**REMEMBER to bring each day:**

**Lunch, two full water bottles, rain jacket, insect repellent, sunscreen. Water shoes and warm jacket and hat on designated days. Thanks, parents!**

Summer 2009

Dear Parents,

We're excited that you chose to register your child for Peak and Prairie Science Day Camp. We will be visiting a variety of familiar locations along the front range while introducing students to the beloved ecosystems, plants and animals that call this place home. During the week we will incorporate plenty of games and environmental education activities with a community building focus.

Our responsibilities encompass all aspects of keeping your child safe, happy and wanting to come back for more! On the last day of the week, please join us at 4:00 pm for an experiential overview (i.e. your children will want you to participate in some of the games and activities that they've learned) to give you an idea of what they learned.

We look forward to a super fun with exploring Colorado on Peak and Prairie Science Camp! If you have any questions feel free to call us at 303-735-6628 or 0239.

Your Science Discovery Team for 2009!
