations of IBM microcomputer systems. Special emphasis is placed on the IBM PC, including hands-on familiarization, user commands, and DOS functions. Introduction to uses of BASIC as a programming language and simple software programs are included. This course is conducted on IBM microcomputers and enrollment is strictly limited. This course is intended for those who have recently purchased, or will soon use on the job, IBM-PC hardware and are new to computing. Especially recommended for those needing a review of the IBM DOS operating system, bring to class one double-sided/double-density 5¼ inch diskette, available at all computer stores.

Valerie Parker, M.Ed.
Saturday, September 19, 9 a.m.-4 p.m.
1 all-day session, .6 CEUs.
University Computing Center 123. $35.

Programming

CCA-200 Novice BASIC Programming

BASIC (Beginners All-purpose Symbolic Instruction Code) is perhaps the easiest language to learn for programming a computer. Most computers are capable of working with BASIC. Students will start at the very beginning and work up to using searching and sorting methods, developing useful data structures, and applying general programming skills. Hands-on experience will be emphasized. The text, BASIC: Fundamentals and Styles, by Quasney and Maniotes, is available at the University Book Center, UMC 10.
Scott Dixon, M.A.
Wednesdays, September 9-November 11, 6:30-9 p.m.
10 sessions, 2.5 CEUs.
Engineering Center CR 2-3. $135.

**CCA-220 Intermediate Introduction to C Programming**

This course will teach programmers the fundamentals of C programming. We will cover data types, control structures, functions and parameter passing, program structure, separate compilation, the preprocessor, arrays, strings, pointers and structures. Hands-on exercises will be supplemented by lectures, discussions, and demonstrations. Some programming experience is required as C is not a beginner's language. Flueney in almost any language is adequate, although ALGOL, Pascal, or a similar language is preferable. This seminar is designed for those who wish to cover large amounts of information in a condensed, fast-paced format. Especially helpful for programmers, software engineers, or anyone developing applications with portability in mind. Recommended text is *The C Programming Language,* by Kernigham and Ritchie, available at the University Book Center, UMC 10.

Carol J. Meier, M.S.
Section I: Mondays, September 14-October 26, 6:30-9:30 p.m.
Section II: Tuesdays, September 15-October 27, 6:30-9:30 p.m.
Both sections: 7 sessions, 2.1 CEUs.
Engineering Center CR 0-01. $195.

**CCA-240 Intermediate Programming in Pascal**

Pascal is a commonly used and versatile programming language, especially in business applications. This course presents the principal features of Pascal, including functions and procedures, user-defined data types, and input/output techniques, emphasizing structured techniques. Topics include conventional Pascal compilers, but in-class computer time utilizes Turbo Pascal. Bring to class a double-sided/double-density 5¼ inch diskette, available at all computer stores.

Steven A. Johnson, B.S.
Wednesdays, September 30-December 9, 7-9:30 p.m.
10 sessions, 2.5 CEUs. Ketchum 119. $140.

**CCA-225 Specialized Intermediate C Programming**

This course is designed to follow Introduction to C Programming. We will continue to explore pointers and structures. We will discover the standard C library (I/O, string manipulations, and dynamic memory management), learn how to handle command line arguments and the environment, harness the power of the preprocessor, and look at advanced data structures like bit fields, enumerations and unions. Style, readability, performance and portability will be emphasized throughout the course. Some experience with C is required as we will only briefly review its basic features. Anyone having difficulty understanding specific topics in C (pointers, structures, command line arguments...) will find it an effective way to master these areas. Recommended text is *The C Programming Language,* by Kernigham and Ritchie, available at the University Book Center, UMC 10.

Carol J. Meier, M.S.
Tuesdays, November 3-December 15, 6:30-9:30 p.m.
7 sessions, 2.1 CEUs.
Engineering Center CR 0-01. $195.

**CCA-320 Intermediate Introduction to Computer Application Systems**

A comprehensive review of current computer information systems, including hardware, software, applications for accounting, inventory control, payroll systems, spreadsheet analysis, word processing functions and an introduction to database management systems. An introduction to data communications and local area networking and how the above applications are integrated into a total management information system.

Robert L. Allen, B.S.
Tuesdays, September 15-November 3, 7-9:30 p.m.
8 sessions, 2.0 CEUs.
University Computing Center 123. $135.

**CCA-330 Intermediate Software Operations and Maintenance**

This class will discuss the aspects of systems that need to be developed in order to effectively support efficient computer operations. Topics include: systems analysis, configuration options, software selection, data conversion, support contracts, software design, training, installation, file maintenance, documentation, error identification, and logging systems. Course includes lab time. Students will come away with effective tools to monitor and organize computer systems.

Pat Felz, M.A.
Thursdays, October 15-December 10, 6:30-9:45 p.m.
8 sessions, 2.0 CEUs.
University Computing Center 123. $135.

**CCA-330 Intermediate Using MS-DOS: Intermediate**

MS-DOS, or PC-DOS, is the most widely used personal computer operating system for business applications. This course reviews the most often used DOs commands and utilities, including the advanced features of DOS 3.X. Topics include: Use of EDLIN line editor, writing system configuration and batch files, DOS enhancements, and disk/file comparisons and checking. Time reserved for special questions and problems.

Peggy Purvis
Section I: Saturday, September 12, 9 a.m.-5 p.m.
Section II: Saturday, September 19, 9 a.m.-5 p.m.
Section III: Saturday, October 10, 9 a.m.-5 p.m.
Section IV: Saturday, October 24, 9 a.m.-5 p.m.
All sections: 1 all-day session. 7 CEUs.
University Computing Center Room 137. $70.

**CCA-360 Intermediate Managing Your Hard Disk**

This course is intended to give the personal computer user some very practical tools for managing the many software packages and related files stored on hard disks. Subjects include: currently available disk-management software packages, writing your own menus for getting around your disk, eliminating unnecessary files, disk backup, off-line file storage, and useful tools for saving disk space.

Valerie Parker, M.Ed.
Section I: Saturday, September 26, 9 a.m.-5 p.m.
Section II: Saturday, October 3, 9 a.m.-5 p.m.
Section III: Saturday, October 10, 9 a.m.-5 p.m.
Section IV: Saturday, October 17, 9 a.m.-5 p.m.
All sections: 1 all-day session. 7 CEUs.
University Computing Center Room 137. $70.
### Computer Applications

#### Systems - con't.

**CCA-370 Intermediate**

**Introduction to UNIX**

This course is designed to give students a comfortable working knowledge of the UNIX operating system. Topics include the file system structure, editing, basic and common commands, conventions, and shell features. No one should be without! Both Berkeley and AT&T UNIX will be presented. The format combines lecture, demonstration, hands-on exercises, discussion and fun! Intended for people with 0 to 6 months UNIX experience; whether just curious about UNIX, deciding whether to use it, or already beginning to use it.

Carol J. Meier, M.S.

Wednesdays, September 9-October 21, 6:30-9:30 p.m.

7 sessions, 2.1 CEUs. Engineering Center CR 0-01. $195.

**CCA-375 Specialized**

**Intermediate UNIX**

This course will pick up where Introduction to UNIX leaves off. We will continue with more advanced shell features and many more amazing commands. Several sessions will be spent on shell programming with plenty of examples. Both Borne and C shells will be discussed. About half of the course will be hands-on. If you've ever needed to write a shell script but weren't sure how to start, or didn't know if an appropriate command already existed, you will find this a valuable course.

Carol J. Meier, M.S.

Wednesdays, October 28-December 9, 6:30-9:30 p.m.

7 sessions, 2.1 CEUs. Engineering Center CR 0-01. $195.

**CCA-380 Intermediate**

**Artificial Intelligence and Expert Systems in Business**

An introduction to the field of applied artificial intelligence-expert systems and its importance in the business environment. Topics include human intelligence and business problem solving, knowledge representation strategies, expert system design, the knowledge engineering process, robotics, voice recognition systems, and the future of applied artificial intelligence/expert systems in business and industry. Become familiar with the field of applied artificial intelligence/expert systems and gain an understanding of how this new technology can be applied to problems in the business environment.

Judith A. Barlow, M.S.

Wednesdays, September 9-October 21, 6:30-9:30 p.m.

7 sessions, 2.1 CEUs. Business 101. $195.

#### Please Note

All Certificate in Computer Applications courses have limited enrollment to assure your best access to computers and instruction. Your earliest enrollment assures your place in class.

**CCA-385 Intermediate**

**Designing and Implementing Expert Systems**

An applications course in artificial intelligence and expert systems. We will go through the process of designing, developing, implementing and evaluating expert systems. Topics include defining and refining problem specifications, knowledge base design, knowledge engineering, rapid prototyping, marketing expert systems, legal issues, and integrating expert systems with traditional software in the business data processing environment. Gain practical experience in applying artificial intelligence/expert systems technologies to the solution of realistic problems in the business environment and see a prototype evaluation and marketing. Prerequisite for this course is enrollment in the previously listed CCA-380 Artificial Intelligence and Expert Systems in Business (starts September 9), or significant AI/ES experience.

Judith A. Barlow, M.S.

Wednesdays, October 28-December 16 (no class session November 25), 6:30-9:30 p.m.

7 sessions, 2.1 CEUs. Business 101. $195.

**CCA-450 Intermediate**

**Introduction to Local Area Networks (LANs)**

This class is intended to give a thorough understanding of the value and practical possibilities of Local Area Networks. An in-depth survey of the characteristics of the major LANs available today and LAN methods and standards will be included. The class is targeted at those who are considering installing a LAN or those who simply need to develop a familiarity with this rapidly growing method of interconnecting Personal Computers. Course includes lab sessions.

Larry G. Lankford, M.S.

Thursdays, September 10-October 8, 6:30-9 p.m.

5 sessions, 1.3 CEUs. University Computing Center 123. $125.

**CCA-470 Advanced**

**Computer Algorithms and Data Structures**

This course is designed to compare and contrast various sorting and searching methods. Included will be the necessary data structure to support the algorithms. Lab time will be spent on a VAX run VMS and solutions to homework will be accepted in Pascal or C. The required text is *Algorithms and Data Structures = Programs* by Niklaus Wirth, available at the University Book Center, UMC 10. This course is not designed to teach programming, but instead the practical application of computer enhancement skills. Experience in Pascal or C required.

Steven A. Johnson, B.S.

Thursdays, September 17-November 5, 7-9:30 p.m.

8 sessions, 2.0 CEUs. Engineering Center CR 2-24. $145.

#### Software Applications

**CCA-530 Intermediate**

**Database Management: Applying dBase III/II+**

With today's wealth of available information, there is an overwhelming need to organize and retrieve data for decision making. dBase III and III+ are powerful and productive data management systems specifically intended for this use. Participants in this class learn the concept of a database, the many different ways of organizing, accessing, and reporting information, and the way to develop applications for specific needs. Topics include special applications of dBase II and the dBase III+ upgrade. Bring to class two double-sided/ double-density 5 1/4 inch diskettes, available at all computer supply stores.

Clyde Getty, B.S.

Section I: Tuesdays, September 8-October 6, 6:30-9:30 p.m.

Section II: Tuesdays, October 13-November 10, 6:30-9:30 p.m.

Both sections: 5 sessions, 1.5 CEUs. Norlin Library 5419. $140.
CCA-535 Advanced dBase III/III+ Applications

This course is designed around the more advanced features of the powerful dBase III and dBase III+ software. Participants must have some programming background, as well as familiarity with programming in dBase, or have taken Database Management: Applying dBase III/III+ (CCA-530). Topics include multiple files, using functions, total system design, and, time permitting, automatic command file generation. Bring to class a double-sided/double-density 5¼ inch diskette.

Clyde Getty, B.S.

Tuesdays, November 17 and 24, 6:30-9:45 p.m.

2 sessions, .7 CEUs. Norlin Library S419. $90.

CCA-540 Specialized dBase III/III+ for Programming

This course gives the opportunity to use the powerful dBase III and dBase III+ software for special custom applications. Emphasis is on dBase III+, but dBase III users will be accommodated. Course is recommended for the experienced dBase user. Some programming experience is recommended, as well as familiarity with dBase commands. Topics include upgrade for dBase III to dBase III+. Bring to class a double-sided/double-density 5¼ inch diskette.

Clyde Getty, B.S.

Tuesdays, December 1 and 8, 6:30-9:45 p.m.

2 sessions, .7 CEUs. Norlin Library S419. $90.

CCA-550 Novice Beginning Using Lotus 1-2-3

This introductory course covers spreadsheet, database, graphics, and printing applications. It is designed to maximize the use of your time by knowing how to use Lotus well. Practical guidelines are established concerning moving within the spreadsheet, principles of designing and copying spreadsheets, graphics generation and simple database construction. Concepts introduced and used in the class are: ranges, painting, pointing, and relative and absolute referencing. The first day covers spreadsheet generation while giving the student a basic knowledge of the 1-2-3 commands and an introduction to various modeling techniques and practices. The second day covers a review of spreadsheet skills and techniques, databases, graphics, and printing. During the course, students are asked to generate and complete exercises in all functions. As a result of the course, the student will have a thorough understanding of the power of 1-2-3 and be able to build and print spreadsheets. Manuals are provided. Bring to class a double-sided/double-density 5¼ inch diskette. Class size is strictly limited.

Nancy Mangun, B.S., M.B.A.

Section I: Saturdays, August 22 and 29, 10:15 a.m.-5 p.m. 2 sessions.

Section II: Saturdays, September 12 and 19, 10:15 a.m.-5:00 p.m. 2 sessions.

Section III: Thursdays, September 17-October 8, 6:30-9:30 p.m. 4 sessions.

Section IV: Thursdays, October 15-November 5, 6:30-9:30 p.m. 4 sessions.

All sections: 1.2 CEUs. Norlin Library S419. $120.

CCA-555 Intermediate Lotus 1-2-3

This course is intended for those who have a working knowledge of spreadsheet (and/or completed Beginning Using Lotus 1-2-3, CCA-550) and want to master more advanced applications and techniques. This one-day, hands-on course focuses on file and database manipulation, multiple file design and use, special version 2.0 macro techniques, as well as other file and data handling concepts. Other special updates include: ranges; data parse; and advanced file, worksheet and database commands. Each student generates and completes exercises of all functions. Manuals are provided. Bring to class a DOS formatted 5¼ inch double-sided/double-density diskette. Class size is strictly limited.

Nancy Mangun, B.S., M.B.A.

Section I: Saturday, October 31, 10:15 a.m.-5 p.m.

Section II: Saturday, November 7, 10:15 a.m.-5 p.m.

Both sections: 1 all-day session, .7 CEUs. Norlin Library S419. $70.

CCA-565 Intermediate Lotus 1-2-3

This course will teach the fundamentals of word processing through learning the very powerful word processing package, Microsoft Word. We will cover the basics of word processing such as editing and filing documents, cursor movement, deleting, simple formatting, using the help system, special effects, and printing. Everyone will have the opportunity to complete exercises in all functions. Manuals are provided. Bring to class a double-sided/double-density 5¼ inch diskette.

Yvonne Kristy, M.S.W.

Mondays, August 31-September 21 (no class session September 7), 6:30-9:30 p.m. 3 sessions, .9 CEUs. Norlin Library S419. $90.

CCA-570 Intermediate Advanced Lotus 1-2-3

Three major data functions important to the experienced Lotus 1-2-3 user in practical applications will be covered in this one-day advanced seminar:

• data matrices
• data regression
• data tables

Various "at" (@) functions will also be covered in detail, as well as looping between macros. A review section will focus on principles and practices of combining files, data and file import/export, and combine options.

Nancy Mangun, M.B.A.

Saturday, November 14, 10:15 a.m.-5 p.m.

1 all-day session, .6 CEUs. Norlin Library S419. $70.
Software Applications – con’t.

**CCA-610 Novice Beginning Word Processing: WordStar**

Word processing is a powerful tool for students, faculty, authors — anyone who writes. It is a required skill for secretaries. WordStar is the most widely used word processing program; understanding WordStar will provide students with the introduction they need to interpret other word processing programs. This course will provide the beginner with enough hands-on experience with WordStar to prepare standard letters, term papers, and manuscripts. No previous word processing experience required, but students should understand DOS including logged drives, and how to load and copy files. Please bring to class two double-sided/double-density 5¼ inch diskettes, available at all computer stores. Pre-class help sessions available after the first class session to reinforce course and DOS concepts.

Bruce Pollock, Ph.D.

Tuesdays, September 8-October 6, 6:30-9:30 p.m. 5 sessions, 1.5 CEUs.

Engineering Center CR 2-3. $120.

**CCA-620 Intermediate Intermediate WordStar**

This class is designed to provide continuing experience for those who have taken the beginning class, and also for people who have learned on their own but who need to use WordStar more effectively. A series of exercises on more complex functions such as text-forming, tables, columns for newsletters, headers and footers, finding information in a file, etc., permit the student to proceed at his or her own pace. The use of WordStar on a hard disk will be discussed, as will the use of enhancements such as SideKick and macro programs. Students should already know how to copy files and disks using DOS, and open and edit simple WordStar files. Public domain programs useful with WordStar will be provided, so bring several extra disks.

Bruce Pollock, Ph.D.

Tuesdays, October 13-November 3, 6:30-9:30 p.m.

4 sessions, 1.2 CEUs.

Engineering Center CR 2-3 $99.

**CCA-650 Intermediate Advanced WordStar**

WordStar integrates with other programs to prepare form letters (MailMerge), check spelling, and compile indexes of books and other documents. These are core procedures in many offices and contain pitfalls which need to be anticipated and mastered because of the size of the operations involved. Also, WordStar can be customized to increase its effectiveness. This course will be taught in workshop format to provide maximum flexibility to deal with student questions. Bring several disks to class.

Bruce Pollock, Ph.D.

Tuesdays, November 10-24, 6:30-9:30 p.m.

3 sessions, .7 CEUs.

Engineering Center CR 2-3. $70.

**CCA-660 Novice Beginning WordPerfect Word Processing**

This introductory WordPerfect class is designed as an introduction to word processing as well as an opportunity to learn the fundamentals of WordPerfect. No previous word processing experience is required, but some basic computer knowledge and typing skills will help. WordPerfect is emerging as a word processing software leader because of its ease of use, speed, and its impressive advanced features as a powerful tool for the office or author. This course will provide the beginner with the basic skills necessary to create, edit, and print documents with hands-on experience during class. Bring one double-sided/double-density 5¼ inch diskette, available at all computer stores, to class.

Peggy Purvis

Mondays, November 9-23, 6:30-9:30 p.m. 3 sessions, .9 CEUs. Norlin Library S419. $90.

**CCA-670 Intermediate Intermediate WordPerfect**

This class is intended for those who have a beginning knowledge of WordPerfect or have completed Beginning WordPerfect and want to investigate the more complicated applications. During this session we will cover all of the formatting menus, headers and footers, search and replace, how to use the thesaurus, spellcheck, typewriting in columns, understanding the printer control screen, word processing on forms and generating merge letters from mailing lists. Bring a double-sided/double-density 5¼ inch diskette, available at all computer stores, with you to this session.

Peggy Purvis

Mondays, November 30 and December 7, 6:30-9:30 p.m.

2 sessions, .6 CEUs. Norlin Library S419. $70.

**CCA-690 Intermediate Advanced WordPerfect**

WordPerfect is a complete office tool capable of far more than most word processing software packages. This course will provide the student with the skills to automate repetitious tasks with macros; interchange information from other software packages; accomplish minimal database tasks such as sort; create footnotes, tables of contents and indexes; write scientific equations; draw lines and charts and manage files in subdirectories on a fixed disk. Bring to class several double-sided/double-density 5¼ inch diskettes, available at all computer stores.

Peggy Purvis

Saturday, December 12, 10:15 a.m.-5 p.m.

1 all-day session, .7 CEUs.

Norlin Library S419. $70.

Once possible only on large and expensive minicomputers and mainframe systems, recent advances in hardware and software have made designing and drawing on a microcomputer a reality. Micro-based computer graphics are rapidly becoming viable and productive tools for use in many disciplines. The listing that follows is a sampling of the current, most prevalent applications:

- Architectural Design
- Fine Arts
- Drafting
- Commercial Design
- Engineering Drawings for Interior Design
- Electrical, Mechanical, Civil, Robotics and Chemical Applications
- Financial and Business Charts
- Plots
- Publications Development

The number of possible applications is infinite and it is estimated that only a small percentage have yet been discovered.

Gaining proficiency on a microcomputer-based graphics system will provide you with the skills to increase productivity and produce superior results without design errors. Additionally, as a proficient microcomputer-based graphics system user, you can learn to use a larger conventional system in far less time.

About the Program

These computer graphics courses have been developed to provide participants with extensive hands-on experience. All graphics courses fulfill elective requirements for the Certificate in Computer Applications. The classroom is a laboratory equipped with IBM PC/AT microcomputers, with plotters and printers provided, so course time can be utilized to the maximum extent. The participant/instructor ratio is small to facilitate an effective learning experience. Participants also have access to the computer lab and software outside of class time so that new skills can be practiced.

Bring to the first class a 5½ inch, double-sided double-density diskette. For CAD courses, you will need to buy a plotter pen (for HP 7470 plotter) and 8½” x 11” plotter paper for the second course session. Cost is about $4. Details on these added supplies will be given at the first class session.

**Computer Aided Design**

**CAD-110** *Novice*

**Beginning Computer Aided Design**

Once associated with extensive programming knowledge and large, expensive computer systems, Computer Aided Design (CAD) is now an affordable tool for anyone interested in drafting and design. This intensive, two-session course covers the basics of systems start-up and a review of potential microcomputer-based applications. Topics include:

- Overview of CAD Applications in Engineering, Design, Drafting, and Architecture
- Overview of AutoCAD Software
- Highlights of Upcoming CAD Level I and II courses
- The Impact and Future of CAD
- Hardware and Peripherals
- Managing CAD system issues

A technical background is not required, but some familiarity with micro-computers is helpful. This course is highly recommended for those who have no CAD background, but maintain a desire to learn more about this rapidly expanding field.

**Who Should Attend:** Especially helpful for those who wish to enroll in, or learn more about, upcoming courses in computer graphics or Computer Aided Design. Also for those who interface with CAD personnel, and need basic information, and have no CAD background.

**Section I:** Becky Day, M.A.
Tuesday, September 1 and 8, 6:30-9:30 p.m.

**Section II:** David E. Clough, Ph.D.
Thursday, September 3 and 10, 6:30-9:30 p.m.

Both sections: 2 sessions, 6 CEUs.

University Computing Center Graphics Lab, Room 137. $60.

**CAD-130** *Novice*

**Computer Aided Design: Level I**

Using AutoCAD software and the IBM Personal Computer AT, this intensive beginning course will cover the capabilities of microcomputer-based Computer Aided Design (CAD) in general and introduces AutoCAD in particular. Drawing set-up, create and edit points, lines, circles, arcs, solids, traces and text, work with blocks, hatching, colors and layers will help students create, edit, and plot their individual drawings. Specific topics include:

- **Loading AutoCAD**
  - Disk management
  - File naming conventions
  - Main menu options

- **Drawing Editors**
  - X, Y, Z coordinate system, continuously updated
  - Tool menus, flip screens, and help functions

- **New Drawing Set-Up**
  - Special commands of LIMITS, GRID, AXIS, and SCALING

- **Text Specifications and Editing Commands**
  - Fonts and text style specifications

- **MIRROR Commands**
  - Dynamic dragging

- **FILLETs and curve contours**

- **Display Commands**
  - ZOOM, PAN, FILL, REGENAUTO, SNAP, BLOCK, ARRAY Commands
  - Producing Hardcopy
  - Scale the annotation, not the drawing
  - Preparing the plotter
  - Pen number and speed assignments
  - Changing specifications

- **Layering**
  - Creating new, and changing specified, layers
  - Specifying layer colors
  - Specifying line types and new LINETYPEs: LTSKALE
  - Utility commands

Putting it all together

Required text is *Applying AutoCAD* by Terry T. Wohlers, available at the University Book Center, UMC 10.

**Who Should Attend:** Anyone involved, or who plans to be involved, in technical drawing or drafting. Especially helpful for architects, engineers, or designers who plan on upgrading their work, or need the skills of computerizing drawing/text manipulation. Also for those who want to get involved in the dynamic CAD field. There is virtually no limit to the kinds of drawing applications you can prepare using the skills covered in this course.

**Section I:** Dan Myers, M.S.
Wednesdays, September 2 - October 7, 6:30-9:30 p.m. 6 sessions.

**Section II:** Becky Day, M.A.
Tuesdays, September 15 - October 20, 6:30-9:30 p.m. 6 sessions.

**Section III:** David E. Clough, Ph.D.
Thursdays, September 17 - October 22, 6:30-9:30 p.m. 6 sessions.

**Section IV:** Philip M. Kreiker, M.S.E.E.
Tuesday, Wednesday, Thursday, September 29 - October 1, 9 a.m.-4 p.m. 3 all-day sessions.

**Section V:** David E. Clough, Ph.D.
Thursdays, October 29 - December 10, 6:30-9:30 p.m. 6 sessions.

All Sections: 1.8 CEUs.

University Computing Center Graphics Lab, Room 137. $225.
This course is for those seeking advanced drafting capabilities and expert instruction in furthering their CAD knowledge and skills. Semiautomatic dimensioning, object snap, all dimensioning commands, isoplanar snap-grids, 3-D, and free-hand sketching are all important components of this level II course. Course outline includes:

- Semiautomatic Dimensioning
- Linear and angular dimensions
- Dimensioning variables
- Object Snap and Aperture Commands
- Calculating specific characteristics of an entity or drawing
- 3-D drawings and prototype drawings
- Highly useful, but less frequently used commands
- Compatibility with other software
- Isometric Drawing Aids
- ISOLINE command
- Control E to switch planes
- STATUS Utility
- Purpose and components overview
- Sketching
- Attributes
- ATTDEF, CHANGE, ATTEDIT, ATTEXT
- Wireframe construction and viewpoint selection
- Advanced file management

Recommended prerequisites are Computer Aided Design: Level I, as previously listed or hands-on AutoCAD experience that equals the CAD: Level I course outline.

**Who Should Attend:** All those who want to extend their knowledge and skills in CAD beyond basic levels. Especially helpful for engineers, architects, and designers and those seeking to advance computer applications in their fields. The drafting and structure skills covered in this course are also easily transferred to a wide variety of other fields.

Section I: Dan Myers, M.S.
Wednesday, October 14-November 11, 6:30-9:30 p.m. 5 sessions.

Section II: Philip M. Kreiker, M.S.E.
Wednesday and Thursday, October 21 and 22, 8 a.m.-4 p.m. 2 all-day sessions.

Section III: Becky Day, M.A.
Tuesday, October 27-November 24, 6:30-9:30 p.m. 5 sessions.

All sections: 1.5 CEUs.
University Computing Center Graphics Lab, Room 137. $185.
**Computer Graphics Art**

**CCG-310 Novice Computer Graphics Art I**
This course is designed to prepare for the drawing board of the future, the computer. Computer Graphics Art I is for anyone involved in graphic art or design who wants to develop a hands-on, practical understanding of computer graphics. A comprehensive overview of the latest technical advances in the field of computer graphics will be coupled with in-class microcomputer applications, emphasizing the use of the computer as a creative tool. Topics include:

- True 3-Dimensional object rotation
- Creative use of Paint, Airbrush, and drawing tools
- Effective use of font manipulation
- Instant layout capabilities
- Collage, combine, rotate, reposition, and distort pictures
- Kinetics business graphics

In-class projects include using the computer to design projects for portfolio development (a slide is made of your best work), and we'll see some great slides and videos of outstanding new computer art. This course is recommended for those desiring computer graphic professional advancement, those involved in graphic presentations or design, eager to develop new skills, or explore microcomputer-based graphic capabilities. The course also counts as an elective credit in Certificate of Commercial Design. Please bring one double-sided/double-density 5¼ inch diskette to the first class, available at all computer stores.

**Section I:** Pat Lehman, M.F.A.
Mondays, August 31-October 5 (no class session September 7), 6:30-9:30 p.m., 5 sessions.

**Section II:** Pat Lehman, M.F.A.
Mondays, October 12-November 9, 6:30-9:30 p.m., 5 sessions.

**Section III:** Cynthia J. Rudy, B.F.A.
Saturdays, November 7 and 14, 9 a.m.-5 p.m., 2 all-day sessions.

All Sections: 1.4 CEUs.
University Computing Center Graphics Lab, Room 137. $125.

**CCG-330 Intermediate Computer Graphics Art: Level II**
For those familiar with computer functions based on Computer Graphics Art I, this course advances to expanded professional graphics applications skills. Hands-on time will be spent solving design problems of the computer artist. The course is primarily directed to the artist or designer seeking to include computer graphics into their career, but is helpful for anyone wishing to develop expertise in this dynamic field. Graphic artists, designers, art directors, illustrators and anyone else involved in the visual communications media will benefit. Topics to be covered will include:

- Object design and change in 3-D
- Making your own fill pattern
- Combining picture files
- Using grid as a tool
- Advanced illustration techniques
- Storyboard and layout techniques
- Production steps from start to finish
- Advanced business graphics with Kinetics
- Hardcopy options are covered extensively. Slides and videos presenting video paint systems used in TV production will be seen and animation and TV production skills will be covered, as well as interview preparation oriented toward successful interactions with prospective clients or employers. Course also counts as elective credit in Certificate of Commercial Design. Please bring a double-sided/double-density or high density diskette to the first class.

**Section I:** Pat Lehman, M.F.A.
Mondays, November 16-December 14, 6:30-9:30 p.m., 5 sessions.

**Section II:** Cynthia J. Rudy, B.F.A.
Saturdays, December 5 and 12, 9 a.m.-5 p.m., 2 all-day sessions.

Both Sections: 1.5 CEUs.
University Computing Center Graphics Lab, Room 137. $125.

**Desktop Publishing**

**CCG-370 Novice Introduction to Desktop Publishing**
Desktop Publishing has dramatically improved the quality of inexpensive, publishable material. This intensive workshop gives the basics of page layouts, creative formats, and type font styles. All work is done on a computer screen, for instant and dramatic results. Whether you publish a club newsletter, a restaurant menu, or a critical financial statement, this course can be of great value. Topics include justifying text for style, building art into the page construction, and scanner technology in graphics and text. This hands-on course employs Pagemaker software extensively, with interactive demonstrations of other software, like Ventura Publisher. Laser printing of finished projects done in class. Bring a double-sided/double-density or high density diskette to class.

Cynthia J. Rudy, B.F.A.
Section I: Saturdays, September 26 and October 3, 10:15 a.m.-5:30 p.m.
Section II: Saturdays, October 10 and 17, 10:15 a.m.-5:30 p.m.
Section III: Saturdays, November 21 and December 5, 10:15 a.m.-5:30 p.m.
All sections: 2 all-day sessions, 1.5 CEUs.
Norlin Library $419. $135.

**CCG-391 Intermediate Advanced Desktop Publishing**
Develop your skills and potential in printed media communications in this advanced seminar/workshop, designed for those with the basics behind them and remarkable publications ahead. Emphasis is on time-saving techniques and graphics that enhance your message. Topics include useful illustration/text merging, font design for total impact, personal and "off-the-shelf" clip art libraries, maintaining high standards of technical quality, a product overview from software to high-quality printers, using scanner technology in graphics and text for creative impact, and the over-all polished look of your work. Bring a 5¼ inch double-sided/double-density or high density diskette to class.

Cynthia J. Rudy, B.F.A.
Saturday, October 24, 10:15 a.m.-5:30 p.m.

Norlin Library $419. $70.
Certificate in Commercial Design

Are you interested in the growing field of commercial design? Are you already involved in some aspect of illustration, art or publishing, and are you ready to expand your expertise? Whether you are a new or continuing student in the field, this series of weekend workshops leading to a Certificate in Commercial Design may be what you need for your professional development.

The Certificate in Commercial Design is a sequential program of short intensive courses presented in a compact format of workshops to accommodate the busy schedule that professionals share, and the needs of those interested in entering the field. Courses cover both the basics and the advanced developments in commercial art today. Careers in book design, advertising, cartooning, broadcasting, and a wide number of other areas will be explored during the program. Many of the courses pay particular attention to entry-level job opportunities, the construction and maintenance of professional portfolios, and the basics of job-hunting and preparing for interviews. Instructors are all "state-of-the-art," active professionals in touch with the latest changes in the commercial design field.

The Certificate requirements are threefold:

1. Successful completion of the four required courses:
   - The Commercial Artist: Design, Layout, and Paste-up
   - Commercial Art II
   - Professional Illustration Techniques
   - The Artist Goes to Market

2. Successful completion of four elective courses. These optional courses consist of several that are offered on a regular basis and many others that are periodically introduced to accommodate updates and changing trends in commercial design.

3. Successful completion and professional review of your own fully developed portfolio, scheduled by appointment.

You need not formally apply for any program nor must you be seeking a certificate to enroll. Conversely, you need not stop participation in the courses once you have achieved certification. Many people take only a few courses to update certain skills and many others take several courses beyond requirements to advance their professional skills.

Continuing Education Units and performance certificates are awarded for each class. A Continuing Education Unit is the national standard for colleges and universities to record 10 hours of university-level noncredit course participation. CEUs are awarded for completion of each course generating a permanent record for you. A transcript copy is available upon request, without fee.

The course of study is scheduled so that participants may complete all requirements within three semesters. The four required courses are offered at least once a year, as well as several elective courses.

Course tuitions are listed at the end of each course description. Tuition varies depending on materials used, length of time, and other course-related expenses. Please remember that in all certificate courses there are no refunds once the course has started; full refunds are granted if requested before that time. Course enrollments are limited and advance registration is required. Please note that refunds are given only before the course starts, none later.

Bring to class a pencil, ruler, fineliner pen, exacto knife, note paper, tracing paper, and bristol board (15" x 20" approx.). All other materials and a workbook are provided. While portfolios need not be brought to class, it is of great benefit if during the course attendees have some access to their portfolios or work examples.

* = Required Certificate Courses
Commercial Design

BCDA-81
The Commercial Artist I: Design, Layout, Paste-up
This course introduces important commercial art techniques to the beginner, stressing the "how-tos" of entering the commercial art/graphic design profession. It covers rough compositions, layout, type selection, camera-ready art production, obtaining the best materials for your best work, and basic illustration processes used by the artist in advertising agencies, book, magazine, and newspaper publishing departments; and in graphic design firms. Emphasis is placed on developing finished commercial art work, portfolio presentation, and client interviews.
Jill Thayer O'Hara
Saturday and Sunday, October 3 and 4, 9 a.m.-5 p.m.
Two all-day sessions. 1.4 CEUs. Geology 114. $110.

Hand Lettering

BCDA-93
Professional Hand Lettering and Calligraphy
Hand lettering/calligraphy is an important tool for the commercial artist advancing in the marketplace — cards, invitations, logo, trademark, and creative lettering assignments for corporate and editorial needs. This program includes commercial lettering principles — proportion, letter and word spacing, divisions of calligraphy style — editorial and advertising signage, point of purchase display, and sign painting. Also included is developing typography design for logos and trademarks relevant to the marketplace. Program includes workshop activities, lecture, and demonstration.
Jill Thayer O'Hara
Monday, Tuesday, Wednesday, October 5-7, 5:30-10 p.m.
3 sessions. 1.2 CEUs. Geology 114. $110.

Illustration

BCDA-83
Professional Illustration Techniques
The beginning illustrator seeking to enter the world of commercial illustration must be aware of specific market needs. This program introduces the illustrator to contemporary illustration techniques used for assignments with advertising agencies, book illustration firms, magazines, and newspapers. Drawing lab, lecture, demonstration, and workshop cover scratchboard processes, color technique, air brush procedures, and photo retouching. Attenders complete final drawing samples for presentation to various markets.
Eric Teitelbaum
Saturday and Sunday, October 17 and 18, 9 a.m.-5 p.m.
Two all-day sessions, 1.4 CEUs. Geology 114. $110.

Cartooning

BCDA-94
The Mental Picture: Professional Cartooning
Cartoon illustration skills can be a strong addition to any commercial artist's portfolio. This introductory course features a professional cartoonist sharing his skills and experience in the field. Topics include techniques, procedures, tools, and materials, and their application to illustrating the verbal caption in magazine, book, and advertising illustration.
Eric Teitelbaum
Thursday and Friday, October 15 and 16, 5:30-10 p.m.
2 sessions. .9 CEUs. Geology 114, $80.
Entrepreneurial Art

BCDA-79
Entrepreneurial Art: Successful Business Strategies for the Commercial Artist

Beyond getting a portfolio and business card together, today's artist must know how and where to find reputable clients that pay and how to avoid those that don't. With the growing importance of image making and communications in today's business/industry environment, today's artist must become aware of and be aware of and where to find reputable clients that pay and how to avoid those that don't.

Key topics will include:
- Packaging graphic design services for the small business client.
- How to hire the services of other freelance artists.
- Why you say "no" to some clients.
- Markets you should be aware of and probably aren't.
- Studio management techniques.
- Handling clients that don't have ad agencies.
- Indirect art agents.
- Media trade-outs.
- Developing strategies for a successful art career.

This program is important for professional illustrators, currently employed designers seeking job changes, or for anyone who must buy or sell art as part of business activities.

Eric Teitelbaum
Monday and Tuesday, October 19 and 20, 5:30-10 p.m.
2 sessions, .7 CEUs. Geology 114. $80.

Commercial Art

BCDA-82
Commercial Art II

This course builds advanced skills in layout, design, paste-up, logo development, and corporate identity. Intensive workshop activities will focus on developing entire professional-level identity packages, including corporate collateral pieces. Discussions also cover understanding current printing processes and details for making valuable camera-ready art. It is recommended that Commercial Art I be completed before enrollment in this course, or that students demonstrate more advanced commercial art skills.

Roy Walden
Saturday and Sunday, November 7 and 8, 9 a.m.-5 p.m.
Two all-day sessions, 1.4 CEUs.
Geology 114. $110.

Air Brush

BCDA-90
Air Brush Illustration Techniques

Air brush is one of the most widely used and popular illustration media in commercial art today, especially in editorial and advertising formats. This intensive two-day program will treat the subject of air brush in its entirety, exploring the intricacies of color, texture, decoration, frisket papers, acrylic dyes, inks, mixed media, prisma, and an array of appropriate paper surfaces — hot/cold press, bristol boards, etc. Other current-day techniques will be covered.

Bill Teitelbaum
Saturday and Sunday, November 21 and 22, 9 a.m.-5 p.m.
Two all-day sessions, 1.4 CEUs.
Geology 114. $110.

Markers

BCDA-77
Felt-Tip Marker Rendering Techniques

Before a conceptual concept can be commissioned by the client, art director or media buyer it must be effectively communicated by the artist in "final rough" stages. This all important phase of graphic communication and presentation calls for versatility in felt marker rendering techniques. This in-depth two day workshop program will cover the how-to's of using the felt marker in a variety of visual applications including mock-ups for brochure design, advertising layouts for the small business client, poster and album cover design, book illustration and film/tv. Topics include:
- Understanding the importance of felt marker comp techniques as they relate to professional commercial design.
- Appropriate materials in completing a variety of b&w assignments.
- Knowledge of b&w application to effectively solve felt marker problems in color.
- Both editorial and advertising finished assignments to given high-level graphic problems.

Workshop and drawing activities will include selecting and evaluating materials, gradation of tone, mass and illusion, negative space, mixing color and mixing mediums.

Roy Walden
Saturday and Sunday, December 5 and 6, 9 a.m.-5 p.m.
2 all-day sessions, 1.4 CEUs.
Geology 114. $110.

Please Note

Two courses in Computer Graphics Art qualify for elective credit in the Certificate in Commercial Design. These are listed on page 34 with Computer Applications courses.
Noncredit Adult Courses

What a wonderful way to fill your leisure time. Learning for learning’s sake. A large variety of topics are introduced by instructors who really enjoy sharing their special interests.

Our noncredit courses meet evenings and weekends to accommodate your working schedule. There are no tests, no grades and no prerequisites. If your reason behind taking a class is to brush up on academic areas like basic algebra or test preparation or to learn a language like French, Italian, or Spanish we have the program for you. Perhaps you would like to learn to draw or watercolor, ballroom dance or jitterbug, or even take an astronomy course. Are you thinking of starting your own business? We offer a multitude of business courses where you can acquire the latest information.

By researching the Boulder adult community, we feel we offer you the highest quality courses in areas of professional and personal interest. Are you in a transition in your life, are you facing stress, do you want to be introduced to the scenic wonder of Colorado outdoors, learn more of Colorado history or have a passionate interest in trains or sailing? We carefully choose courses to meet the interests expressed by most adults. Since we've been doing this for 75 years, we feel we have a good thing going.

Full refunds are given up to the second class session.

No classes are held November 26 and 27.

Please register early (at least 5 days in advance) to insure that your course isn’t cancelled due to insufficient enrollment! To register, call 492-5148 or 1-800-332-5839.

Algebra

NCA-1
Algebra Review
Designed for students who want to learn or relearn algebraic concepts in a relaxed, low-pressure atmosphere. Topics include signed numbers, variables, algebraic expressions, equations, word problems, exponents and radicals, graphing, and other topics appropriate to the level of students in the class. A sensitivity of those with math anxieties will be maintained. Required text Intermediate Algebra (workbook only) available at UMC bookstore.
Mary Brooks, M.A. mathematics Utah State University, Tuesday, September 15-November 17, 6:30-9:30 p.m. 10 sessions. Engineering Building 1-03. $75.

Astronomy

NCA-2
Exploring the Universe
This basic astronomy course is designed for those of you who want to learn more about our earth, sun, planets, the birth and death of stars, the galaxy, the origin and evolution of the universe, and the development of life on earth. Fundamental concepts will be stressed. Lectures will be illustrated by slides and followed by naked eye observation of the constellations and planets (weather permitting). In addition there will be one planetarium session and one telescope session (to be arranged). No prior scientific background is assumed. Recommended text (optional) is the Universe and Life by G.S. Kutter, available at the University Bookstore on campus.
Joe Romig, M.Sc. Oxford, Ph.D. University of Colorado at Boulder. Researcher at Radiophysics, Consultant, Ponderosa Assoc. Wednesdays, September 16-November 4, 6:30-8:30 p.m. 8 sessions. Duane Physics G125. $60.

Business

NCB-1
Accounting for Non-Accountants
An introductory course in accounting for those who have had little or no previous training. Emphasizes the recording, reporting, and analysis of accounting information as well as in-depth understanding of financial statements. Other topics include treatment of assets, liabilities, and income taxes. Tom Edmonds, C.P.A., M.S. Wednesdays, September 16-November 4, 7-9 p.m. 8 sessions. Business 354. $60.

NCB-2
Business Diagnostics — Analyzing Your Business for Expansion or Turnaround
This course will be conducted as a workshop, and is for existing businesses with less than 20 employees who are having difficulty evaluating how well their businesses are performing. The objective is to provide small businesses with a useful, analytical framework for keeping their businesses in a growth pattern. Through the use of extensive examples, worksheets, and an interactive learning scenario, the course will cover management skills, marketing effectiveness, pricing, cash flow, and financial strength. Don Webb, Ph.D., S.M.U.; Consultant with CU's Small Business Assistance Center Tuesdays, October 20-November 10, 7-8:30 p.m. 4 sessions. Business 354. $23.

NCB-3
Entrepreneurism — Are You Ready?
What does it take to be an entrepreneur? Not everyone has what it takes. Most businesses fail within five years and 50% of businesses fail in the very first year. Some of the most common causes of failure in businesses include undercapitalization, lack of preparation, failure to test the market, lack of financial control, and too much too soon. This class will help you determine if you have what it takes to make it in business as an entrepreneur. The class will cover the design of a business plan, setting up a basic budget, cash flow analysis and other essential activities. In addition, the class will discuss personal financial planning and the preservation of wealth for the successful entrepreneur and his or her family.
Aivars Ziedins, C.F.P., M.S. in financial services; an entrepreneur with six businesses, a general partner in 30 real estate partnerships and is President of Ziedins & Co. Thursdays, September 17-October 15, 7-9 p.m. 5 sessions. Business 208. $38.

NCB-4
Financial Planning for Businesses
Financial plans and budgets help you manage and direct the growth of your business, and give you control over cost and risks. In addition, financial projections are an integral part of a business plan. Learn to use these essential management tools in this straightforward, understandable workshop. Topics include how to set up realistic budgets, cash flows, breakeven points, and sales and cost projections. Course workbook $7.
Henry Ay'm Fellman, J.D.; Partner, Fellman, Robbins & Associates (Small Business consulting and accounting firm). Tuesdays, October 27-November 17, 7-9:30 p.m. 4 sessions. Business 251. $38.

NCB-5
Financial Planning for Women
Financial security creates peace of mind, heightened self-esteem, retirement with dignity and personal independence. Whether you are married, single, divorced, or widowed, create your own personal financial plan step by step as we identify the reasons women often fail. Learn how to set specific goals and how to implement a systematic process to ensure your financial good health. Course materials include a complete personal financial planning packet.
Corline Carstens, M.B.A., Vice President of Marketing for Ziedins and Company. Wednesdays, October 21-November 11, 6-8:30 p.m. 4 sessions. Business 251. $38.
NCB-6
How to Market Your Product or Service
Are there more ways to develop your marketing? The class will cover what you need to know and do in terms of positioning, competition, research, trends, customer service, new products, sales, advertising and other factors. Examples, hands-on work and orientation toward participants are stressed.
Teri Wenz, M.A. Consultant with CU's Small Business Assistance Center.
Mondays, October 12-December 2.
6:30-8:30 p.m.
4 sessions. Business 207. $30.

NCB-7
The International Businessperson
Learn how to function in an international arena by becoming broadly aware of culturally sensitive areas. Focusing chiefly on Japanese culture, topics will include etiquette, conversation (suitable topics, gestures, forms of speech) and using a translator. Also included will be the most common questions about the U.S. and how to answer them.
Pamela Bliss, worked for Japanese trading company for five years, speaks Japanese proficiently, led two business trade missions to P.R.C.
Thursdays, September 24-October 29, 7-9 p.m.
6 sessions. Business 354. $45.

NCB-8
Resort Condominium Management
This course is designed to give the student an understanding of the management of the resort condominium. The following topics will be discussed: organization and structure of the association, property analysis, consequences of new tax law, management contracts, relationships to the real estate industry, and specifics on the management of the resort hotel condominium. This course is an overview for resort and hotel personnel, condominium association officers and members, real estate salespeople and brokers, architects, developers, and commercial recreation students. Commercial recreation students may be eligible for one semester hour of credit. Fee includes continental breakfasts, refreshment breaks, and a reception.
Gerald G. Hewey, C.H.A.
Thursdays, November 17-December 8.
6:30-7:45 p.m. 4 sessions. Hale 205. $20.

NCB-9
Writing a Business Plan
There are many types of business plans, and many reasons for writing one. In this workshop you'll identify the kind of plan you need, and learn how to research and write it. You'll design the form and contents, and then learn the keys to writing plans that generate loans and investments, and help grow and expand your business. Course workbook $7.
Johann Robbins, marketing and business planning specialist, Partner of Fellman, Robbins & Associates (a Small Business consulting and accounting firm).
Thursdays, October 22-November 12, 7:9:30 p.m.
4 sessions. Engineering Building 1-01. $38.

Noncredit Adult Courses

Social Dance

NCD-1
Beginning Ballroom Dancing
Introduction to the basic steps in Foxtrot, Tango, Jitterbug Rock-n-Roll, Polka, and Waltz. The instruction shall include the necessary turns and animations to provide every participant an immediate gratification in Ballroom Dancing.
Van Pool, professional dance instructor for eight years. Has worked with Arthur Murray, Brad Morris and Fred Astair Studios.
Section I: Tuesdays, September 15-October 6, 6:30-7:45 p.m.
Section II: Tuesdays, October 13-November 3, 9-10:15 p.m.
Both Sections: 4 sessions. Hale 205. $20.

NCD-2
Intermediate Ballroom Dancing
An Intermediate Level class (Beginning is not a prerequisite but would be helpful) which will review the basic steps offered in the Beginning course. Furthermore, the instruction will expand on the various combination of routines and additional Latin steps (e.g., Cha Cha and Rhumba).
Van Pool, professional dance instructor for eight years. Has worked with Arthur Murray, Brad Morris and Fred Astair Studios.
Section I: Tuesdays, October 13-November 3, 6:30-7:45 p.m.
Section II: Tuesdays, November 17-December 8, 9-10:15 p.m.
Both Sections: 4 sessions. Hale 205. $20.

NCD-3
Advanced Ballroom Dancing
An Advanced Level course (suggested prerequisite either beginning or intermediate, or preferably both) which assumes the participants are comfortable with most of the basic steps and turns. The instruction will expand on the previous courses combination of routines and refinements for smoothness within each movement of Ballroom Dancing.
Van Pool, professional dance instructor for eight years. Has worked with Arthur Murray, Brad Morris and Fred Astair Studios.
Tuesdays, November 17-December 8, 6:30-7:45 p.m. 4 sessions. Hale 205. $20.

NCD-4
Beginning Country Swing and Texas 2-Step
Introduction to the basic steps in Texas 2-Step, Country Swing, Country Waltz, and various line dances (e.g., Cotton-eyed Joe and 10 Count Shuffle). The instruction shall include the necessary turns and animations to provide every participant an immediate gratification in Country Dancing.
Van Pool, professional dance instructor for eight years. Has worked with Arthur Murray, Brad Morris and Fred Astair Studios.
Tuesdays, September 15-October 6, 7:45-9 p.m. 4 sessions. Hale 205. $20.
Noncredit Adult Courses

NCD-5 Intermediate Country Swing and Texas 2-Step
An Intermediate Level class (Beginning is not a pre-requisite but would be helpful) which will review the basic steps offered in the Beginning course. Furthermore, the instruction will expand on the various combination of routines and additional steps (e.g., Triple Step and 16 Count Shuffle). Van Pool, professional dance instructor for eight years. Has worked with Arthur Murray, Brad Morris and Fred Astair Studios. Tuesdays, October 13-November 3, 7:45-9 p.m. 4 sessions. Hale 205. $20.

NCD-6 Advanced Country Swing and Texas 2-Step
An Advanced Level course (suggested pre-requisite either beginning or intermediate, or preferably both) which assumes the participants are comfortable with the basic steps and turns. The instruction will expand on the previous courses combination of routines and refinements for smoothness within each movement of Country Dancing. Van Pool, professional dance instructor for eight years. Has worked with Arthur Murray, Brad Morris and Fred Astair Studios. Tuesdays, November 17-December 8, 7:45-9 p.m. 4 sessions. Hale 205. $20.

NCD-7 Beginning Jitterbug Rock-N-Roll
Introduction to the basic steps in single time Jitterbug Rock-n-Roll. The instruction shall include the necessary turns and animations to provide every participant an immediate gratification in Jitterbug Dancing. Van Pool, professional dance instructor for eight years. Has worked with Arthur Murray, Brad Morris and Fred Astair Studios. Tuesdays, September 15-October 6, 9-10:15 p.m. 4 sessions. Hale 205. $20.

NCF-1 Art in Europe: Seeing the Sights
For the traveler who wishes to make the most of sightseeing, this class focuses on the architecture, church art and museums of the major cities of Europe. Via slides we will walk through these cities, considering the style and history of the art works found there. Take this tour without leaving Colorado or use this course to prepare for your next trip abroad.
Robin A. Brandt, M.L.A., M.A., for past year lived and studied in Bruxelles. Tuesdays, September 13-November 4, 7-9 p.m., 8 sessions. Porter Biosciences E130. $60.

NCF-2 The Art of Piano Improvisation
Improvisation is a state of mind. Music is initially and essentially “sound.” We will explore “raw sound” and relate it to rhythm, melody and harmony. We will develop and refine “musical language.” This is a class that will unlock the music in you and give you the tools to create your own music. (Some piano background helpful.) Brian Golden, concert pianist, performing for Arvada Center, Chautaqua, and the Boulder Public Library Concert Series. Mondays, September 21-November 9, 7:30-9 p.m. 8 sessions. Muenzing E0046. $45.

NCF-3 Acting Basics
"All the world's a stage... and rather than putting on a character, the actor searches for the variety in every one of us, the every one in each of us. Whether the stage is your world or you simply wish to know and be more comfortable with yourself and others, this exploration of the dynamics of communication, trust, sense perception and movement can open more of your stage to you. Emphasis is on class attendance and participation. No required text.
Susan Chambers, M.F.A., Penn State Univ., has taught acting and movement for actors to nonmajors and theater students. Mondays and Wednesdays, September 21-October 29, 7-8:30 p.m. 12 sessions. Hunter 208. $68.

NCF-4 Acting Out II
For people who have taken a beginning acting class and have some acting experience, this class will use improvisation to improve and expand acting skills. Subject areas will include better communication with fellow actors and the audience, character development, physical theater skills and improvisational scenework. A field trip to see a play will be scheduled and the class will do an informal performance at the end of the 8 week session. This class will emphasize a serious approach to acting but it will also be a fun and exciting evening as well. Garey Waters, B.A., professional actress and director with Imagination Makers Theater Company. Thursdays, September 24-November 12, 7-9:30 p.m., 8 sessions. Hale 205. $75.

NCF-5 Chinese Painting
This course is offered to students of all skill levels. Students will learn the basic disciplined techniques of painting a wide variety of subjects, using primarily oriental brushes, ink, color pigments, and rice papers. Composition and design will also be discussed. Students will purchase their own materials, a brush or brushes, ink, rice papers, or newsprint, covered at the first class session. Janet Lenzchow, M.F.A. Tuesdays, September 29-November 17, 7-9 p.m., 8 sessions. Fine Arts C153. $60.
NCF-6
Drawing Techniques
Many artists have used drawing to design, arrange or rearrange forms, and try out various solutions. Drawing techniques introduces a variety of drawing tools and methods, including slides of Michelangelo, Rubens, Pelagimbri, Ingres, Durer and twentieth-century artists. First class will present slides of drawings; pen and ink, charcoal, pencil, conte crayon, washes, mixed media, and lithographic crayon. Left-brain, right-brain concepts will also be introduced during first class. Following classes will introduce the value scale, with the investigation of basic shapes - cube, cylinder, and sphere, in order to understand the basic ideas of pencil drawing. Next, utilizing pure white still life to enlarge the concept of light and dark value. After which, we move onto preliminary steps at composition and campus landscape.

Gail Marr, B.F.A. Studio Painting, artist, instructor.
Wednesdays, September 16-November 4, 5:30-7 p.m., 8 sessions.
Fine Arts C153. $45.

NCF-7
The World of Gemstones
Myth, Magic and Reality. Glass or diamond? Gemstone or imitation? This course will give the student a basic knowledge of gemstones including history and lore, geography, mining and distribution, cutting and enhancement, color, crystalline structure and other physical and optical properties of diamonds and colored stones. The focus is on consumer awareness. (Suggested text: Gemstones of the World, Walter Schumann.)

Jaqui Thier Cooper, M.A., designer and goldsmith, GIA graduate gemologist, owner of appraisal lab and design studio.
Thursdays, September 17-October 22, 7-9:30 p.m., 6 sessions.
Ketchum 119. $57.

NCF-8
Jewelry and Gems: The Art of Adornment
Addresses the primary function of gemstones, their use in jewelry for personal adornment. Includes the history and lore of jewelry through the ages as well as a survey of jewelry today covering styles and trends, manufacturing and design techniques, precious metals, and popular gems in women's and men's jewelry. Also addresses the wear, care and protection of fine jewelry including appraisal and insurance. This course is designed to complement the World of Gemstones class but is open to anyone who loves fine gems and jewelry.

Jaqui Thier Cooper, M.A., designer and goldsmith, GIA graduate gemologist, owner of appraisal lab and design studio.
Thursdays, October 29-November 19, 7:30-9:30 p.m. 4 sessions. Ketchum 119. $38.

NCF-9
Life Drawing
Through a series of exercises in learning how to see and respond, drawing will become a skill that belongs to you. Life drawing is a matter of seeing and coordinating your eye with your hand. We will begin with gestural drawings, proceed to contour line drawings, and deal with surface shading and modeling techniques. Bring to first class charcoal, eraser, 18" x 24" newsprint pad and pencils (2H, HB and 2B). Tuition includes fee for a model who will be present at every session.

Barbara Preskorn, M.F.A., CU Boulder, Instructor at Front Range Comm. College
Wednesdays, September 30-November 18, 7-9 p.m. 8 sessions. Fine Arts N-298. $60.

NCF-10
Beginning Photography
This introductory course is designed for those who have a camera but don't really feel that they know how to use it. Through slides, lectures and question/answer sessions, students will learn about the mechanical functions of 35mm SLR cameras. We will discuss types of lenses and films, accessories, proper exposure (including nighttime and fireworks) and good composition and portraiture techniques. No labwork is involved. There will be one field trip. After this course, you should be able to use your camera confidently and take pictures of consistently good quality. Numerous handouts; optional text is Henry Horestein's Black and White Photography.

Lynn Lickteig, B.F.A. CU Boulder, Photographer
Mondays, September 14-November 2, 7-9 p.m. 8 sessions.
Environmental Design 122. $60.

NCF-11
Creative Photography Workshop
A unique photography course for the beginning and intermediate photographer. It's designed to help you make more exciting photographs by exposing you to the ideas and works of the masters; teaching over a hundred creative techniques; and continual feedback for the work you'll produce in the class. Slide presentations will be used in our discussions, and each student will receive detailed handouts on all the techniques covered in the class. There will be an opportunity for open discussion on individual questions and problem solving. Special assignments will be given to help in motivation. Instruction will be complemented by a personal evaluation of each student's work.

Harry Boyd, professional photographer, author of Creative Approach to Controlling Photography

NCF-12
Selling Your Photography
This is a seminar for the amateur or "semi-professional" photographer who wishes to make extra money from their photography. Business and marketing practices for selling stock photographs will be discussed extensively. Topics include working for magazines and freelancing in the Rocky Mountain market. Participants will also receive helpful hints and learn creative techniques that will make their work more attractive to potential buyers.

Harry Boyd, professional photographer, author of Creative Approach to Controlling Photography

Noncredit Adult Courses
Noncredit Adult Courses

NCF-13
Storytelling for Everyone

Storytelling is experiencing a revival in the U.S. This course covers different kinds of stories, local history, fiction, myth, fairy tales, and folktales. Learn how to become a better storyteller, which stories are good for you, techniques for preparation and performance. Kay Negash, professional storyteller, winner in 1986 to represent this five state area at the National Storytelling Festival in Jonesboro, Tenn. Wednesdays, September 16-October 14, 6:30-8:30 p.m. 5 sessions. Hale 6. $38.

NCF-14
Watercolor Techniques

Watercolor techniques will be taught utilizing techniques of transparent and opaque watercolor, with an emphasis in basic color theory, learning how to use the color wheel and develop individual painting styles. Still-life composition and ink-resist watercolor will also be taught. The first class will include materials list and exercise lessons in color theory and composition. Notebook and pens needed for color theory notes. Left-brain, right-brain exercises are also included in the course, along with specific drawing assignments, in order to stimulate and facilitate learning a variety of methods. Campus landscape included. Note: advanced students will learn to reproduce masters paintings, critique, and conceptualize. Gall Marr, B.F.A. Studio Painting. Wednesdays, September 16-November 4, 7-9 p.m. 8 sessions. Fine Arts C153. $60.

NCF-15
Watercolor Pastel — Mixed Media

A unique class that adds diversity to the watercolor technique. This class is mainly involved with mixing paint with pastels using watercolor and oil pastel. It would be to the advantage of the student to have some previous art background and preferably in painting with water media. Looseness with color is the main objective. List of materials available at first class meeting. Mary Ellen Lake, B.A. Art Education, artist specializing in commercial and fine art, currently represented by two galleries. Thursdays, September 17-November 5, 6:30-8:30 p.m. 8 sessions. Fine Arts C153. $60.

NCF-16
Woodcarving Sculpture

Create a sculpture in wood. Basic carving techniques and instructions will focus on three dimensional projects. Beginners and intermediate students will experience carving in the round and explore the first steps of blocking out the form. The use of clay will facilitate the process of working in three dimensions. Discussion of different wood types, finishing techniques, and a slide show of wood sculptures are included. Cost of wood and tools $25 payable at first class. Barbara Cox, B.F.A., studied Woodcarving Sculpture in Innsbruck, Austria and continued at the Fine Arts Academie in Munich. Mondays, September 14-November 9, 7-9 p.m. 9 sessions. Fine Arts C102. $68.

Foreign Languages

NCFL-1
Beginning Conversational French

This course is for anyone interested in learning the French language and culture. We will be studying essential verbs and vocabulary and enough grammar to comprehend and use basic French in different situations. Conversational French will be stressed. With support of other class members, you start asking questions in the first class. Work with small groups will emphasize the practice of the language. Tapes will be used in a language lab for pronunciation. Required textbook is Le Francais, Depart-Arrivee (second edition) by John A. Rassias, available at the University Bookstore on campus. Nadia Turk, Ph.D. French Literature. Mondays, September 14-November 16, 7-9 p.m. 10 sessions. Hellems 255. $75.

NCFL-2
Advanced Beginning Conversational French

This course is designed for students who have had one course in beginning French and would like to learn more about the language: vocabulary, other tenses, and practice what they already know. Students should be able to use the present tense before entering this class. Conversational French will be stressed. Working with small groups will emphasize the practice of the language. Required textbook is Le Francais, Depart-Arrivee (second edition) by John A. Rassias, available at the University Bookstore on campus. Nadia Turk, Ph.D. French Literature. Wednesdays, September 16-November 18, 7-9 p.m. 10 sessions. Hellems 255. $75.

NCFL-3
Intermediate Conversational French

A more advanced course for the student with a good French background. Keeping grammar to a minimum, we will concentrate on vocabulary, idiomatic expressions, and conversation. Emphasis is put on improving conversational skills. The topics discussed will often be based on texts read at home or in class, and on reports made by the students themselves. Required textbook is College Varietes Culturelles (second edition), available at the University Bookstore on campus. Anna Cohen, M.A., instructor at CU Boulder. Wednesdays, September 16-November 18, 6:30-8:30 p.m. 10 sessions. Hellems 271. $75.

NCFL-4
Beginning Conversational German

This course is designed for students with no or very little preliminary knowledge of German. We will cover grammar which is essential for using the language creatively, but the emphasis will be on conversation and from the very beginning you will have many opportunities to speak German. Since many students want to travel to German-speaking countries, we will emphasize practice in practical conversation. Text to be used is sold at the first class session, $16. Benita Lutcher, M.A., instructor at CU Boulder. Mondays, September 14-November 16, 7-9 p.m. 10 sessions. Hellems 181. $75.
NCFL-5
Intermediate German
For students who have taken an introductory course or have otherwise gained some background in spoken German. Emphasis is put on improving conversation skills, but reading and writing will also be part of the course. Course features a variety of methods to stimulate and facilitate learning, and enjoy the language in the process. Text is *Lesen, Lachen, Lernen* and is available at the University of Colorado Bookstore.

Ed Maier-Heym, M.A. German, Instructor at CU Boulder.

Thursdays, September 17-November 19, 7-9 p.m. 10 sessions. Hellems 185. $75.

NCFL-6
Beginning Conversational Italian
This class is designed for students with minimal or no knowledge of Italian. It is a course for anyone interested in speaking the language and learning more about the culture. Listening, speaking, and vocabulary building will be emphasized, but also essential verb tenses and grammar will be introduced in order to use dialogues for different types of speaking situations. Games, songs, dialogues, pictures and small group activities in the classroom will make learning a more enjoyable experience. Required text is *Buongiorno Italia* by Cremona, available at the University Bookstore.

Luigina Cerri, has taught both Italian and French in several different schools including CU Boulder.

Mondays, September 14-November 16, 6:30-8:30 p.m. 10 sessions. Hellems 271. $75.

NCFL-7
Intermediate Conversational Italian
A more advanced course for students who have had beginning Italian or equivalent and would like to complete the textbook, learn more vocabulary, tenses and moods, and improve their conversational skills. Required text is *Buongiorno Italia* by Cremona, available at the University Bookstore on campus. Hand-outs provided in class.

Fanny Santona Madronich, M.A., instructor at CU Boulder.

Tuesdays, September 15-November 17, 7-9 p.m. 10 sessions. Hellems 271. $75.

NCFL-8
Beginning Conversational Spanish
Spanish for travelers. Basic but lively conversational Spanish for travel to Spanish-speaking countries. Course includes short field trips during class time to emphasize practical vocabulary.

Elizabeth Medina, Full Professor, Loretto Heights College.

Tuesdays, September 15-November 17, 7-9 p.m. 10 sessions. Hellems 255. $75.

NCFL-9
Intermediate Conversational Spanish
Designed to increase vocabulary and conversation ability for travelers. Cultural and social aspects will be introduced. Prerequisite, beginning Spanish or equivalent.

Elizabeth Medina, Full Professor, Loretto Heights College.

Thursdays, September 17-November 19, 7-9 p.m. 10 sessions. Hellems 255. $75.

NCH-2
The Fascinating History of Colorado Railroads
The colorful development of Colorado's railroads will be traced through fact, lore, and legend. Mining and lumbering were early important factors, but so were bribery, gunfighting, political maneuvering, weather, and drunken barroom scenes. Topics include feats of heroism and despicable actions, explored from a humanistic point of view, as they influenced spinning the steel web which would become Colorado's fabled rail network. Seventh class (field trip) to be arranged. Bob Rothe, a railroad hobbyist for 40 years and a "student" of American railroads and their history, has hiked about 300 miles of railroad grades in Colorado and elsewhere.

Thursdays, September 17-October 29, 7-9 p.m. 7 sessions. Geology 108. $53.

History

NCH-1
Forest Crossen's Colorado
Forest Crossen, popular local historian, will deliver a series of five lectures highlighted by his unique insights and personal experiences. Lecture topics concern fascinating old time culture and people — artists, miners, and many others — in a personalized view of Colorado history. Mr. Crossen draws from a wealth of western knowledge; he has written 12 books of true western stories entitled Western Yesterdays. All those interested in Colorado will find these lectures rewarding. Extra time is reserved for questions.

Forest Crossen, historian and writer.

Wednesdays, September 30-October 28, 7-8:30 p.m. 5 sessions. Hellems 185. $30.

Investments

NCF-1
Investing for Income
Seminar presents methods of investing for income in today's changing economic and investment environment. Covers guarantees, safety, risk, and tax implications. Anybody needing income should be interested: CDs, money market funds, banks, savings and loans, corporate bonds, preferred stocks, tax-free investments, fixed annuities, variable annuities, immediate annuities.

Peter J. Poletti, M.B.A. in Economics and Finance, First Vice President at Dean Witter Reynolds.

Wednesday, November 18, 6:30-8:30 p.m. 1 session. Business 208. $15.
NCI-2
Investment Strategies
Demystify the wide range of investment opportunities and learn how to select and manage investments to suit your own objectives. This course will sharpen your understanding and your investment skills, and help make your money grow. Topics include: money growth, the golden thread, safety, liquidity, diversification, growth of value, interest and dividends, guarantees, minimizing taxes, professional management, money market funds, cash management, CDs, zero-coupon bonds, GNMA's, corporate and municipal bonds, unit trusts, tax-free investments, stocks, utilities, real estate, mutual funds, options, precious metals, commodities.
Peter J. Poletti, M.B.A. Economics and Finance, First Vice President at Dean Witter Reynolds. Wednesdays, September 23-October 21, 6:30-8:30 p.m. 5 sessions. Business 208. $30.

NCI-4
Stock Market Investments
This course is aimed at the person who wants to take concrete steps toward planning his/her financial future with a special eye on today's stock market. Using check-lists provided, each person can individualize specific types of investments most appropriate to the current situation and periodically revise the plan based on changed goals and needs. The course is oriented toward those concerned with stocks, technical analysis, tax shelters, and basic longer-term financial planning. Required book is *How to Buy Stocks and Bonds* by Louis Engle, available at the University Bookstore.
Arnold Hart, B.A. Cornell, M.A. Syracuse and Vice President of Investments at Prudential-Bache and Mary Wright, B.A. University of Colorado, investment broker at Prudential-Bache. Tuesdays, October 13-December 1, 7-9 p.m. 8 sessions. Business 208. $60.

NCI-5
Stock Market Profits
This course covers insights, tools, and strategies for success in the stock market: how to find the big winners; how to be in phase with the market; how and when to sell; how to handle psychological pressures and emotion; how to do effective fundamental analysis; how to apply technical analysis and charting; how to develop an overview that leads to profit.
Peter J. Poletti, M.B.A. Economics and Finance; First Vice President at Dean Witter Reynolds. Wednesdays, October 28-November 11, 6:30-8:30 p.m. 3 sessions. Business 208. $23.

NCI-3
Investing Without Your Emotions
An interactive seminar addressing the topic of investing in the securities industry and the psychological implications involved. The sessions will bring into light the emotional tug-of-wars that arise from both new and experienced investors while investing. Basic fundamental and technical analyses will be studied and discussed for their effectiveness. No previous investment experience will be necessary. Book required When To Sell, Justin Mammis, available at the University Bookstore. In Sue Kim, B.S. Rice University. Investment broker, A.G. Edwards & Sons. Tuesdays, September 15-October 13, 6:30-8 p.m. 5 sessions. Business 354. $30.

NCI-1
Biofeedback Stress Management
This course focuses on the origins of stress at personal, biological, and psycho-social levels. Stressors and symptoms are identified and methods for coping and adjusting to stress are taught. Principles of biofeedback are demonstrated and used to counteract stress through the application of health care principles and self-regulation. Skills acquisition is the goal while tension, teeth grinding and clenching, depression, headaches, and anxiety are the topics.
Toby F. Link, Ph.D. University of Michigan, Psychotherapist. Mondays, October 5-November 2, 7-9 p.m. 5 sessions. Hale 6. $38.

Lifestyle

NCI-2
The Dynamics of Working with Others
The basis of a workable relationship with others is the understanding of the stylistic tendencies of the people that we deal with throughout our personal and professional lives. We will examine various people skills and strategies to help ourselves and others maximize clarity and creativity while minimizing the confusion and habitual tendencies associated with the basic styles manifest in human personality. Lab fee $5 for hand-out material.
Ernest Porps, M.A. Architecture, M.F.A., registered architect, Professor of Fine Arts at CU Denver. Tuesdays, September 15-November 13, 6:30-8:30 p.m. 5 sessions. Duane Physics G116. $38.

NCI-3
Eating As If Your Life Depended On It
You cannot afford to be ignorant, confused or misled about the nutrition facts. What you eat today affects your immediate energy levels and mood. The cumulative effects of your daily diet determine your risks of having heart disease, certain types of cancer, osteoporosis, high blood pressure and other serious diseases. In this one day seminar, learn why eating fish could be great for your heart, the five types of fiber and the food source of each; why calcium supplements may be hazardous to your bones; three dietary ways to reduce your cancer risk; which vitamin supplements are right for you; where you can find reliable nutrition information; how to lose weight without starving yourself; why butter is better for you than margarine; how to strengthen your immune system through nutrition. Tuition includes extensive hand-out materials.
Peggy Phillips, M.Ed. Nutrition Educ., Tufts Univ.; registered dietitian/nutritional consultant. Section I: Saturday, October 3, 9:30 a.m.-5 p.m., UMC 230. Section II: Saturday, November 21, 9:30 a.m.-5 p.m., UMC 225. Both Sections: 1 session. $32.
NCL-4
Handwriting Analysis: An Aid to Learning
You are what you write. Handwriting reflects your real personality — how you approach life's events, how you set goals and pursue their achievement, how you problem solve, your fears and how you cope with them. This course provides an introduction to Graphoanalysis, the only scientific method of handwriting analysis. You will learn specific principles and techniques and then apply them to strokes of actual handwriting for a better understanding of yourself and others. Course materials will cost approx. $15 and will be available at the first class. Carol Ford, B.S. nursing, certified Graphoanalyst, has private practice in handwriting analysis. Tuesdays, September 22-October 13, 6:30-9 p.m. 4 sessions. Geology 127. $38.

NCL-5
Inner Power — Making Your Life and Career Work
If you’re not getting all you can from your life and work; if you’ve reached a transition or are uncertain where to go next; or if you don’t feel totally in control of your life — this ten session course will help you address these key issues. It will give you an awareness of where your many strengths and abilities lie in order to get your life in better balance. Part of reaching this balance is understanding how brain integration affects decision making. In addition, this course will help you discover the inner qualities that enable you to deal with change in your life. The Myers Briggs Type Indicator will be used as an assessment vehicle and is included in the course fee. Texts: The Three Boxes of Life, by Richard Bolles; and The Warrior Within: A Guide to Inner Power, by Shale Paul. Shale and Candy Paul, authors, management consultants. Saturdays, September 19-November 21, 9 a.m.-noon. 10 sessions. Duane Physics G131. $125.

NCL-6
Learning How to Learn
Designed for anyone interested in how to make the most from their particular learning style, this course offers successful, lifelong tools with practical application for home, school and business. Enthusiastic instruction includes time management, organizational skills, reading, notetaking, memory, test-taking strategies, etc. Students of any ability will identify their specific strengths and learn to apply a variety of techniques to enhance learning and make it fun. Instruction includes lecture and class discussion. Course materials will cost approximately $20. Gloria Frender, author, editor, educational consultant. Tuesdays, September 15-October 20, 7-9 p.m. 6 sessions. Engineering Building 1-26. $45.

NCL-7
Parenting the Gifted/Talented Child
Parents of the gifted and talented, like their special children, are often in need of direction and support. The course will include effective parenting, emotional/social development, resources for children and parents, appropriate issues such as the gifted girl, preschool, adolescence, underachievement. This seminar is especially designed for parents of gifted/talented children, although educators are welcome. Bring a brown bag lunch, and we will share concerns about individual children. Dorothy Knopper, M.A. Consultant in Gifted Education to parents and schools. Saturday, November 21, 9:30 a.m.-3:30 p.m. 1 session. Duane Physics G-025. $23.

NCL-8
Psychology of Intimate Relationships
What goes wrong in intimate relationships and why? Why intimate relationships are so hard to find and maintain; the function of power struggles, arguments, conflicts and affairs; how to evaluate a potential partner before you get too emotionally involved. This seminar will preview the instructor's forthcoming book by the same title. Neil Rosenthal, Psychotherapist/Marriage Therapist. Saturday, October 24, 10 a.m.-5 p.m. 1 session. UMC 422. $27.

NCL-9
Psychology and Sports Performance
This course will help you improve your athletic performance by developing the mental side of your training program. Topics to be covered are: motivation and training, injury prevention and rehabilitation, applied stress management, mental rehearsal techniques, neuro-muscular memory training, poise, concentration, centering, and how to handle anger, fear and other unproductive emotional states. The course is designed to teach skills which can enhance your performance and boost your sense of personal satisfaction.

Stephen E. Walker, Ph.D., consultant to the Human Performance Lab at CU Boulder, Director of the Rocky Mountain Institute for Health and Performance and T.C. North, M.S. Mondays, September 21-October 19, 6:30-9:30 p.m. 5 sessions. Duane Physics G-025. $57.

NCL-10
Understanding and Developing Your Creative Self
The goal of this experiential course is to free up untapped energy, explore it, develop it, and discover enriching and innovative applications in our everyday lives. Using imagination, visualization and humor, we can dissolve mental blocks and limiting beliefs which act as barriers to our creative self-expression. Fun, yet practical, exercises will involve communication skills, goal setting, problem solving, self-awareness, and creative mind expansion. Then, through understanding and integrating both sides of the brain, we can learn to make whole brain decisions in order to create more joy and balance in our lives. Finally, guest speakers from diverse fields will inspire and motivate us all, while providing valuable resources for further creative endeavors. Textbook: The Brain User’s Guide by Tony Buzan, available at the University Bookstore. Bette Griff, B.S. Business, gives workshops on creativity in the Boulder/Denver area. Wednesdays, September 30-November 18, 7-9 p.m. 8 sessions. Porter Biosciences 123. $60.
### NCL-11
**You and Your Aging Parents**

"You've always been dependent upon your parents, now they're dependent upon you. How do you cope with this new role and make effective decisions while at the same time meeting your own needs? This three-week course will cover the emotional components, communication skills, as well as recognizing problems (normal vs. pathological aging), and knowing how and when to intervene. Community resources and the topic of placement (alternatives and when it's appropriate) will be reviewed.

Shelley Kapel, M.S.W. University of Houston. Tuesdays, September 22-October 6, 6:30-8:30 p.m. 3 sessions. Duane Physics G-025. $23.

### NCO-2
**Elk Behavior**

Learn about elk behavior and their courtship. Fall is the time of year to hear elk bugle, a beautiful flute-like whistle which the bull cries out to claim his territory. We hope to hear this sound plus, with luck, see the animals. Big game behavior of other mammals will be discussed including bear and deer. The group will also observe and study beaver evidence. Fall botany will be touched upon. Carpooling. Bring money for dinner in Rocky Mountain National Park area.

Tina Jones, B.S. University of Denver. Naturalist/biologist. Friday, October 9, 6-7 p.m.; Saturday, October 10, 11:30 a.m.-10:30 p.m. 2 sessions. Hale 105. $30.

### NCO-3
**Hawks, Bald Eagles**

Do you realize that Colorado rates high in the nation for number of wintering bald eagles? The eagles are found out east along the Platte River, and in the surrounding Boulder area. Class emphasizes specific raptor and hawk identification beyond the normal bird field guides. Owl identification will be stressed also. Carpooling. Binoculars helpful. Trip dependent upon weather.

Tina Jones, B.S. University of Denver. Naturalist/biologist. Thursday, December 3, 7-9 p.m.; Saturday, December 5, 8:30 a.m.-4 p.m. 2 sessions. Hale 105. $28.

### NCO-1
**Cruising Under Sail: Sailing, Seamanship, Navigation**

Comprehensive, practical "hands-on" working seminars for all sailors — novice, barnacled old-salts, or armchair adventurers — who wish to learn more or improve working skills. Course topics include: celestial navigation in perspective; review of basic navigation; time and time keeping; chartwork plotting; working with sextants; sight reduction techniques; operational shortcuts; celestial landfalls; emergency celestial navigation; stars' and planets' identification and finding; celestial applications and procedures in air navigation; state of the art and future trends. There will be extensive sextant practice sessions and related plotting and chartwork to provide all participants with sound working skills. There are no prerequisites or any other requirements other than the criteria of interest.

Bill Plywasky, Ph. D. physics, master navigator, sailed large and small boats all over world.

Tuesdays, September 29-October 17, 6:45-9:15 p.m. 8 sessions. Halems 245. $75.

### NCO-4
**Waterfowl, Loons and Geese**

Did you know that certain birds migrate through Colorado in November that are pretty hard to find other times of the year? With luck, class may see either a greater white-fronted goose or a snowgoose. This is the time of year for loons and common red-breasted mergansers. Unusual gulls start to appear in November. With luck, we may find a Barrow's Goldeneye. Beginners and beyond-beginners are all welcome. We will be looking for some of these specialties; plus identifying hawks, perching birds, and lots of waterfowl. General characteristics of the birds will be mentioned. You need not be a birder to take this class. No guarantees to see all the uncommon birds, but we will have fun looking for and identifying Colorado birds that are common in November.

Tina Jones, B.S. University of Denver. Naturalist/biologist. Wednesday, November 11, 7-9 p.m.; Sunday, November 15, 8:30 a.m.-4 p.m. 2 sessions. Hale 104. $28.

### NCT-1
**Preparing for the SAT/ACT**

This intensive two-day course provides test-taking skills and techniques which are essential for improving performance on the "SAT" and "ACT." Each of the test question areas will be analyzed extensively, with special consideration given to a math and verbal refresher. The course is designed to reinforce a student's ability to deal skillfully with basic and advanced math concepts (including fractions, decimals, percentages, ratio, proportion), as well as algebraic and geometric concepts. Appropriate and effective word usage will also be covered as well as logical presentation of ideas. Lectures will also discuss techniques of evaluation and analysis of the readings in social and natural sciences which appear on the tests.

Scott Hatch, M.A., J.D.
Section I: Saturday & Sunday, September 19 & 20, 9 a.m.-5 p.m.
Section II: Saturday & Sunday, October 31 & November 1, 9 a.m.-5 p.m. Both Sections: 2 sessions. Guggenheim 2. $79.

### NCT-2
**Preparing for the Graduate Management Admission Test (GMAT)**

A special course offered to prepare students for the GMAT. Areas covered include: Math Ability (Problem Solving), Data Sufficiency, Reading Comprehension, Sentence Correction, Business Judgment (Analysis of Situations), and Critical Reasoning. A short review of algebra and geometry is also included.

Bobrow Testing Services
For October 17 — Saturdays, September 19-October 10, 9 a.m.-1 p.m. 4 sessions. Porter Biosciences E113. $135.
NCT-3
Preparing for the Graduate Record Exam (GRE)
Analyze and review basic skills tested on the Graduate Record Exam. Emphasis is on test-taking skills and review of relevant verbal, math, and analytical problems. Text is *Practicing to Take the GRE General Test*, published by Educational Testing Service, available at the University Book Center, UMC 10, and other optional texts as given in class. Courses are structured to lead up to exam date. Course is not a general review of text-related material, but completely test oriented and intended for those taking the GRE.
Roe Willis, Ph.D. and Terri Bodhaine, M.A.
Section I: (For October 10 test) Tuesdays and Thursdays, September 15-October 8, 6:30-9 p.m.
Section II: (For December 12 test) Tuesdays and Thursdays, November 10-December 10 (no classes Thanksgiving week), 6:30-9 p.m.
Both Sections: 8 sessions.
Duane Physics G131. $75.

NCT-4
Preparing for the Law School Admission Test (LSAT)
For persons planning to take the Law School Admissions Test (LSAT), this course offers intensive review, preparation, and sample testing in all areas of the new LSAT format, including application of issues and facts, reading comprehension, writing sample, logical reasoning, and analytical reasoning. Emphasis is on taking similar exams with full explanations and interpretations provided by highly skilled testing and legal faculty. The course fee includes extensive materials covering all aspects of the exam.
Scott Hatch, M.A., J.D.
Section I: Friday, September 25, 6-10 p.m., and Saturday & Sunday, September 26 & 27, 9 a.m.-5 p.m.
Section II: Friday, November 20, 6-10 p.m., and Saturday & Sunday, November 21 & 22, 9 a.m.-5 p.m.
Both Sections: 3 sessions.
Guggenheim 2. $145.

Writing

NCW-1
Creative Writing
For those who have always wanted to write or seek fresh approaches to self-expression. Life is a story. An individual's experience is rich and unique. Emphasis is on self-discovery, developing one's own voice, and communication with words rather than on publication.
Barbara Steiner, professional writer.
Wednesdays, September 16-November 18, 6:30-8 p.m. 10 sessions.
Hellem's 229. $57.

NCW-2
Editing
A brief overview of the practical approach to learning the editorial process. Students learn how to turn raw manuscript into a brochure, article, newsletter, book, etc. Focus on organization, style, grammar, copyfitting, proofreading. Discussion on how to find freelance jobs, how much to charge. Hands-on editing experience is limited, but extensive hand-out material is provided.
Linda Loewenstein, freelance editor.
Saturdays, October 24 & 31, 9 a.m.-noon. 2 sessions.
Ketchum 234. $23.

NCW-3
English Writing Made Simple
Correct, clear communication is mandatory in the business world and in the classroom. Advancement, promotions, and top grades depend upon it. Learn correct grammar, punctuation, and sentence structure as basic fundamentals of improved writing. Emphasis is given to correct usage. Textbook is about $20.
Jean Thyfault, editor, conducts writing seminars for businesses.
Thursdays, September 17-November 5, 7-9 p.m. 8 sessions.
Hellem's 271. $60.

NCW-4
How to be a Successful Travel Writer
This seminar is for anyone who enjoys traveling and wants to get paid for it! We will cover advance research, making contacts, freebies, querying writers, photography, syndication, copyrights, manuscript preparation and much more.
Jacquelyn Peake, M.A. Journalism, Professional lecturer & writer.
Saturday, October 10, 9 a.m.-4 p.m. 1 session.
UMC 235. $72.

NCW-5
Novel Writing
The purpose of this course is to teach the would-be novelist the techniques employed by the successful novelist. Learn how to write a novel or to complete one you've started. Emphasis is on learning craftsmanship without restricting creativity. Students will share material in workshop atmosphere. You may set as a 10-week goal the completion of a synopsis and two sample chapters for querying a publisher. Your interest may lie in the adult, teen, or junior novel.
Barbara Steiner, professional writer.
Wednesdays, September 16-November 18, 8-9:30 p.m. 10 sessions.
Hellem's 229. $57.

NCW-6
Poetry — Creative Writing
If you write poems, or would like to write a poem, this course is designed for you. Come prepared to share your work in a constructive atmosphere. Information on how and where to submit your poems for publication will be available for the more serious poets.
Victor Pearn, M.A., Creative Writing.
Published poems in several literary magazines since 1976.
Wednesdays, September 16-November 4, 7-9 p.m. 8 sessions.
Ketchum 118. $60.

NCW-7
Writing for Magazines
Develop your own style and critiquing skills. Learn the basics of magazine article writing, including how to find ideas, manuscript preparation, research, query letters, marketing, and interviewing. Article types covered include travel, human interest, self-help, essay, science and technology, hobby and craft, and more.
Deidre Elliott, professional writer.
Mondays, September 14-November 2, 7-9 p.m. 8 sessions.
Ketchum 207. $60.
Special Professional Programs

A university that aspires to achieve lasting stature seeks out — and attracts — unusually talented individuals. Special Professional Programs provides an intensive arena designed to bring lively minds to bear on uniquely conceived, compelling subjects of topical currency. For the instructor/facilitator, or the presentation team, the attraction of presenting these programs is their forward-looking or interdisciplinary nature as well as the opportunity to apply knowledge in real-life terms. For practitioners, these special programs provide contact with specialists and subject matter that can be unique in several respects. These programs are distinguished by their dynamic approach to a field. Often presenting an unusual combination of specialists, they strive to bring significant depth to subjects that deserve more intensive treatment than they usually receive.

Special Professional Programs can help you progress in fast-evolving fields because they adopt a more applications-oriented approach than is possible in less-intensive formats. They offer you the opportunity to study under conditions conducive to here-and-now outcomes. Drawing on case study and personal applications approaches, these highly-interactive one and two-day seminars can help you stay on top of new information and provide you with fresh ideas to achieve personal and organizational goals. At their best, such programs can galvanize audiences and instructors in ways that are exhilarating, mind-expanding, and conducive to enduring intellectual value as well as to real-world applications.

This results-oriented training, intended for business and industry, government, and non-profit organizations, is frequently applicable to certificate programs described and cross-listed in this catalog. Specially-tailored programming for your own organization can also be arranged. Advance registration is necessary and should be completed two weeks prior to the program date. Group discounts are available for some seminars. Call 492-5148 or toll free in Colorado, 1-800-332-5839 to register.

Achieving Professional Independence: How to Enter the Consulting and Seminar Industry

Consulting is one of the fastest growing professions in the country. Is this an option for you? This two-day program will take you step-by-step through the process of entering professional consulting and "seminaring" successfully. The emphasis will be on proven techniques for getting started: methods for assessing and documenting your ability, knowledge, and experience; data about the consulting and seminar markets; the economics of consulting; setting your fees; and contracting for your services. You will receive a manual with detailed guidelines on becoming a professional consultant, and you will have opportunities for individual conversations with Dr. Falkenstein to develop your own model for entering this field. Course fee includes all materials, course manual, lunch and refreshment breaks. Lynda C. Falkenstein, Ph.D. Friday and Saturday, October 23 and 24, 9:00 a.m. - 4:00 p.m. Two all-day sessions. 1.2 CEUs. Clarion Hotel. $250. 50
**Communicating for Results**

Most of us operate on "automatic" in our everyday communication. Even when we think about what we are trying to accomplish through other people, we often lack sensitivity to the way others react to us. We may wonder how we come across to others, but we rarely have opportunities to learn precisely how we are doing. This program identifies areas that are critical to being understood and getting results. It focuses on listening skills, the choice of language, and the ability to interpret feedback accurately. Psychological dimensions of effective one-on-one communication will be addressed, in particular empathy and male/female differences in verbal and nonverbal communication. This program qualifies for the Management Development Certificate Program. See page 17 for details. Course fee includes lunch and refreshments.

Audrey Nelson-Schneider, Ph.D.
Friday, September 18, 9:00 a.m.-4:00 p.m.
One all-day session. 6 CEUs.
Clarion Hotel. $75.

---

**How to Work Smarter**

Improve your productivity by learning practical techniques guaranteed to eliminate time wasting behaviors, improve concentration, relax in the face of tension and stress-producing situations, and replace frustration with confidence and enthusiasm. Learn how to prevent burnout and achieve balance in your life. This seminar will also focus on skills such as delegating effectively, problem solving, and developing better working relationships. The program is designed for people at all levels in an organization. This program qualifies for the Management Development Certificate Program. See page 17 for details. Course fee includes lunch and refreshments.

Randy Bauer, M.B.A.
Friday, September 25, 9:00 a.m.-4:00 p.m.
One all-day session. 6 CEUs.
Clarion Hotel. $75.

**Improving Customer Relations**

The quality of customer service is the feature that most frequently distinguishes thriving businesses and organizations from those that are unsuccessful. Whether on the phone or face-to-face, it requires only seconds for a customer or client to gain a positive or negative impression of an entire organization. Are customers always right? No, but they are always the customer and their experience with you will be relayed to numerous potential customers by word of mouth. This program focuses on identifying and satisfying customer needs, and resolving problems, by asking the right questions, listening effectively, drawing out the quiet customer and establishing rapport. Particular attention is given to handling the angry or demanding customer. What should be the first response to an angry customer? How do you convey courtesy and respect in potentially explosive situations? What are the ways to turn an angry customer into a responsive one? This program qualifies for the Management Development Certificate Program. See page 17 for details. Course fee includes lunch and refreshments.

Randy Bauer, M.B.A.
Tuesday, December 8, 9:00 a.m.-4:00 p.m.
One all-day session. 6 CEUs.
Clarion Hotel. $75.

---

**How to Hire and Promote the Right People**

The procedures and decisions in hiring and promotion have become increasingly demanding. This program emphasizes skills and techniques you can use to identify the best available applicants, conduct thorough nondiscriminatory interviews, and hire the most capable candidate. Topics include what to look for when reviewing the application, how to establish the appropriate interviewing atmosphere, methods to ensure consistency, and asking the right questions. Documentation of interview data, including how and when to record key information is also covered. This program qualifies for the Management Development Certificate Program. See page 17 for details. Course fee includes lunch and refreshments.

Randy Bauer, M.B.A.
Friday, October 30, 9:00 a.m.-4:00 p.m.
One all-day session. 6 CEUs.
Clarion Hotel. $75.

**Managing People**

No skill is more in demand, or more difficult to master, than getting things done through other people. In highly pressured periods, such as the approaching holidays, the ability to work effectively in order to bring out the best in other people is a major factor in professional success. This program emphasizes approaches to motivating others to reach their potential, how to keep lines of communication open, and how to determine the right approach to leading others. You will assess your personal strengths and identify ways to build on them to maximize performance. The "no-lose" method of conflict management will be addressed as a key element in building respect and trust within a system that balances individual and organizational needs. This program also qualifies for the Management Development Certificate Program. See page 17 for details. Course fee includes lunch and refreshments.

Randy Bauer, M.B.A.
Friday, November 13, 9:00 a.m.-4:00 p.m.
One all-day session. 6 CEUs.
Clarion Hotel. $75.

---

**Motivating Groups**

Even the best one-on-one communicators need to alter their approach when working with groups. Whether you assume leadership roles or want to be a more effective member, you need to know the basics of communication in groups. This program looks at all facets of group communication, but the emphasis is on groups that make decisions through face-to-face interactions. The group decision-making process will be examined, with special attention to leadership, communication patterns, creativity, and conflict management. You will learn how to analyze groups and move them toward greater productivity. Identification of dysfunctional behaviors and roles will be addressed, along with methods for handling barriers to group effectiveness. This program qualifies for the Management Development Certificate Program. See page 17 for details. Course fee includes lunch and refreshments.

Audrey Nelson-Schneider, Ph.D.
Friday, November 20, 9:00 a.m.-4:00 p.m.
One all-day session. 6 CEUs.
Clarion Hotel. $75.
**NCB-8 \nResort Condominium Management**

This course is designed to give the participant an understanding of the management of the resort condominium. The following topics will be discussed: organization and structure of the association, property analysis, consequences of new tax law, management contracts, relationships to the real estate industry, and specifics on the management of the resort hotel condominium. This course is an overview for resort and hotel personnel, condominium association officers and members, real estate salespeople and brokers, architects, developers, and commercial recreation students. Additional registrations from same company $100 each.

Gerald G. Hewey, C.H.A.
Thursday, October 22, 9:00 a.m.-5:00 p.m., Friday, October 23, 9:00 a.m.-4:30 p.m. and Saturday, October 24, 9:00 a.m.-12:00 p.m.
Two all-day and one half-day sessions.
2.0 CEUs. Events/Conference Center. $150.

**MDB-21 \nSkills for the Newly Appointed Supervisor**

Organizations are uniquely challenged by internal and marketplace pressures that eode morale, increase errors and absenteeism, and lead to numerous restructuring activities that result in less loyalty and commitment from employees. The emphasis of this program is on identifying your supervisory style and strengths and the steps in creating an atmosphere conducive to achievement, commitment, and cooperation. Special attention will be given to winning trust, handling meetings, getting your point across to unsatisfactory performers, hiring and promoting the right people and anticipating others' behavior. You will learn techniques for perfecting your supervisory style, using your strengths effectively, heeding the warning signs when a strength can become a weakness, and asserting your influence as a supervisor to achieve acceptance of your ideas. This program qualifies for the Management Development Certificate Program. See page 17 for details. Course fee includes lunch and refreshments.

Randy Bauer, M.B.A.
Thursday, October 15, 9:00 a.m.-4:00 p.m.
One all-day session. 6 CEUs.
Clarion Hotel. $75.

**MDB-28 \nWorking Successfully With Multiple Bosses**

Based on the book *Working Solutions From Working Secretaries*, this seminar features field-tested ideas collected from secretaries around the country. It is led by an instructor with ten years of secretarial experience. This program doesn't stop at solutions for prioritizing time and staying on top of the job. It also presents methods for managing many different personalities, assessing office roles, and avoiding office politics. You will leave with the tools to gain respect and recognition, increase your job satisfaction, and renew your effectiveness. Topics also include team-building and self-presentation techniques. You will receive a summary sheet and an action plan based on: 1) tips from experienced secretaries; 2) educational theory, with applications steps; and 3) real-life illustrations and self-assessment tools. This program also qualifies for the Management Development Certificate Program. See page 17 for details. Course fee includes materials, lunch and refreshment breaks. Textbook is optional.

Shelly Ann Espinosa, M.S.W.
Wednesday, November 4, 9:00 a.m.-4:00 p.m.
One all-day session. 6 CEUs.
Clarion Hotel. $75. Optional text $11.95.
Live-via-Satellite Teleconferences:
Events combining national and regional expertise

**A MEDIUM FOR STATE-OF-THE-ART INFORMATION**

Video teleconferencing is the newest, most economical way to stay current in fields and activities where the pace of change outstrips any individual's ability to keep up. CU-Boulder teleconferencing is "live"—teams of presenters and panels are put together representing the cutting edge of a field. These "how to" specialists who can speak to the future authoritatively, with practical, here-and-now answers to the questions that Colorado audiences and others across the country can ask satellite presenters directly throughout the teleconference day.

**A MEDIUM THAT PUTS THE AUDIENCE FIRST, USING STATE-OF-THE-ART EQUIPMENT**

Staff of the Division of Continuing Education and of the Events/Conference Center at The University of Colorado at Boulder have developed and equipped a customized facility acknowledged to be one of the most outstanding of its kind. The flexibility of six ample meeting rooms and a 5,000 seat arena allows diverse audiences to be accommodated simultaneously. Located on the campus near the corner of Colorado Avenue at Regent, one block west of 28th Street, the facility offers easy access and ample parking.

A large screen General Electric Talaria projection system is supported by a permanent antenna capable of receiving from virtually all of the present generation of educational satellites. In addition, a portable antenna capable of receiving presentations via the newer KU-band is available for off-campus sites.

**A MEDIUM FOR PRACTICAL APPLICATIONS AND DYNAMIC COMMUNICATION**

The visual medium lends itself to animated graphics, charts, fieldwork sequences, demonstrations, on-site interviews and case studies that allow audiences to translate information into practical applications on the spot. Its visual quality and "liveness" attracts experts who like the combination of dialogue with audiences around the country and the potential to demonstrate ideas in a visual laboratory in which everyone has a front row seat. The dynamic intensity of national teleconferencing sets it apart from traditional face-to-face meetings in its scale and the power of the medium to focus attention.

**A MEDIUM FOR TRAINING & DEVELOPMENT**

Teleconferencing has several key features that are combined dynamically. A typical teleconference will commence with an on-site team of experts who introduce and set the stage for the topic. Live-via-satellite presentations are reinforced by detailed agendas, workbooks, and sometimes texts and worksheets in a take-home packet. Throughout the day there are live question/answer sessions interspersed with presentations and demonstrations. The on-site team wraps up the day with a local and regional perspective on the subject—and answers remaining questions.

Colorado audiences rate teleconferencing to be as good or better than traditional conferencing, pointing to the convenience and quality of teleconferences and to the currency and credibility of information via satellite. Teleconferencing is a transparent medium that puts a premium on real-world expertise that is replicable in many settings.

Teleconference fees for participants are all-inclusive, covering materials, parking, and catered meals.

**A MEDIUM FOR DIVERSE TOPICS**

Teleconferences are suited to a global range of topics, including: business management, marketing, global trade, small business skills, new industrial and information technologies, advances in engineering, personnel supervision, productivity, the health care industry, physical fitness, new directions in teaching and student affairs, and professional development skills.

**A MEDIUM THAT IS PROFESSIONALLY STAFFED**

Through its charter membership in the 200-campus National University Teleconference Network founded in 1982, the Division of Continuing Education receives continuous announcements of teleconference opportunities. The Division has published nationally in the teleconference field and has conducted training and consulting projects with agencies on planning and managing their own teleconferencing, using campus or other facilities. Cosponsorship of teleconferences is frequent, enabling organizations and associations to use their training and development resources more effectively by drawing on Division staff and by taking advantage of opportunities to lend their name to teleconference events.

**PLEASE CONTACT US TO TAKE ADVANTAGE OF TELECONFERENCING**

To be placed on our mailing list or for more information, write: Becky Duning, Teleconferencing, Division of Continuing Education, University of Colorado at Boulder, Campus Box 178, Boulder, Colorado 80309-0178. Visit us at: 1221 University Avenue; or call: 303-492-6596 or 492-5148; in Colorado, outside the Denver/Boulder area, call toll free: 1-800-332-5839.
Cooperative Real Estate Certificate Program

Looking for a career in real estate, advancement in your current real estate related profession, or do you simply want to learn more about the real estate industry?

The Certificate Program offers over 25 courses in subjects including appraisal, closings, finance, law, property management, commercial and tax factors. All of the required Colorado real estate licensing courses are available through the program. These college level courses are open to all persons and can provide you with valuable information related to this important field.

For more information and course registration, call the Division of Continuing Education, Real Estate Education, 492-8666, 8:30 a.m.-5 p.m., Monday through Friday. If you are out of the Denver-Boulder local calling zone, please dial 1-800-332-5839.

For additional information about courses offered and cities served in Colorado by this statewide program, call 492-8666 for a detailed real estate brochure.

Mandatory Real Estate Sales License Preparation Courses in Boulder
RE-7 Practice and Law (48 hours)
RE-18 Colorado Contracts and Law (24 hours)

RE-7 Practice and Law

Designed to meet the educational requirements for the Colorado real estate sales examination, the course offers a comprehensive survey of the real estate field for those who intend to enter the profession as well as others who desire a basic knowledge of real estate markets, real property interests, deeds, land descriptions, property transfers, contracts, finance and appraisal. Course begins with an examination of fundamental concepts and vocabulary, including Colorado license law and the law of agency.

Night Course. 14 sessions.
Tuesday and Thursday, September 29 to November 12, 6:30 p.m. to 9:55 p.m.
Location: Engineering Building, Boulder Campus.
Tuition: $225 plus textbooks.

Daytime Course. 6 sessions.
Friday, Saturday, Monday, Tuesday, Thursday, Friday, January 8, 9, 12, 13, 15, 16, 8:30 a.m. to 5:30 p.m.
Location: Holiday Inn, 800 28th Street, Boulder.
Tuition: $225 plus textbooks.

RE-18 Colorado Contracts and Law

A practical course covering Colorado license law and analyzing the standard listing contract, the sales contract, the extension agreement, and counterproposal. Special emphasis will be placed on understanding each clause and on properly completing each type of contract.

Night course. 7 sessions.
Tuesday and Thursday, November 17 to December 10, 6:30 p.m. to 9:55 p.m.
Location: Engineering Building, Boulder Campus.
Tuition: $110.

RE-26 Finance and Advanced Law

Course is designed to provide the real estate professional with an understanding of the institutions and instruments important to the financing of real estate. Subjects covered include the mortgage and deed of trust, various sources of funds (conventional, V.A., and F.H.A., the owner-seller, etc.) and a number of alternative financing methods. Recent Colorado court decisions will be studied with an eye toward understanding the court's interpretation of Colorado statutes and the implications for real estate practice.

Daytime Course. 3 sessions.
Wednesday, Thursday, Friday, September 16, 17, 18, 8:30 a.m. to 5:30 p.m.
Location: Holiday Inn, 800 28th Street, Boulder.
Tuition: $110.
**RE-28**  
**Real Estate Closings and Trust Accounts**  
The course offers an in-depth study of the closing statement, including an examination of the contract and a review of the other relevant documents. Primary emphasis will be on the gathering of data, the organization into debit and credit items, and the actual completion of various kinds of closing statements. Maintaining brokerage trust accounts will also be thoroughly covered.  
Night course. 7 sessions.  
Thursday and Tuesday, October 22 to November 12, 6:30 p.m. to 9:55 p.m.  
Location: Boulder Board of Realtors Meeting Room, 4885 Riverbend Road, Boulder.  
Tuition: $110.

**RE-33**  
**Real Estate Appraisal I — Residential**  
This course is an introduction to accepted methods for estimating the value of real property. The course covers fundamentals of real appraisal of both land and improved property and covers techniques used by professional appraisers. Emphasis is placed on the valuation of residential real estate. The course includes a field trip and practical work.  
Daytime Course. 3 sessions.  
Monday, Wednesday, Saturday, October 5, 7, 10, 8:30 a.m. to 5:30 p.m.  
Location: Holiday Inn, 800 28th Street, Boulder.  
Tuition: $110.

**RE-35**  
**Listing and Selling Real Estate**  
The object of this course is to help the real estate agent become more effective in servicing the buyers and sellers by studying successful and workable listing and selling techniques. This includes planning, prospecting, goal-setting, and organization of the agent's time. The course is taught by successful practicing real estate professionals who can relate to the problems that face sales agents.  
Daytime Course. 3 sessions.  
Thursday, Friday, Saturday, November 19, 20, 21, 8:30 a.m. to 5 p.m.  
Location: Holiday Inn, 800 28th Street, Boulder.  
Tuition: $110.

**RE-72**  
**Property Management**  
This course demonstrates the methods of applying the principles of real estate management and covers such areas as rent collection, purchasing, bookkeeping, physical maintenance, leases and contracts, and many other day-to-day skills. In addition to operating techniques, the course attempts to give the student a deeper insight into the long-range welfare of the property as an investment. Sessions on real estate economics and finance, neighborhood and property analysis, depreciation, obsolescence, and deferred maintenance enable the student to learn the meaning of "highest and best use" of investment property.  
Night course. 7 sessions.  
Tuesday and Thursday, September 22 to October 15, 6:30 p.m. to 9:30 p.m.  
Location: Boulder Board of Realtors Meeting Room, 4885 Riverbend Road, Boulder.  
Tuition: $110.

**CONSUMER EDUCATION IN REAL ESTATE**  
Mini-seminars designed for you, the consumer. Learn to be a more effective participant in the real estate transaction. Become informed on how to use the services and opportunities that the professional real estate industry can provide for you. Discover the advantages of owning property. Gain an understanding of the tax benefits for the income earner and the retiring person. Those and other real estate topics are being developed into mini-seminars to aid the consumer. The seminars currently available are listed below. Call 492-8666 for registration or additional information about this new program.

**Everything You've Always Wanted to Know About Buying a House**  
How should you proceed in buying your house or condo? This purchase may be the largest investment you make in your lifetime. We have designed a mini-seminar to lead you through your residential purchase process.  
- Choosing and working with a real estate agent/Realtor.  
- What does the agent do and does the agent work for the buyer or seller?  
- Selecting your residence — style, size, cost, area, amenities, and absolute must-have's.  
- Learn about the qualification, types of loans, and owner financing.  
- Review the legal documents — the contract, deed of trust, title insurance.  
- Analyze the closing costs, review settlement sheets.  
- Handouts of the various Colorado forms are provided.  
Night Course. 2 sessions.  
Tuesday, Wednesday, October 6, 7, 6:30 p.m. to 9:30 p.m.  
Location: Holiday Inn, 800 28th Street, Boulder.  
Tuition (6 hours): $45.

**Tax Implications of Residence Buying and Selling**  
Through the income tax process, Congress has long encouraged citizens to become home owners. What is deductible for the home buyer? Learn about moving expenses (direct and indirect), interest deductions, exceptions, prepaid interest, points and loan fees. Establish the adjusted sale price over of a gain or permanent avoidance. A tax notebook is included in this seminar.  
Night Course. 1 session.  
Tuesday, October 20, 6:30 p.m. to 9:30 p.m.  
Location: Holiday Inn, 800 28th Street, Boulder.  
Tuition (3 hours): $25.

**Real Estate as a Career**  
Why real estate? In business for yourself, low investment, control your destiny...does this sound interesting? Success and failure rates, reasons and aspects of a real estate career will be discussed. Where’s my Mercedes? What is really required in the people business. Choosing a broker. What does he do? Big company vs. small. Where do I look, and what do I ask about? What’s a Realtor?  
Night Course. 1 session.  
Tuesday, September 22, 6:30 p.m. to 9:30 p.m.  
Location: Holiday Inn, 800 28th Street, Boulder.  
Tuition (3 hours): $15.
Independent Study Programs

Independent Study Puts You Ahead of the Crowd.

People who take continuing education courses are people with goals and the motivation to achieve them. Whether you are trying to accelerate your degree or to gain career skills, independent study can let you put your motivation to work without waiting for a semester to begin or for a course to be offered at a time when you can take it. Register anytime. Work at your own pace without interrupting family or employment activities.

Guided Correspondence Study

Independent study through correspondence allows you to begin courses at any time, not tied to the academic calendar. You work directly with an instructor by mail and by telephone. Written assignments are returned to you with grades and comments. Some courses make use of multimedia materials. Many of the courses include self-checking test questions with each unit so that you judge your own progress. Courses may be taken pass/fail or for no credit.

More than 70 college credit courses, approved by the University, are offered in 16 academic areas:
• accounting
• anthropology
• business
• economics
• education
• engineering
• English
• fine arts
• geology
• history
• mathematics
• philosophy
• physical education
• political science
• psychology
• sociology

Individualized Instruction

Individualized Instruction provides an opportunity to earn college credit for course work by meeting with a faculty member in a non-classroom setting. It may be used when you cannot enroll in the course on campus. You may not earn credit for work completed before registering. Registration requires the approval of the faculty member, the department, or school and the appropriate dean.

Professional Certification Opportunities

Noncredit courses are offered so that you can meet Colorado Real Estate licensing requirements or earn certificates in Childhood Education. Noncredit courses are also offered for those who want to develop or improve skills in the Paralegal field. All courses carry Continuing Education Units (CEUs). All course work is by correspondence, graded and commented upon by faculty members who have both academic and professional qualifications.

Real Estate Education

In cooperation with the Colorado Real Estate Commission and the Colorado Association of Real Estate Boards, CU provides independent study courses to meet licensing requirements for real estate salespeople and brokers.
**Childhood Education**

Courses were developed to meet standards established by Colorado law for Preschool Teachers and Preschool Administrators. Certificates are awarded to those who complete a specified series of courses. Courses are open to all who are interested in the growth, development, and education of young children. These courses are especially helpful to childcare center personnel, nurses, social workers, day care home workers, and parents of young children.

**Paralegal Education**

Paralegal Education courses provide opportunities for career minded people to enter or advance in the paralegal profession; legal secretaries may use these courses to improve skills and become more valuable to their employers. Paralegals are employed in private law firms, but more and more paralegals are finding employment in private enterprise and in state and federal government offices.

No states have established certification requirements for paralegals; however, the courses carry Continuing Education Units (CEUs) which are recognized by attorneys as a measure of continuing education.

Each course includes a study guide, textbooks, and audiotapes.

---

**HIGH SCHOOL CREDIT OPPORTUNITIES**

The University of Colorado offers guided independent learning courses for high school students who want to enrich their high school programs.

**High School Correspondence**

These correspondence courses provide special opportunities for students to meet college entrance requirements, to accelerate graduation, or to meet high school graduation requirements.

High School credit is granted by the student's high school, not by the University of Colorado.

It works like this: using printed study guides, texts, kits, and audio materials, you and your supervisor (usually a counselor) stay in touch with faculty who work for the Independent Study Programs at CU by mail and by telephone. Graded assignments are returned to you with comments so you can see how you are progressing. Start the course anytime. Work at your own pace.

Ask your guidance counselor or advisor about high school independent learning courses.

**Concurrent Registration in College Credit Courses**

Qualified high school seniors can get a head start at CU through concurrent registration in college credit courses by correspondence.

If approved by your school, courses can be used for high school graduation or accepted for college credit (special student) at the University of Colorado.

For further information, call 492-5148 or 492-6352.

---

**APPLIED MUSIC PROGRAM**

You need not be a regular campus student to take advantage of the wealth of talented music instruction at the University's College of Music.

In conjunction with the Division of Continuing Education, the College of Music offers a comprehensive program of private instruction at all skill levels in the following instruments:

- Banjo, Bassoon, Clarinet, Fiddle, Flute
- French Horn, Guitar, Harp, Mandolin, Oboe, Organ, Percussion, Piano, Sax, String Bass, Trombone, Trumpet, Tuba, Viola, Violin, Violincello, and Voice.

Two hours credit is optional. Practice facilities are available. Enrollees must supply their own instruments with the exception of piano and organ. Lesson times are arranged with the teachers who are graduate students in the College of Music.

For further information, call 492-5148 or 492-6352.
Engineers, Computer Scientists and Technical Managers: Earn a Master's Degree at the Worksite

Live TV, Two-way Audio or Videocassette

The Center for Advanced Training in Engineering and Computer Science (CATECS) delivers graduate-level courses directly to 45 off-campus sites. Transmitted live from the CU Boulder College of Engineering and Applied Sciences, two-way audio allows learners at their worksites to be an active part of the campus class.

Currently, 500 students are selecting from 40 graduate courses to advance their professional development. Students may obtain a Master of Engineering (M.E.) degree in computer science, most engineering disciplines and Engineering Management on-the-job. Most courses may also apply to the Master of Science in Engineering and Telecommunications and to the MBA.

The M.E. in Engineering Management (ENM) begins a new 2-year sequence Spring 1988. The curriculum includes a six-course core on engineering management, productivity and quality control, project management, financial accounting, leadership and a capstone case study project. An additional 15 credits of technical engineering course work completes this 30 credit hour program. Students may apply for the graduate degree now, enroll in a technical course this fall, then plan to begin the Engineering Management core sequence in January.

Tuition

Most CATECS students are sponsored by employers. Students should contact their education officer for company registration or sponsorship procedures. Tuition for business and technical courses is $750. ENM courses are $950. Students without company affiliation may enroll in CATECS courses for a reduced rate.

Dates to Remember

August 1 — Registration begins.
August 18 — Registration to EO's highly recommended.
August 21 — Registration deadline. Late fee $25 after August 21.
August 26 — Classes begin.
September 7 — Labor Day Holiday
September 11 — Last day to add or drop (without a "W" on transcript). No tuition refund after this date.
October 6 — Last day to drop without petitioning the Dean. Circumstances must be documented.
December 9 — Last day of class.

Short Courses

Lotus 1-2-3 for Engineers and Scientists (October 23-24)

Registration Deadline October 16
Fee $325.00

This course will provide hands-on experience in solving engineering and scientific problems using the spreadsheet program Lotus 1-2-3. Topics will include 1-2-3 fundamentals, macro language programming, numerical and statistical methods, and advanced applications. Participants should have an engineering or scientific background with some experience in at least one programming language. Some knowledge of personal computers and Lotus 1-2-3 is desirable also. Same course will be repeated January 8-9, 1988, with a January 2 deadline.

For specific registration details about these graduate credit and short courses, and the UPCOMING SPRING 1988 PROGRAM, contact: CATECS, University of Colorado at Boulder. (303) 492-6331.
Registration Information

Advance Registration is Necessary and Can Be Accomplished:

In person:
Monday through Thursday, 9 a.m. - 6 p.m.;
Friday, 9 a.m. - 5 p.m., 1221 University Avenue,
Boulder. Short-term metered parking nearby. Also, Thursday and Friday August 27 &
28 9 a.m. - 4 p.m., University Memorial
Center Ballroom.

By mail:
To enroll for courses, please fill out the appropriate forms (Noncredit/Certificate on page
57 — on page 59 for credit) completely, and send them to:
Division of Continuing Education
Campus Box 178
University of Colorado at Boulder
Boulder, Colorado 80309-0178
You may register for up to three credit hours
by mail. For additional credit hours, visit our
office. No limit on Noncredit or Certificate
courses.

Please:
Most courses have limited enrollment, so
register as soon as possible to insure your
place in class. Courses may be closed or
cancelled, depending upon enrollment.
Please register at least five days before
the starting date of any Noncredit/
Certificate course.

Compliance with Colorado House Bill
1021 requires that course enrollees verify
their Selective Service registration status.
Your mail-in registration form contains this
information. In-person registrants will be
given this form at our office. Phone-in
registrants may give information over
the phone.

Disabled individuals who would like to
register, please call our registration staff at
492-5148 and we will make special arrange-
ments to assist you.

All listed textbooks and supplies are avail-
able at the University Book Center, UMC
basement, on campus.

Refund information is listed with the spe-
cific program information. In all cases, if a
course is cancelled or rescheduled at an
inconvenient time, a full refund is given.
Credit course cash and credit card tuition
refunds are processed within two weeks of
completing a Drop Voucher in the Division
Registration Office, 1221 University Avenue.
Noncredit/Certificate course drops may be
phoned in. If payment was made by check,
the refund will take 4-6 weeks. That time
can be cut considerably by presenting a copy
of both front and back of your cancelled
check when dropping.

Weather-related closing policy: Students
may expect classes to be held when scheduled
even in inclement weather, the only excep-
tion being when the Chancellor closes the
campus because of extreme weather condi-
tions. Local radio stations will announce the
campus closing frequently during the day. Call
492-5500 for campus closing information.

The University of Colorado is an affir-
mative action/equal opportunity institution.
The Continuing Education facility is accessi-
ble to the handicapped.

SELECTIVE SERVICE REGISTRATION CERTIFICATION

Information on Selective Service registration must be provided in order to comply with Colorado law. Male students born after December 31, 1959, must complete this form in order to be permitted to register.

I certify that I am registered with the Selective Service. 

I am not required to register with the Selective Service because:

____ I am a female. 

____ I am in the U.S. Armed Forces on active duty. (NOTE: Members of the Reserves and National Guard must register with Selective Service.) 

____ I have not yet reached my 18th birthday. (NOTE: You must file this notice every term, if you are male, until you turn 18 and have registered with the Selective Service.) 

____ I am age 26, or older, as of the date of the first day of classes for the term for which I am registering. 

____ I am a non-immigrant alien lawfully admitted in the United States. 

I affirm under penalty of perjury that the information presented on this form is true and complete. 

(Note: A person may file, but shall not be required to file, a statement indicating his position as a Conscientious Objector. The filing of a Conscientious Objector statement does not exempt one from completing this form.) 

Student Signature: ____________________________ Date: ____________________________ 

Course No. ____________________________ Course Title and (if applicable) Section Number: ____________________________ Tuition: ____________________________

3 Easy Ways to Register

See Page 60 For Complete Registration Information

3. By Phone
For Noncredit/Certificate courses only, using VISA, MasterCard, or Choice, Monday, August 3 through Friday, September 25, call 492-2412 or 492-2407. Starting September 28, call 492-5148. A receipt will be mailed to you promptly.

2. By Mail
Use the form on page 63 for Boulder Evening Credit, form on page 61 for Noncredit/Certificate. Three credit hour limit by mail, no limit on Noncredit/Certificate. A receipt will be mailed back to you promptly.

1. In Person
Monday-Thursday, 9 a.m.-6 p.m., Friday, 9 a.m.-5 p.m. at 1221 University Avenue.
Free parking after 5 pm, and Saturdays

50¢ parking after 5 pm, and Saturdays (bring 2 quarters)

During any special event, Continuing Education students shall present their registration receipt to obtain parking at no extra charge (Parking Regulation III-D-6a.)
Free campus walking tours are given twice daily, at 10:30 AM and 2:30 PM, Monday through Friday, except when campus is closed (holidays). Tours start at the Office of Admissions, Regent 125. More information is available by calling 492-6301. This is a good opportunity to learn more about the beautiful CU campus, and gain familiarity with your class locations.
