CATALOG PRODUCTION
Catalog production is wholly self-sustaining and does not involve funds allocated by the legislature for the university at large.
Recycled paper is used throughout the book. Share your catalog with friends, and recycle all appropriate materials. Thank you.
The Continuing Education department offers a perfectly painless way to learn about politics in other countries:

**Loren Weinberg’s Political Science and Literature.** “Teaching political science through literature is a blast. Students get in touch with far parts of the globe, and it’s a wonderful way to learn about other countries’ political systems.” This is Weinberg’s favorite course, and why not? You learn about the politics and culture of faraway places from novels — better than textbooks any day.

“In my class we read really great stuff and learn about political systems along the way.”
BOULDER EVENING CREDIT offers university courses that give you more options and more flexibility to help you continue your education while juggling the demands of a busy life. To understand exactly how Evening Credit courses fit into your program of study, make an appointment to talk to an advisor. Evening Credit courses provide solutions to help you:

- Begin your degree
- Complete your degree
- Fulfill core requirements
- Make a difficult schedule work better for you
- Pick up credits you've overlooked or postponed
- Try on the idea of applying to CU

Eligibility: All you need is a high school diploma or GED. (Individuals on University of Colorado financial stops or academic suspension from the College of Engineering and Applied Science may not enroll.)

Academic Advising: An academic advisor is available to help you plan a degree program, decide on a major, or simply explore your options. Feel free to call 303-492-8252 for an appointment.

Privileges: As a Boulder Evening Credit student, total library services are available at no additional charge.

Pass/Fail: Any Boulder Evening course taken for pass/fail is subject to restrictions established by your school or college.

Final Grades: Final grades for Boulder Evening will be available approximately 2 weeks after the course ends. To check your final grade, see the "Grades" information on the CU Connect and PLUS Registration Instructions, page 17.

To Drop: To drop a credit course and ensure that you receive any tuition refund that may be due, come to the Division of Continuing Education and complete a drop voucher or petition form by the appropriate date. If you don't officially withdraw from a course, you may receive a grade of "F" for that course. Drop dates are listed on the calendar on page 4.

Tuition: Tuition is determined by residency status. Resident tuition is $136 per credit hour. Some courses requiring special equipment or materials may be slightly higher.

Nonresidents of Colorado are assessed tuition based on the number of semester hours for which they register. Nonresidents may register for up to three (3) semester hours at the rate of $326 per credit hour. Nonresidents registering for four (4) or more semester hours of Boulder Evening credit courses will be assessed a significantly higher rate that is comparable to the regular campus, nonresident rate.

The Division will charge our in-state rate for Boulder Evening when a nonresident degree student pays full out-of-state tuition through the Boulder campus and then enrolls for additional Boulder Evening courses.

Residency: If you have lived in Colorado for the past 12 months, you may be eligible for in-state tuition rates although you may be asked for documentation. Please see the calendar on page 4 for deadline dates to petition for in-state classification.

If you're not 23 years old by the first day of classes, you are assumed to have the same legal residence as your parents. If your parents live out of state, you may petition the University of Colorado for resident status as an emancipated minor. If you believe your initial classification is incorrect, talk to the Classification Coordinator at 303-492-5148.

---

Student Fees: Boulder Evening students have the option of paying student fees for use of campus facilities (RTD bus pass, Recreation Center, Wardenburg Health Center, and other student services). Information on cost and paying student fees may be obtained by calling 303-492-5148.

Financial Aid: Degree students may qualify for all financial aid programs if eligible. Nondegree students taking courses for credit may qualify for a Stafford Loan (formerly GSL) if eligible. Applications are available in the Office of Financial Aid, 303-492-4518, or visit the web site at www.colorado.edu/financialaid.

Scholarships: Students who are 25 years of age or older are eligible for the Nontraditional Student Scholarship for Continuing Education enrollment. August 12 is the fall application deadline. Scholarship awards range up to $365. Applications are available at Continuing Education or can be found on the Web at www.colorado.edu/conted/scholar.htm.

Veteran Benefits: As an eligible veteran or veteran dependent, you may enroll in evening classes and apply credit toward a degree. If you have questions about your eligibility and benefits contact Veterans Services in the Office of Financial Aid, 303-492-7322.

Transcripts: Boulder Evening courses and grades are recorded on official University of Colorado transcripts. To request a transcript visit the Registrar's web site at registrar.colorado.edu/support/transcripts.htm for information.

Final Exams: The final exam will be held the last day of the class. The last day of a class is available on the list of courses by start date on pages 5 and 6.

Verifying and Adjusting Your Schedule

Once you have registered, it is important that you verify your schedule either through CU Connect or PLUS. For Boulder Evening, you can adjust your schedule through the dates listed on the calendar on page 4.

Wait Lists

Placing your name on a wait list does not guarantee that you will be enrolled in that course. Enrollment is determined by the total number of spaces and the demand for each particular course. Spaces may or may not become available at a future time. Boulder Evening and Independent Learning waitlist positions are on a first-come, first-served basis.

You can check your position on any course wait list either on the Web at plus.colorado.edu/plus or by calling CU Connect and pressing 5 (list schedule function). If you choose to waitlist for a Boulder Evening or Independent Learning course and a space becomes available, you will automatically be enrolled in the course and additional tuition and fees assessed. We, therefore, encourage you to check your position on a wait list often to avoid being charged additional tuition and fees and receiving an "F" for the course.

Account Balances

The amount of tuition you owe is available both through CU Connect and PLUS. Credit card payments, using VISA, MasterCard or Discover, can be made on CU Connect and PLUS. You can also call our accounting office at 303-492-2212 to make a credit card payment, fax your credit card information to 303-492-3962, or visit our offices at 1505 University Avenue.

Continuing Education in cooperation with the University of Colorado at Boulder Bursar's Office is offering an additional payment option that enables you to submit payments online from your checking and/or savings account, using an electronic interface with your bank. The Payment Only Option is a safe secure method for you to pay your bill in a timely manner. You can obtain more information about the Payment Only Option by going to the CU Bursar's Office web site at www.bursar.colorado.edu, select Internet Bills/Payment and finally Payment Only Option.

Course Restrictions

Some Boulder Evening and Independent Learning courses have prerequisites and enrollment restrictions. It is your responsibility to ensure that you have met the listed prerequisites and/or restrictions. If you are unsure, please call 303-492-8252 and make an appointment with our academic advisor.

"I try to work with students to achieve their personal best. I enjoy hearing the words 'I did it!' That's the attitude math teacher Kristen Marshall brings to all her classes. Kristen guides her students through math problems so they can discover solutions for themselves. "My goal is to show students the beauty, grandeur and immense creativity of the far reaches of abstract thought."

"I strongly believe that 'Independent Learning (iL) is Education (e) to Infinity.'"
Independent Learning Programs

Independent learning courses put you in control, with choices to make about when you learn and how you learn. Many of our courses are correspondence based, with a printed study guide and student-instructor communication by US Postal Service (and increasingly, by e-mail). Some of our courses also have an online version, and growing numbers of our courses are delivered only on the Web, with all communication with the instructor and fellow students conducted on the Internet.

- Self-paced courses are open for registration at any time.
- Term-based courses provide rich interaction among students.
- Learn wherever you are.

So, it's up to you to challenge yourself and to decide how you want to take a course. Complete course descriptions are available on the Web at www.colorado.edu/cseo.

THEATRE

Monologue Workshop  
NCTH 029

In this 2-day workshop, you will fully rehearse a 2-4 minute monologue for auditioning. We will build your performance upon a foundation of understanding of what you and your character are trying to express, to whom and why. Artistic choices that emerge from the inspiration inherent in the script will give your performance both psychological depth and emotional truth. We will benefit from witnessing each other's rehearsal process and glean many useful tools from the shared experience. You are invited to choose your own monologue, or choose from several made available by the instructor before class or at the first class session. Please do not use a monologue you have used before and do not memorize the monologue before the first class.

Beth Ovens, Ph.D. in Theatre from CU-Boulder, teaches theatre for Continuing Education and the CU Honors Department. She recently published a book on theatre throughout the world entitled "Acting: An International Encyclopedia". What does programmer and teacher Carol Meier love about computers?

"I have a high-paying addiction. I love the immediate feedback you get from programming." She brings this same enthusiasm to her Java classes, where she shares her knowledge and experience, and gets similar gratifying feedback from her students – what she calls the “aha” moment when they understand a new concept.

“It’s important to know the practical aspects of a program, but it can be fun too.”

Carol Meier programmed this Lego robot using Java.

GENERAL COURSE INFORMATION

Prerequisites
Required prerequisites are listed at the end of each course description. The prerequisite(s) must be completed before you attend the course. Equivalent experience and/or course(s) from another institution may be accepted in place of the prerequisite(s). If you are unsure you have the necessary background to satisfy the prerequisite requirement, please call 303-492-6596.

Grading Policy
All computer applications courses are noncredit and do not apply toward any degree programs. There are two levels of grading depending on your education goals. The first level is the full assessment level, which is mandatory for anyone seeking to complete one of the computer certificate programs. We also recommend this level to all students wanting to get the most out of their computer applications course. Students in the first level receive a satisfactory (S) or unsatisfactory (U) mark. Attendance, quizzes, and/or homework assignments determine a satisfactory or unsatisfactory assessment. The second level of grading is for students not wanting to be assessed at all. These students must request to receive a no credit (NC) mark.

If you are working toward a certificate in Web Graphics, Programming, Network Administration, or Web Site Design, you must receive a satisfactory mark in all courses that apply toward the certificate. If you receive an unsatisfactory or no credit mark and wish to obtain a certificate, you must take the course over again and obtain a satisfactory mark.

Textbooks
Certain courses require or recommend textbooks. This will be indicated in the course descriptions. All textbooks are available at the University Book Store in the University Memorial Center (UMC), room number 10, or visit their web site at cubookstore.colorado.edu.

Trevor Peterson tests computer software but wants to learn to write programs. So for him, Jim Elliott’s C++ class is a perfect opportunity to acquire some new skills. "I use what I learn in class at my job. It helped me out a lot." Trevor also thought this Continuing Ed class was a great value for the price, and the Boulder location was quite convenient.

Windows Applications

Windows XP
CAAP 2141
Learn the essentials of Windows XP. This course will cover adding and removing programs, setting up your Internet, managing files and folders, using the Search Companion to find anything and trouble-shooting XP. Also learn to customize your computer using the control panel. This two-day course will allow time for experimentation and lots of practices. Prerequisite: Fundamental knowledge of basic computer functions.

Chris Mattson, B.S.

Section 300: Wednesdays, September 18 and 25, 9 a.m.-2:30 p.m. 2 sessions. Continuing Education Center (CEDU), Room 1B40 (if you require ADA accommodation, you must contact Continuing Education at least two weeks prior to the start date). $275.

Excel 2000 Level I
CAAP 2321
Gain a clear understanding of how to use Excel to create simple, powerful spreadsheets. Learn how to create a workbook – from the initial idea to a finished, well-formatted document. Emphasis is placed on formula creation and concepts, entry shortcuts, editing and formatting, printing options, print preview and page setups. Prerequisite: Proficiency with PCs and the Windows operating system.

Jeff Schartz, B.S.

Section 300: Thursday, September 19, 9 a.m.-4 p.m. 1 session. Continuing Education Center (CEDU), Room 1B40 (if you require ADA accommodation, you must contact Continuing Education at least two weeks prior to the start date). $215.

Excel 2000 Level II
CAAP 3321
In this course, students learn more about Excel’s security, automation and modification features, including automation through templates. Students learn invaluable techniques such as linking formulas, locking out edits, copying and pasting, and linking Excel data to other Windows programs using OLE as well as the database capabilities. Prerequisite: CAAP 2321 Excel 2000 Level I or equivalent.

Chris Mattson, B.S.

Section 300: Thursday, September 26, 9 a.m.-4 p.m. 1 session. Continuing Education Center (CEDU), Room 1B40 (if you require ADA accommodation, you must contact Continuing Education at least two weeks prior to the start date). $215.

Excel 2002 Level I
CAAP 2331
Gain a clear understanding of how to use Excel to create simple, powerful spreadsheets. Learn how to create a workbook – from the initial idea to a finished, well-formatted document. Emphasis is placed on formula creation and concepts, entry shortcuts, editing and formatting, printing options, print preview and page setups. Prerequisite: Proficiency with PCs and the Windows operating system.

Access 2000 Level I
CAAP 2421
Microsoft Access is a relational database used to manage information on many different levels for many purposes. This course will examine the Table object followed by the Query object. Students will learn how to create forms for efficient data display. Also covered is the use of Reports for grouping and printing of data, along with importing/exporting data and relational theory. Shortcuts, tips and tricks are offered throughout the course. Prerequisite: Proficiency with PCs and the Windows operating system.

Chris Mattson, B.S.

Section 301: Thursdays, September 5 and 12, 9 a.m.-4 p.m.

Ivy Kilbride

Section 302: Mondays, September 30 and October 7, 9 a.m.-4 p.m.

All Sections: 2 sessions. Continuing Education Center (CEDU), Room 1B40 (if you require ADA accommodation, you must contact Continuing Education at least two weeks prior to the start date). $350.
Access 2000 Level II
CAAP 3421
This one-day course is loaded with useful techniques and information designed to advance the Access user into the intermediate realm. Students will work with more advanced query and form design, with emphasis on the use of related data across multiple related data sources. Focus is placed on the use of the property sheet instead of the Access wizards to customize objects. Prerequisite: CAAP 2421 Access 2000 Level I, CAAP 2431 Access 2002 Level I or equivalent.

Chris Matton, B.S.

Enjoy non-competitive learning with others who share your interests.

**Professional Enhancement: Certificate Programs**
To polish skills or explore another field, Continuing Education offers a full spectrum of programs.

**Network Administration**
**Programming**
**Web Site Design**
**Web Graphics**

**Professional Development Programs**
For working professionals to build and enhance business skills.

**Center for Business Education**
**International English Center**

**Course Locations**
Course locations are noted at the end of most course descriptions. Many campus parking lots offer $1.25 parking after 5 p.m. and on Saturdays. Some are free during evenings and weekends. The Campus Map gives both building and parking lot locations. To skip parking altogether, take the RTD bus to campus.

**Parking**
Continuing Education students follow campus policy procedures. Parking permits may be purchased through Parking Services, 1050 Regent Drive. During special events on campus, students may present their registration receipt to park at no extra charge. Additional information is available on the Web at ucbparking.colorado.edu.

**Course Updates**
Occasionally information printed in this catalog changes such as course locations, cancellations, etc. For the most up-to-date information, visit our web site at www.colorado.edu/conted.

**Change Your Mind?**
Please let us know. If you drop a course before it begins, you may receive a full refund. Refer to each program description for refund policies after a course begins.

**Student Privacy**
You may elect to have directory information withheld about yourself which includes requesting transcripts over the phone. Please call or visit our office to receive the required form.

**Severe Weather**
Classes are held when scheduled. The Chancellor closes the campus only because of extreme weather conditions. Closings are announced on local radio and television stations. Or call 303-735-5000 for course closing information.

**Books and Supplies**
Required course materials are available at the CU Bookstore in the University Memorial Center on campus. Call 303-492-6411 or visit their web site at cubooks.colorado.edu.
