# Christian Traditions

On-Line • Summer B

Where did Christianity come  
from?

How did it change over the first  
1500 years?

RLST 3000: Christian Traditions serves as an introduction to the academic study of Christianity, understood in its historical context, beginning with its most remote Mesopotamian origins and through to beginnings of the Protestant Reformation. Coverage is global, but "Western" Christian traditions are emphasized, as is the evolution of doctrine, ritual and institutions in relation to social, cultural and political factors.

Instructor: Prof. Brian A. Catlos (RLST)  
Author of *Infidel Kings & Unholy Warriors* &  
*Muslims of Medieval Latin Christendom*
